Nisbet, This classic volume deals with a crucial contemporary social issue the conflict between traditionalism and modernism Nisbet considers such subjects as power community culture and the university He deals directly with the values of authority tradition hierarchy and community on the one hand and individualism secularism and revolt on the other Nisbet s underlying argument is that there is a close historical relationship between the distribution of power in democratic society and the displacement of social class kinship neighborhood and the church The book challenges concerned Americans to understand and address the basic conflicts confronting contemporary society In his introduction Robert G Perrin shows how the chapters in this volume reflect Nisbet s sociological vision exemplified throughout his career Perrin notes that when these writings first appeared they stimulated and informed debate on a broad range of topics such as value conflict leadership community sociology social class technology and the university They also foreshadowed works yet to come in Nisbet s long and distinguished intellectual journey Originally published in 1968 Tradition and Revolt was greeted with thoughtful reviews in leading sociology journals Writing in the American Journal of Sociology Joseph R Gusfield called it so welcome a publication one containing remarkable contributions to the analysis of modern society Nisbet s vision of Western social life as shaped by the struggle between the dialectically opposed values of tradition and modernity illuminates contemporary issues Tradition and Revolt will be of particular value to sociologists cultural historians and political theorists Robert A Nisbet 1913 1996 was Albert Schweitzer Professor Emeritus of the Humanities at Columbia University and before that dean of the School of Humanities at the University of California at Riverside Among his many books are History of the Idea of Progress The Sociological Tradition The Degradation of the Academic Dogma and Teachers and Scholars all available from Transaction Robert G Perrin is professor of sociology and director of graduate studies at the University of Tennessee **Structure, Consciousness, and History** Richard Harvey Brown, Stanford M. Lyman, 1978-08-31 First published in 1978 this volume is addressed to the crisis prevailing in the social and cultural sciences The authors explore the conflict between positivism and romanticism between hard and soft sociological research methods and between objectivity and subjectivity conflicts that were particularly acute in sociology at the time of publication All of the essays adopt the approach of symbolic realism or cognitive aesthetics to overcome the dualism in conventional sociological theory This strategy of symbolic realism is a philosophical amalgam forged from findings in existential phenomenology ordinary language philosophy and pragmatism It establishes a legitimate basis for the application of aesthetic criteria to truth seeking in the social sciences The synthesis emergent from these essays suggests a paradigm with broad implications for all the human studies Students of culture will find this volume a provocative point of departure for their own investigations **New Horizons in Sociological Theory and Research** Luigi Tomasi, 2020-07-24 This title was first published in 2001 This book tackles the important issue of the tasks that confront

Piderit, Melanie M. Morey, 2012-02-14 From the origin of universities through their first six hundred years of existence philosophy and theology were the central disciplines That changed dramatically in the nineteenth century As German universities started to establish chairs in mathematics chemistry and philology new academic departments became more distinct and religious issues formerly addressed gradually receded into the background This book focuses on religious issues relating to current academic disciplines Contributors draw upon insights from two theological essays to address religious themes especially Catholic ones pertinent to their discipline as it is taught on the undergraduate level In addition to Catholic anthropology and theology the chapters address Catholic issues in English literature philosophy political theory history mathematics biology physics and astronomy psychology environmental studies art music business and economics education medicine and law *Civilization: Contents, Discontents, and Malcontents and Other Essays* (c) Stanford M. Lyman, 1990 **Crisis and Transformation in Seventeenth-century China** Chun-shu Chang, Shelley Hsueh-lun Chang, 1998 Describes the social and cultural transformation of seventeenth century China through the life and work of Li Yu *The Normative Structure of Sociology (RLE Social Theory)* Hermann Strasser, 2014-08-13 In this provocative analysis of the central issues and developments in modern social theory Dr Strasser

contends that enquiry into the function tasks and mission of sociology as a discipline can be understood only in relation to the subject's historical development. He believes that a discussion of the origin and intention of sociology particularly in relation to the established social order enables us to grasp fully the nature of sociological theory both past and present. He maintains that a sociologist's own position in society and consequently his views on its development and his way of expressing those views will affect the theoretical position he takes up.
