Onyinah,2019-05-21 Witchcraft and exorcism have long been dominant features of life in African cultures This unique book provides a thorough field research based description and analysis of a specifically Pentecostal Christian response to these phenomena within the Akan culture of Ghana Anthropological studies generally claim that the ultimate goal of exorcism is modernisation Using interdisciplinary studies with a theological focus the author takes a different view arguing that it is divinatory consultation or an inquiry into the sacred and the search for meaning that underlies the current deliverance ministry where the focus is to identify and break down the so called demonic forces by the power of God and to deliver people from their torment The deliverance ministry is one attempt to contextualise the gospel for African people However preoccupation with demonisation and exorcistic practices is found to bring Christianity into tension with the Akan culture family ties and other religions In order to develop a properly safeguarded ministry of exorcism in an African context the author examines contextualisation and suggests the integration into African Christianity of divinatory consultation which has strong resonances with the biblical concept of prayer *Major Spiritual Warfare and Deliverance Ministry Principles* Eric Gondwe,2006-11-11 255 pages Please note This is the Second Edition of the book Third Editions are now available in two separate books one on Spiritual Warfare Principles and another on Christian Deliverance Principles Third editions are extensively revised and updated versions due to reader recommendations on additional content To go to the third editions please click on the author s name above or click on the appropriate book title link above depending on which page you re on
