follow fashions blindly or to accept without thinking the views of those around him He is always prepared to listen carefully
to the arguments of others He likes a good debate He is always asking questions Here he expounds the common sense ideas
he has formed about humankind and the world of today and he attempts to explain why so many of the changes he has seen

German and British armour development during the same period and the US Army's experience with counter insurgency

during the Vietnam War the authors offer a novel explanation for change rooted in managerial strategies for aligning service incentives and norms With contemporary policy makers scrambling to digest the lessons of recent wars in Kosovo Afghanistan and Iraq as well as to meet the unfolding challenges of the new revolution in military affairs RMA understanding the sources and impediments to transformation has become critical
