Uncertain Victory Social Democracy And Progressivism In European And American Thought 1870 19

Theodore Christou

Uncertain Victory Social Democracy And Progressivism In European And American Thought 1870 19:

Uncertain Victory James T. Kloppenberg, 1988-03-24 Between 1870 and 1920 two generations of European and American intellectuals created a transatlantic community of philosophical and political discourse Uncertain Victory the first comparative study of ideas and politics in France Germany the U S and Great Britain during these fifty years demonstrates how a number of thinkers from different traditions converged to create the theoretical foundations for new programs of social democracy and progressivism Kloppenberg studies a wide range of pivotal theorists and activists including philosophers such as William James Wilhelm Dilthey and T H Green democratic socialists such as Jean Jaur s Walter Rauschenbusch Eduard Bernstein and Beatrice and Sidney Webb and social theorists such as John Dewey and Max Weber as he establishes the connection between the philosophers challenges to the traditions of empiricism and idealism and the activists opposition to the traditions of laissez faire liberalism and revolutionary socialism By demonstrating a link between a philosophy of self conscious uncertainty and a politics of continuing democratic experimentation and by highlighting previously unrecognized similarities among a number of prominent 19th and 20th century thinkers Uncertain Victory is sure to spur a reassessment of the relationship between ideas and politics on both sides of the Atlantic **The Progressives'**

Century Stephen Skowronek, Stephen M. Engel, Bruce A. Ackerman, 2016-01-01 Chapter 20 How the Progressives Became the Tea Party s Mortal Enemy Networks Movements and the Political Currency of Ideas Chapter 21 What Is to Be Done A New Progressivism for a New Century List of Contributors Index A B C D E F G H I J K L M N O P R S T U V W Y Z

Rethinking American History in a Global Age Thomas Bender, 2002-05-14 In rethinking and reframing the American national narrative in a wider context the contributors to this volume ask questions about both nationalism and the discipline of history itself The essays offer fresh ways of thinking about the traditional themes and periods of American history By locating the study of American history in a transnational context they examine the history of nation making and the relation of the United States to other nations and to transnational developments What is now called globalization is here placed in a historical context A cast of distinguished historians from the United States and abroad examines the historiographical implications of such a reframing and offers alternative interpretations of large questions of American history ranging from the era of European contact to democracy and reform from environmental and economic development and migration experiences to issues of nationalism and identity But the largest issue explored is basic to all histories How does one understand teach and write a national history even as one recognizes that the territorial boundaries do not fully contain that history and that within that bounded territory the society is highly differentiated marked by multiple solidarities and identities Rethinking American History in a Global Age advances an emerging but important conversation marked by divergent voices many of which are represented here The various essays explore big concepts and offer historical narratives that enrich the content and context of American history The aim is to provide a history that more accurately reflects the

dimensions of American experience and better connects the past with contemporary concerns for American identity structures of power and world presence Cities, Sin, and Social Reform in Imperial Germany Andrew Lees,2002 An important examination of the colorful histories of urbanization and social reform in Imperial Germany *Journal of the Civil War Era* William A. Blair,2013-12-01 The Journal of the Civil War Era Volume 3 Number 4 December 2013 TABLE OF CONTENTS SPECIAL ISSUE PROCLAIMING EMANCIPATION AT 150 Articles Introduction Martha S Jones Guest Editor History and Commemoration The Emancipation Proclamation at 150 James Oakes Reluctant to Emancipate Another Look at the First Confiscation Act Stephen Sawyer William J Novak Emancipation and the Creation of Modern Liberal States in America and France Thavolia Glymph Rose s War and the Gendered Politics of a Slave Insurgency in the Civil War Martha Jones Emancipation Encounters The Meaning of Freedom from the Pages of Civil War Sketchbooks Book Reviews Books Received Notes on Contributors **Mead and Modernity** Filipe Carreira da Silva,2010-07-08 Filipe Carreira da Silva addresses the basic questions How should we read Mead and Why should we read Mead today by showing that the history of ideas and theory building are closely related endeavors Following a contextualist approach in exploring the meaning of Mead s writings Carreira da Silva reads the entire corpus of Mead s published and unpublished writings in light of the context in which they were originally produced from concrete events like the American involvement in World War I to more general debates like that of the nature of modernity Mead and Modernity attests to the relevance of Mead s ideas by assessing the relative merits of his responses to three fundamental modern problematics science selfhood and democratic politics The outcome is an innovative intellectual portrait of Mead as a seminal thinker whose contributions extend beyond his well known social theory of the self and include important insights into the philosophy of science and radical democratic theory Young Sidney Hook Christopher Phelps,2005 In the first biography of philosopher Sidney Hook since his death in 1989 Christopher Phelps vividly describes the neglected early thought and political history of this important New York intellectual Phelps chronicles Hook s early years and explores the contributions young Hook made to social theory ethics politics epistemology and discussions of scientific method 12 photos **The Transatlantic Collapse of Urban Renewal** Christopher Klemek,2011-07 The Transatlantic Collapse of Urban Renewal examines how postwar thinkers from both sides of the Atlantic considered urban landscapes radically changed by the political and physical realities of sprawl urban decay and urban renewal With a sweep that encompasses New York London Berlin Philadelphia and Toronto among others Christopher Klemek traces changing responses to the challenging issues that most affected the lives of the world s cities In the postwar decades the principles of modernist planning came to be challenged in the grassroots revolts against the building of freeways through urban neighborhoods for instance or by academic critiques of slum clearance policy agendas and then began to collapse entirely Over the 1960s several alternative views of city life emerged among neighborhood activists New Left social scientists and neoconservative critics Ultimately while a pessimistic view of urban crisis may have won out in the United

States and Great Britain Klemek demonstrates that other countries more successfully harmonized urban renewal and its alternatives This much anticipated book provides one of the first truly international perspectives on issues central to historians and planners alike making it essential reading for anyone engaged with either field *The Virtues of Liberalism* Kloppenberg, 2000 This spirited analysis and defense of American liberalism demonstrates the complex and rich traditions of political economic and social discourse that have informed American democratic culture from the seventeenth century to the present The Virtues of Liberalism provides a convincing response to critics both right and left Against conservatives outside the academy who oppose liberalism because they equate it with license James T Kloppenberg uncovers ample evidence of American republicans and liberal democrats commitments to ethical and religious ideals and their awareness of the difficult choices involved in promoting virtue in a culturally diverse nation Against radical academic critics who reject liberalism because they equate it with Enlightenment reason and individual property holding Kloppenberg shows the historical roots of American liberals dual commitments to diversity manifested in institutions designed to facilitate deliberative democracy and to government regulations of property and market exchange in accordance with the public good In contrast to prevailing tendencies to simplify and distort American liberalism Kloppenberg shows how the multifaceted virtues of liberalism have inspired theorists and reformers from Thomas Jefferson and James Madison through Jane Addams and John Dewey to Martin Luther King Jr and then explains how these virtues persist in the work of some liberal democrats today Endorsing the efforts of such neo progressive and communitarian theorists and journalists as Michael Walzer Jane Mansbridge Michael Sandel and E J Dionne Kloppenberg also offers a more acute analysis of the historical development of American liberalism and of the complex reasons why it has been transformed and made more vulnerable in recent decades An intelligent coherent and persuasive canvas that stretches from the Enlightenment to the American Revolution from Tocqueville s observations to the New Deal s social programs and from the right to worship freely to the idea of ethical responsibility this book is a valuable contribution to historical scholarship and to contemporary political and cultural debates Global Debates About Taxation Holger Nehring, Florian Schui, 2007-04-17 Current debates about taxes are dominated by references to foreign models The contributors to this book explore how ideas about taxation were transferred between and within countries from the mid eighteenth century to the present They send out a word of caution to current policymakers looking for straightforward solutions from abroad *Labor Histories* Eric Arnesen, Julie Greene, Bruce Laurie, 1998-06 Is class outmoded as a basis for understanding labor history This significant new collection emphatically says No Touching on such subjects as migrant labor religion ethnicity agricultural history and gender these thirteen essays by former students of David Montgomery a preeminent leader in labor circles as well as in academia demonstrate the sheer diversity of the field today The Scientific Method Henry M. Cowles, 2020-04-14 The surprising history of the scientific method from an evolutionary account of thinking to a simple set of steps and the rise of psychology in the nineteenth century The idea of a single scientific method shared

across specialties and teachable to ten year olds is just over a hundred years old For centuries prior science had meant a kind of knowledge made from facts gathered through direct observation or deduced from first principles But during the nineteenth century science came to mean something else a way of thinking The Scientific Method tells the story of how this approach took hold in laboratories the field and eventually classrooms where science was once taught as a natural process Henry M Cowles reveals the intertwined histories of evolution and experiment from Charles Darwin s theory of natural selection to John Dewey s vision for science education Darwin portrayed nature as akin to a man of science experimenting through evolution while his followers turned his theory onto the mind itself Psychologists reimagined the scientific method as a problem solving adaptation a basic feature of cognition that had helped humans prosper This was how Dewey and other educators taught science at the turn of the twentieth century but their organic account was not to last Soon the scientific method was reimagined as a means of controlling nature not a product of it By shedding its roots in evolutionary theory the scientific method came to seem far less natural but far more powerful This book reveals the origin of a fundamental modern concept Once seen as a natural adaptation the method soon became a symbol of science s power over nature a power that until recently has rarely been called into question

Ideology in U.S. Foreign Relations Christopher McKnight Nichols, David Milne, 2022-08-09 Winner 2023 Joseph Fletcher Prize for Best Edited Book in Historical International Relations History Section International Studies Association Ideology drives American foreign policy in ways seen and unseen Racialized notions of subjecthood and civilization underlay the political revolution of eighteenth century white colonizers neoconservatism neoliberalism and unilateralism propelled the post Cold War United States to unleash catastrophe in the Middle East Ideologies order and explain the world project the illusion of controllable outcomes and often explain success and failure How does the history of U S foreign relations appear differently when viewed through the lens of ideology This book explores the ideological landscape of international relations from the colonial era to the present Contributors examine ideologies developed to justify or resist white settler colonialism and free trade imperialism and they discuss the role of nationalism in immigration policy The book reveals new insights on the role of ideas at the intersection of U S foreign and domestic policy and politics It shows how the ideals coded as civilization freedom and democracy legitimized U S military interventions and enabled foreign leaders to turn American power to their benefit The book traces the ideological struggle over competing visions of democracy and of American democracy s place in the world and in history It highlights sources beyond the realm of traditional diplomatic history including nonstate actors and historically marginalized voices Featuring the foremost specialists as well as rising stars this book offers a foundational statement on the intellectual history of U S foreign policy

Pragmatism Russell B. Goodman, 2005 Presents key texts in and about pragmatism from its origins in nineteenth century America to its contemporary revival as an international and multi disciplinary phenomenon

The Unintended Monica Huerta, 2023-06-06 Reimagines photography through the long history of ideas of expression The end of

the nineteenth century saw massive developments and innovations in photography at a time when the forces of Western modernity industrialization racialization and capitalism were quickly reshaping the world The Unintended slows down the moment in which the technology of photography seemed to speed itself and so the history of racial capitalism up It follows the substantial shifts in the markets mediums and forms of photography during a legally murky period at the end of the nineteenth century Monica Huerta traces the subtle and paradoxical ways legal thinking through photographic lenses reinscribed a particular aesthetics of whiteness in the very conceptions of property ownership The book pulls together an archive that encompasses the histories of performance and portraiture alongside the legal pursuing the logics by which property rights involving photographs are affirmed or denied in precedent setting court cases and legal texts Emphasizing the making of expression into property to focus our attention on the failures of control that cameras do not invent but rather put new emphasis on this book argues that designations of control s absence are central to the practice and idea of property making The Unintended proposes that tracking and analyzing the sensed horizons of intention control autonomy will and volition offers another way into understanding how white supremacy functions Ultimately its unique historical reading practice offers a historically specific vantage on the everyday workings of racial capitalism and the inheritances of white supremacy that structure so much of our lives

The Oxford Handbook of Sociology and Organization Studies Paul S. Adler, 2009 Organizations are a defining feature of the modern world and the study of organizations Organization Studies has become well established in both sociology departments and professional schools most notably business and management schools Organization Studies has long drawn inspiration from foundational work in sociology The sociological lens affords depth of insight into the technological economic cultural and political forces that shape organizations from both within and without In particular classical works in sociology have long energized organizational research primarily by suggesting ways of making sense of the ever accelerating pace of social change In recent decades however the field has lost interest in these sociology classics This trend reflects and reinforces an increasingly academic focus of contemporary Organization Studies Not only does this trend weaken Organization Studies engagement with the big social issues of our time but it isolates the field from the broader field of the social sciences The aim of this Handbook is to re assert the importance of classical sociology to the future of Organization Studies Alongside several thematic chapters the volume includes chapters on each of nearly two dozen major European and American theorists each of these chapter addressing a the ideas and their context b the impact of these ideas on the field of Organization Studies and c the potential future research these ideas might inspire The goal is not reverential exegesis but rather to examine how the classics can energize organizational research This wide ranging Handbook with contributions from leading American and European scholars will be a vital informative and stimulating resource for anybody undertaking research in teaching or interested in learning more about Organization Studies today About the Series Oxford Handbooks in Business Management bring together the world s leading scholars on the subject to

discuss current research and the latest thinking in a range of interrelated topics including Strategy Organizational Behavior Public Management International Business and many others Containing completely new essays with extensive referencing to further reading and key ideas the volumes in hardback or paperback serve as both a thorough introduction to a topic and a useful desk reference for scholars and advanced students alike

Progressive Rhetoric and Curriculum Theodore Christou, 2017-10-20 Progressive Rhetoric Contested Visions of Public Education in Interwar Ontario considers the ways that progressivist ideas and rhetoric shaped early curriculum and structural changes to Ontario's public schools Through a series of case studies conceptual analyses and personal reflections from the field this volume shows how post WWI era debates around progressive education were firmly situated within political economic social and intellectual evolutions in the province and beyond By framing contemporary educational rhetoric in light of historical concepts and arguments Progressive Rhetoric adds to the ongoing historical examination of the meaning of progressive education in the modern age

Placing the South Michael O'Brien, 2007 Placing the South offers a selection of work published between 1985 and 2005 by one of the most incisive historians and literary critics of the South The pieces seek to situate the South in a variety of contexts and offer a compelling defense of what Kwame Anthony Appiah has called rooted cosmopolitanism This is a mode of understanding based on respect for what is local and an awareness that regionalism is not enough Hybridity in both culture and literature is inescapable and desirable The first section of the book Placing contains three comparative analyses that look at how regionalism has recently been conceptualized globally how the modern South has acquired pertinence for those outside the United States and how the relationship between Britain and the South has worked The second section Ideologies scrutinizes political ideas freedom imperialism nationalism racial ideology which have transformed American discourse The third section Forms examines genre and how the South has been constructed and reconstructed by such literary forms as autobiography biography history and literary history The final section Writers contains critical appreciations of political thinkers novelists poets critics historians and sociologists important to southern intellectual life Taken together the essays offer a robust analysis of a dynamic region Michael O'Brien is professor of American intellectual history at University of Cambridge and a fellow at Jesus College He is the author of Conjectures of Order Intellectual Life and the American South 1810 1860 and other books

Reform Or Repression Chad Pearson, 2016 Examining the professional lives of a variety of businessmen and their advocates with the intent of taking their words seriously Chad Pearson paints a vivid picture of an epic contest between industrial employers and labor and challenges our comfortable notions of Progressive Era reformers

The Democratic Experiment Meg Jacobs, William J. Novak, Julian E. Zelizer, 2009-01-10 In a series of fascinating essays that explore topics in American politics from the nation's founding to the present day The Democratic Experiment opens up exciting new avenues for historical research while offering bold claims about the tensions that have animated American public life Revealing the fierce struggles that have taken place over the role of the federal government and the character of representative democracy

the authors trace the contested and dynamic evolution of the national polity The contributors who represent the leading new voices in the revitalized field of American political history offer original interpretations of the nation's political past by blending methodological insights from the new institutionalism in the social sciences and studies of political culture They tackle topics as wide ranging as the role of personal character of political elites in the Early Republic to the importance of courts in building a modern regulatory state to the centrality of local political institutions in the late twentieth century Placing these essays side by side encourages the asking of new questions about the forces that have shaped American politics over time An unparalleled example of the new political history in action this book will be vastly influential in the field In addition to the editors the contributors are Brian Balogh Sven Beckert Rebecca Edwards Joanne B Freeman Richard R John Ira Katznelson James T Kloppenberg Matthew D Lassiter Thomas J Sugrue Michael Vorenberg and Michael Willrich

This is likewise one of the factors by obtaining the soft documents of this **Uncertain Victory Social Democracy And Progressivism In European And American Thought 1870 19** by online. You might not require more times to spend to go to the book introduction as competently as search for them. In some cases, you likewise accomplish not discover the proclamation Uncertain Victory Social Democracy And Progressivism In European And American Thought 1870 19 that you are looking for. It will very squander the time.

However below, later you visit this web page, it will be hence no question easy to get as skillfully as download guide Uncertain Victory Social Democracy And Progressivism In European And American Thought 1870 19

It will not say yes many become old as we run by before. You can pull off it even though bill something else at home and even in your workplace. fittingly easy! So, are you question?
