Un Visage Du Pouvoir French Edition:

Le masque : une "inquiétante étrangeté" Philippe Meunier, Edgard Samper, 2013-10-09 Le présent ouvrage est le fruit d'une réflexion qui a nourri un séminaire de l'équipe des hispanistes GRIAS du Centre d'Études sur les Littératures Étrangères et Comparées EA 3069 et d'un colloque international Espagne La pathologie du pouvoir: vices, crimes et délits des gouvernants Patrick Gilli, 2016-02-02 La singularité de la criminalité des gouvernants ou de leurs actes peccamineux réside dans la rareté des condamnations qu'ils ont subies. En examinant sur la longue durée les formes de dénonciation de ces délits des hommes de pouvoir, le livre essaie de comprendre les raisons qui aboutissent à la rupture du consensus et la remise en cause de l'acceptation sociale des traditions jusqu'alors tolérées : corruption, extorsion, abus en tout genre. Les différentes contributions examinent les conditions de ces condamnations morales et politiques et dessinent un tableau nuancé de ces pathologies du pouvoir qui loin d'être invariables dans le temps sont articulées aux paradigmes moraux de chaque société historique. Les contributeurs sont : Nathalie Barrandon, Anne Catherine Baudoin, Franck Collard, Kathleen Crowther, Angela De Benedictis, Silvia Di Paolo, Julien Dubouloz, Patrick Gilli, Cedric Giraud, Thomas Granier, Laurent Guitton, Charles Guerin, Corinne Manchio, Nancy McLoughlin, Hélène Marnard, Richard Newhauser, Flocel Sabat, Armand Strubel, Julien Thiry et Silvana Vecchio. English: What is singular about the criminality of rulers or their sinful acts is how rarely they are convicted. Through a long-term study of the forms of denunciation of crimes committed by those who hold power, this book tries to understand the reasons that lead to breaking the consensus and calling into question the social acceptance of traditions which had hitherto been tolerated: corruption, extortion, different types of abuse. The various contributions investigate the moral and political conditions of these convictions and give a well-balanced account of these pathologies of power far from being invariable over time: they are consistent with the moral paradigms of each society in history. **Translation in French and Francophone Literature and Film** James T. Day, 2009 This volume collects papers presented at the annual French Literature Conference sponsored by the Department of Languages, Literatures and Cultures of the University of South Carolina. **Nouvelle Collection Des Mémoires Pour Servir À L'histoire de France** Joseph Fr. Davis, 2020-08-07 Americans are often baffled by France's general indifference to religion and laws forbidding religious symbols in public schools full face veils in public places and even the interdiction of burkinis on French beaches An understanding of laïcité provides insight in beginning to understand France and its people Laïcité has been described as the complete secularization of institutions as a necessity to prevent a return to the Ancien Régime characterized by the union of church and state To understand the concept of laïcité one must begin in the sixteenth century with the Protestant Reformation and freedom of conscience recognized by the Edict of Nantes in 1598 This has been called the period of incipient laïcité in the toleration of Protestantism The Revocation of the Edict of Nantes in 1685 reestablished the union of the throne and altar which resulted in persecution of the Huguenots who fought for the principle of the freedom of conscience French laïcité presents a specificity in origin definition and evolution which led to the official separation of church and state in 1905 The question in the early twentieth century concerned the Roman Catholic Church's compatibility with democracy That same question is being asked of Islam in the twenty-first century *Religious Rules, State Law, and Normative Pluralism - A Comparative Overview* Rossella Bottoni, Rinaldo Cristofori, Silvio Ferrari, 2016-07-07 This book is devoted to the study of the interplay between religious rules and State law It explores how State recognition of religious rules can affect the degree of legal diversity that is available to citizens and why such recognition sometime results in more individual and collective freedom and sometime in a threat to equality of citizens before the law The first part of the

book contains a few contributions that place this discussion within the wider debate on legal pluralism While State law and religious rules are two normative systems among many others the specific characteristics of the latter are at the heart of tensions that emerge with increasing frequency in many countries The second part is devoted to the analysis of about twenty national cases that provide an overview of the different tools and strategies that are employed to manage the relationship between State law and religious rules all over the world
