LEVELS OF CULTURE

- **National culture** refers to those beliefs, learned behavior patterns, values, and institutions that are shared by citizens of the same nation.
- **International culture** is the term for cultural traditions that extend beyond and across national boundaries. Because culture is transmitted through learning rather than genetically, cultural traits can spread through borrowing or *diffusion from one group to another*:
 - Borrowing
 - Colonialism

Writing Borderless Histories of Art Claire Farago,2025-06-30 Writing Borderless Histories of Art is an aspirational historical and critical project that offers a fundamental rethinking of the relationship of humans to the rest of nature Social justice Indigeneity abuses of power and the environmental crisis are the burning issues of today A transcultural approach calls for abandoning structures of domination that are built into the academic disciplines regardless of the scale or extent of interpretation Drawing upon writings from a wide range of fields Claire Farago argues that Art History can play a role in advancing the public s interconnectedness with the planetary life support system that so urgently needs to be restored Studying the discourse on art at the intersection of global capitalism environmental degradation and human subjection over four centuries Writing Borderless Histories of Art advocates ontologies that do not distinguish between the sentience of humans and other animals and go beyond the dualistic metaphysics of the nature culture divide While this book is addressed to a wide audience its multilayered approach also reaches out to art historians for whom chronology canons and style are

structures fundamental to the organization and operation of the discipline The book is neither a history of ideas nor a search for the origins of art history but a recognition of the structures that drive its narratives **Forthcoming Books** Rose Army,2002-04 *Jesus in Our Wombs* Rebecca J. Lester,2005 In *Jesus in Our Wombs* Rebecca J Lester takes us behind the walls of a Roman Catholic convent in central Mexico to explore the lives training and experiences of a group of postulants young women in the first stage of religious training as nuns Lester who conducted eighteen months of fieldwork in the convent provides a rich ethnography of these young women s journeys as they wrestle with doubts fears ambitions and setbacks in their struggle to follow what they believe to be the will of God Gracefully written finely textured and theoretically rigorous this book considers how these aspiring nuns learn to experience God by cultivating an altered experience of their own female bodies a transformation they view as a political stance against modernity Lester explains that the Postulants work toward what they see as an authentic femininity one that has been eclipsed by the values of modern society The outcome of this process has political as well as personal consequences The Sisters learn to understand their very intimate experiences of the Call and their choices in answering it as politically relevant declarations of self Readers become intimately acquainted with the personalities family backgrounds friendships and aspirations of the Postulants as Lester relates the practices and experiences of their daily lives Combining compassionate engaged ethnography with an incisive and provocative theoretical analysis of embodied selves *Jesus in Our Wombs* delivers a profound analysis of what Lester calls the convent s technology of embodiment on multiple levels from the phenomenological to the political
