God: Volume 1, Selected Essays Nicholas Wolterstorff, 2010-02-04 Inquiring about God is the first of two volumes of Nicholas Wolterstorff's collected papers This volume collects Wolterstorff's essays on the philosophy of religion written over the last thirty five years The essays which span a range of topics including Kant's philosophy of religion the medieval or classical conception of God and the problem of evil are unified by the conviction that some of the central claims made by the classical theistic tradition such as the claims that God is timeless simple and impassible should be rejected Still Wolterstorff contends rejecting the classical conception of God does not imply that theists should accept the Kantian view according to which God cannot be known Of interest to both philosophers and theologians Inquiring about God should give the reader a lively sense of the creative and powerful work done in contemporary philosophical theology by one of its foremost practitioners

Time and Eternity Brian Leftow, 2018-09-05 Brian Leftow makes an important contribution to the longstanding debate among philosophers and theologians about the nature of God's eternity. The author develops a powerful and original defense of the notion that God is eternal in that he exists timelessly; that is, that though God exists, he does not exist at any time. Leftow defends the claim that a timeless God can be an object of human experience and he attempts to delineate the extent of such a God's omniscience. Finally, the author pays special attention to the relation between the claim that God is timeless and the claim that God is metaphysically simple.

Freedom Henri Bergson, 2024-05-02 For 15 years Henri Bergson, the most important French philosopher of the early 20th century, taught at the Collège de France. Speaking without notes, most of his classes are now lost to history, but records of a handful of courses fortuitously survived thanks to stenographic transcripts. Conveying Bergson's very voice, these extraordinary documents are finally presented here in English. The 1904-1905 lectures are dedicated to the topic of freedom, or, as Bergson put it, the evolution of the problem of freedom. Building on the philosophy of freedom from his first book *Time and Free Will*, he proposes that freedom is not only a fundamental human experience but characteristic of all life as such. By retracing how ancient and modern philosophers have dealt with the delicate question of freedom, Bergson demonstrates the necessity and also the radically new character of his own theory of freedom. Bergson's lectures are a feast for many audiences. For philosophers, they give a fuller picture of his thought and contain deep reflections on many core topics in philosophy today: from the nature of time to the difference between brain and mind, the relation between memory and perception, and the vindication of freedom over determinism. For intellectual historians, the lectures are a treasure trove: as a slice of the living thought of a great thinker, as an extended analysis of the natural and human sciences of his day, and as a rich commentary on the history of ancient and modern philosophy. Finally, for cultural historians and literary scholars, the lectures were the cultural capital of Belle époque France, consumed by elites and a vast educated public. They are also part of an exceedingly rare genre in modern philosophy: spoken

not written lectures and expressed as a veritable stream of philosophical consciousness that is remarkably structured and analytically lucid
