A selective compendium of public domain documents, it brings together in one volume a wealth of knowledge and useful instruction on just about every imaginable aspect of self-sufficiency, from building a dwelling and growing food to raising children using tools of all kinds and yes, getting more mileage out of your car. Readers will learn how to build a greenhouse, administer first aid, stock an emergency shelter, survive in the wilderness at sea and in the city, plant, buy farmland, grow plants indoors and out, read architect's drawings, care for household pets, repair clothing, hunt, trap, and fish, repair a screen or leaking faucet, butcher and store big game, kill, relieve allergy symptoms, control insects, stay safe during storms and floods, can and freeze fruits and vegetables, take your own blood pressure, and much, much more. Praise for a previous edition: How we have survived this long without this book, I don't know. The concept is brilliant and simple. If we had lived in a rural community a century ago, much of the knowledge gathered here would have been in our bones. Harper's Learning Factories Eberhard Abele, Joachim Metternich, Michael Tisch, 2018-10-10 This book presents the state of the art of learning factories. It outlines the motivations, historic background, and the didactic foundations of learning factories.
