Time, Innovation and Mobilities Peter Frank Peters, 2006 By analyzing historic and contextualized transit practices and case studies of travel in technological cultures car travel air travel and cycling in Dutch towns this book argues that travel cannot simply be reduced to getting from A to B

Time, Innovation and Mobilities Peter Frank Peters, 2006-07-13 In social theory and sociology time and travel in technological cultures is one of the new and challenging research topics in the mobilities turn Yet surprisingly contemporary practices of mobility have till now seen only limited theorization within these disciplines By analyzing historic and contextualized transit practices this revealing book argues that travel cannot now simply be reduced to getting from A to B it is an integrated part of everyday life In this area researching how problems can be identified as dilemmas and reformulated as design problems helps create a new vocabulary one which will not only change the agenda in the debate on mobility problems in the public domain but will also suggest new ways of theorizing mobility innovations In this fascinating book author Peters develops a conceptual framework to study contemporary transit practices and evaluate innovation strategies gives new insights regarding historic and contemporary design strategies and regarding innovations related to travel in technological cultures gives special attention to electronic timespaces and ICT based mobility innovations investigates cases of travel in technological cultures car travel air travel and cycling in Dutch towns An original and provocative contribution to the emerging field of mobilities this book will become an essential resource for advanced undergraduate post graduate researchers and practitioners in the fields of sociology geography spatial planning policy and transportation studies

The Social Fabric of the Networked City Géraldine Pflieger, 2008-01-01 Constructed around the work of Manuel Castells on the space of places the space of flows and the networked city nine contributors focus on the transformation of the fabric of the networked city in terms of policies and social practices

Mobility, Space, and Culture Peter Merriman, 2012 Over the past ten to fifteen years there has emerged an increasing concern with mobility in the social sciences and humanities In *Mobility Space and Culture* Peter Merriman provides an important and timely contribution to the mobilities turn in the social sciences encouraging academics to rethink the relationship between movement embodied practices space and place The book takes an interdisciplinary approach drawing upon theoretical and empirical work from across the social sciences and humanities to provide a critical evaluation of the relationship between mobility and place site reformulating places as in process open and dynamic spatial formations Merriman draws upon post structuralist writings on space practice and society to demonstrate how movement is not simply practised or experienced in relation to space and time but gives rise to rhythms forces atmospheres affects and materialities which are often more crucial to embodied apprehensions of events than sensibilities of spatiality and temporality He draws upon detailed empirical research on experiences of and social reactions to driving in late Victorian and Edwardian Britain to trace how the motor car became associated with sensations of movement space and enmeshed with debates about embodiment health visibility gender and

politics The book will be essential reading for undergraduates and postgraduates studying mobility in sociology geography cultural studies politics transport studies and history

Complexity and Social Movements Graeme Chesters,Ian Welsh,2006-11-22 Making use of complexity theory concepts from the natural and social sciences this informative book provides a framework for understanding mobilization identity formation and information flows in global social movements

Theories of the Information Society Frank Webster,2014-03-21 Information is regarded as a distinguishing feature of our world Where once economies were built on industry and conquest we are now part of a global information economy Pervasive media expanding information occupations and the development of the internet convince many that living in an Information Society is the destiny of us all Coping in an era of information flows of virtual relationships and breakneck change poses challenges to one and all In *Theories of the Information Society* Frank Webster sets out to make sense of the information explosion taking a sceptical look at what thinkers mean when they refer to the Information Society and critically examining the major post war approaches to informational development The fourth edition of this classic study brings it up to date with new research and with social and technological changes from the Twitter Revolutions of North Africa to financial crises that introduced the worst recession in a life time to the emergence of social media and blogging and reassesses the work of key theorists in the light of these changes More outspoken than in previous editions Webster urges abandonment of Information Society scenarios preferring analysis of the informatization of long established relationships This interdisciplinary book is essential reading for those trying to make sense of social and technological change in the post war era It addresses issues of central concern to students of sociology politics geography communications information science cultural studies computing and librarianship

Travel Connections Jennie Germann Molz,2012 This book offers a detailed and unified account of travelers lived experiences of travel and technology use and an ethnographically informed analysis of the social cultural and spatial implications of the intersection between travel and technology

Aeromobilities Saulo Cwerner,Sven Kesselring,John Urry,2009-01-13 *Aeromobilities* provides a broad introduction to the study of air travel airspaces and aviation from the perspective of the social sciences and the humanities The book makes a strong case for a systematic interdisciplinary study of some of the most powerful forces that have shaped our mobile globalization

Urban Fears and Global Terrors Victor Seidler,2007-10-18 First published in 2007 Routledge is an imprint of Taylor Francis an informa company

Stillness in a Mobile World David Bissell,Gillian Fuller,2013-01-11 This edited collection of essays on the conceptual political and philosophical importance of stillness is positioned within a world that has increasingly come to be understood through the theoretical and conceptual lens of movement With contributions from leading scholars in the field the diversity of this collection illuminates the multiplicity of ontological and epistemological registers through which stillness moves from human geography to media studies cultural theory to fine arts With the help of luminaries such as Deleuze Bergson Barthes and Beckett this book interweaves cutting edge theoretical insight with empirical illustrations which
