

THE WOUNDED WOMAN

"Her Identity Is Her Tragedy"

The church has entered a most unusual season that women and men must be prepared to separate from the carnal nature that has engulfed so many in the body of Christ. Although scripture tells the church to come from among the world and be separate.

The church has taken and surpassed the world in carnality while using their identity to promote Christ's agenda. This subtle display of carnality has taken roots in the pews of the sanctuary and being used as a tool to draw people to Christ.

A direct insult to Christ who clearly spoke if he be lifted up he will draw all men to him but yet the marketing of ministry is void of Christ's identity.

The Tragic Life Story of Medea as Mother, Monster, and Muse Jana Rivers Norton, 2019-11-13 This volume offers a critical yet empathic exploration of the ancient myth of Medea as immortalized by early Greek and Roman dramatists to showcase the tragic forces afoot when relational suffering remains unresolved in the lives of individuals families and communities Medea as a tragic figure whose sense of isolation and betrayal interferes with her ability to form healthy attachments reveals the human propensity for violence when the agony of unresolved grief turns to vengeance against those we hold most dear However metaphorically her life story as an emblem for existential crisis serves as a psychological touchstone in the lives of early twentieth century female authors who struggled to find their rightful place in the world to resolve the sorrow of unrequited love and devotion and to reconcile experiences of societal abandonment and neglect as self discovery

Wounds and Words Christa Schönfelder, 2014-04-15 Trauma has become a hotly contested topic in literary studies But interest in trauma is not new its roots extend to the Romantic period when novelists and the first psychiatrists influenced each others investigations of the wounded mind This book looks back to these early attempts to understand trauma reading a selection of Romantic novels in dialogue with Romantic and contemporary psychiatry It then carries that dialogue forward to postmodern fiction examining further how empirical approaches can deepen our theorizations of trauma Within an interdisciplinary framework this study reveals fresh insights into the poetics politics and ethics of trauma fiction

The Wounded Body Fabrizio Bondi, Massimo Stella, Andrea Torre, 2022-03-10 This edited collection explores the image of the wound as a cultural symptom and a literary visual trope at the core of representations of a new concept of selfhood in Early Modern Italian and English cultures as expressed in the two complementary poles of poetry and theatre The semantic field of the wounded body concerns both the image of the wound as a traumatic event which leaves a mark on someone's body and soul and prompts one to investigate its causes and potential solutions and the motif of the scar which draws attention to the fact that time has passed and urges those who look at it to engage in an introspective and analytical process By studying and describing the transmission of this metaphoric paradigm through the literary tradition the contributors show how the image of the bodily wound from Petrarch's representation of the Self to the overt crisis that affects the heroes and the poetic worlds created by Ariosto and Tasso Spenser and Shakespeare could respond to the emergence of Modernity as a new cultural feature
