Under The Blade The Conversion Of Agricultural Landscapes:

Under The Blade Richard K. Olson, Thomas A. Lyson, 2018-05-04 Under the Blade The Conversion of Agricultural Landscapes examines the patterns causes and consequences of current land use decisions in the United States particularly the conversion of farmland to housing roads and other development Changes in land use are the result of complex interactions among law economics landscape characteristics social and political forces ethics and aesthetics By examining farmland loss from each of these perspectives and then integrating the results into policy recommendations Under the Blade makes an important contribution to the ongoing debate on the optimal use of a finite resource land In 1998 the last farm in Des Plaines Illinois was subdivided Seven acres along the Niobrara River in north central Nebraska sold for USD5700 per acre twenty times the price for agricultural use Waukesha County Wisconsin although still largely in agriculture has been almost entirely zoned for small lot subdivisions Nationwide the cumulative effect of thousands of individual land use decisions is an orgiastic devouring of the countryside that consumes at least 1 4 million acres of rural land each year and fragments a much larger area The effects on landscape functions include loss of agricultural production water pollution increases in local runoff and flooding loss of habitat and biodiversity and the loss of natural beauty In exchange we get malls retail strips and an ugly sprawl that degrades people and community How have we come to this and more importantly how might we find a better sustainable approach to the use of land Land use decisions are the result of complex interactions among law economics landscape characteristics population growth social and political forces ethics and aesthetics Under the Blade The Conversion of Agricultural Landscapes examines the loss of farmland and other rural lands from each of these perspectives and shows how interactions among different factors greatly complicate sustainable land management Included throughout the seven main chapters of the book are descriptions of some of the tools and strategies that can be used to preserve farmland and guide development The application of these tools is illustrated by 22 case studies of towns and regions throughout the United States each with a somewhat different challenge response and degree of success or failure Dietrich Bonhoeffer a Protestant theologian hanged by the Nazis in 1945 stated that the ultimate test of a moral society is the kind of world that it leaves to its children Our current choices in the use of the land are among the most important factors shaping that future world and Under the Blade demonstrates that the quality of that future is far from certain **Under The Blade** Thomas Lyson, 2018-05-04 Under the Blade The Conversion of Agricultural Landscapes examines the patterns causes and consequences of current land use decisions in the United States particularly the conversion of farmland to housing roads and other development Changes in land use are the result of complex interactions among law economics landscape characteristics social and political forces ethics and aesthetics By examining farmland loss from each of these perspectives and then integrating the results into policy recommendations Under the Blade makes an important contribution to the ongoing debate on the optimal use of a finite resource land In 1998 the last farm in Des Plaines Illinois was subdivided Seven

acres along the Niobrara River in north central Nebraska sold for USD5700 per acre twenty times the price for agricultural use Waukesha County Wisconsin although still largely in agriculture has been almost entirely zoned for small lot subdivisions Nationwide the cumulative effect of thousands of individual land use decisions is an orgiastic devouring of the countryside that consumes at least 1 4 million acres of rural land each year and fragments a much larger area The effects on landscape functions include loss of agricultural production water pollution increases in local runoff and flooding loss of habitat and biodiversity and the loss of natural beauty In exchange we get malls retail strips and an ugly sprawl that degrades people and community How have we come to this and more importantly how might we find a better sustainable approach to the use of land Land use decisions are the result of complex interactions among law economics landscape characteristics population growth social and political forces ethics and aesthetics Under the Blade The Conversion of Agricultural Landscapes examines the loss of farmland and other rural lands from each of these perspectives and shows how interactions among different factors greatly complicate sustainable land management Included throughout the seven main chapters of the book are descriptions of some of the tools and strategies that can be used to preserve farmland and guide development The application of these tools is illustrated by 22 case studies of towns and regions throughout the United States each with a somewhat different challenge response and degree of success or failure Dietrich Bonhoeffer a Protestant theologian hanged by the Nazis in 1945 stated that the ultimate test of a moral society is the kind of world that it leaves to its children Our current choices in the use of the land are among the most important factors shaping that future world and Under the Blade demonstrates that the quality of that future is far from certain *Challenges for Rural America in the Twenty-First Century* David L. Interactions Between Agroecosystems and Rural Communities Cornelia Flora, 2001-02-05 There is an increasing realization among biophysical scientists that human behavior drastically impacts the degree to which sound agroecosystems are implemented Written by an international team of experts assembled by a leading rural sociologist *Interactions Between Agroecosystems and Rural Communities* shows how human behavior impacts agroecosyst *A Rediscovered Frontier* Philip L. Jackson, Robert Kuhlken, 2006 *A Rediscovered Frontier* describes the changing land use issues taking place in the rapidly growing western United States paying special attention to the previously unexplored area of private lands planning and local growth management The book begins by exploring the term New West and then describes prototypical land use patterns found throughout the West It examines the spatial circumstances of rural and small town growth patterns and provides examples of the kinds of development that could occur elsewhere in areas having similar geographic situations The book takes a close look at Oregon s statewide planning approach to managing growth and concludes with a forward looking cooperative approach to comprehensive planning Intended as a text for college students taking courses in land use planning a sourcebook for land use planning and environmental management professionals as well as anyone who cares about western environments *A Rediscovered Frontier* addresses the social economic political and above all geographical realities of land use in the West today [Agricultural Policy for the 21st Century](#) Luther G. Tweeten, Stanley R. Thompson, 2008-06-02 Agricultural policy reform has become a very hot topic Over the next couple of years we will see the funding for these programs being hotly debated The thesis of this book is that a better

informed public is essential to bring rationality to farm policy This book provides telling evidence that markets work that competent commercial farmers will earn returns on their resources as high as those earned elsewhere in the absence of income transfer to farmers

Smarter Growth John H. Spiers, 2018-04-17 Suburban sprawl has been the prevailing feature and double edged sword of metropolitan America s growth and development since 1945 The construction of homes businesses and highways that were signs of the nation s economic prosperity also eroded the presence of agriculture and polluted the environment This in turn provoked fierce activism from an array of local state and national environmental groups seeking to influence planning and policy Many places can lay claim to these twin legacies of sprawl and the attendant efforts to curb its impact but according to John H Spiers metropolitan Washington D C in particular laid the foundations for a smart growth movement that blossomed in the late twentieth century In *Smarter Growth* Spiers argues that civic and social activists played a key role in pushing state and local officials to address the environmental and fiscal costs of growth Drawing on case studies including the Potomac River s cleanup local development projects and agricultural preservation he identifies two periods of heightened environmental consciousness in the early to mid 1970s and the late 1990s that resulted in stronger development regulations and land preservation across much of metropolitan Washington *Smarter Growth* offers a fresh understanding of environmental politics in metropolitan America giving careful attention to the differences between rural suburban and urban communities and demonstrating how public officials and their constituents engaged in an ongoing dialogue that positioned environmental protection as an increasingly important facet of metropolitan development over the past four decades It reveals that federal policies were only one part of a larger decision making process and not always for the benefit of the environment Finally it underscores the continued importance of grassroots activists for pursuing growth that is environmentally fiscally and socially equitable in a word smarter

The Sustainable City IX N. Marchettini, C.A. Brebbia, R. Pulselli, S. Bastianoni, 2014-09-23 Containing the proceedings of the 9th International Conference on Urban Regeneration and Sustainability this book addresses the multi disciplinary aspects of urban planning a result of the increasing size of cities the amount of resources and services required and the complexity of modern society Most of earth s population now lives in cities and the process of urbanisation still continues generating many problems deriving from the drift of the population towards them These problems can be resolved by cities becoming efficient habitats saving resources in a way that improves the quality and standard of living The process however faces a number of major challenges related to reducing pollution improving main transportation and infrastructure systems New urban solutions are required to optimise the use of space and energy resources leading to improvements in the environment i e reduction in air water and soil pollution as well as efficient ways to deal with waste generation These challenges contribute to the development of social and economic imbalances and require the development of new solutions Large cities are probably the most complex mechanisms to manage However despite such complexity they represent a fertile ground for architects engineers city planners social and

political scientists and other professionals able to conceive new ideas and time them according to technological advances and human requirements The challenge of planning sustainable cities lies in considering their dynamics the exchange of energy and matter and the function and maintenance of ordered structures directly or indirectly supplied and maintained by natural systems Topics covered include Urban strategies Planning development and management Urban conservation and regeneration The community and the city Eco town planning Landscape planning and design Environmental management Sustainable energy and the city Transportation Quality of life Waterfront development Case studies Architectural issues Cultural heritage issues Intelligent environment and emerging technologies Planning for risk Disaster and emergency response Safety and security Waste management Infrastructure and society Urban metabolism Shakespeare on screen : a midsummer night's dream Nathalie Vienne-Guerrin (éd.), Sarah Hatchuel (éd.), Ce livre a pour objet l'étude des représentations du Songe d'une nuit d'été la pièce ayant fait l'objet d'un colloque qui s'est tenu Rouen sous les auspices de la Société française Shakespeare Les plus grands spécialistes de Shakespeare et de Shakespeare au cinéma ont contribué à l'ouvrage Monolingue anglais le livre contient en outre une bibliographie exhaustive sur le sujet **New Dimensions in Agroecology** Anil Shrestha, David Clements, 2004-11-11 Reduce the environmentally negative aspects of industrial agriculture with an ecologically sound philosophy New Dimensions in Agroecology explores the latest developments in the emerging science of agroecology focusing on how these new concepts and cutting edge tools will help minimize the impact of agriculture on the environment and forests **Land Use Problems and Conflicts** John C. Bergstrom, Stephen J Goetz, James S. Shortle, 2004-08-02 The causes consequences and control of land use change have become topics of enormous importance in contemporary society Not only is urban land use and sprawl a hot button issue but issues of rural land use have also been in the headlines Policy makers and citizens are starting to realize that many environmental and economic issues have the question of land use at their very core Comprising papers from a conference sponsored by the Northeast Regional Center for Rural Development Land Use Problems and Conflicts draws together some of the most up to date research in this area Sections are devoted to problems in the United States and Europe the consequences of such problems land use related data and alternative solutions to conflict With a lineup including some of the best scholarship on this subject to date this volume will be of use to those studying environmental and land use issues in addition to policy makers and economists *Local Democracy Under Siege* Dorothy Holland, Catherine Lutz, Lesley Bartlett, Marla Frederick-McGlathery, 2007-02-07 2007 Society for the Anthropology of North America SANA Book Award Complete List of Authors Dorothy Holland Donald M Nonini Catherine Lutz Lesley Bartlett Marla Frederick-McGlathery Thaddeus C Guldbrandsen and Enrique G Murillo Jr What is the state of democracy at the turn of the twenty first century To answer this question seven scholars lived for a year in five North Carolina communities They observed public meetings of all sorts had informal and formal interviews with people and listened as people conversed with each other at bus stops and barbershops soccer games and workplaces Their collaborative

ethnography allows us to understand how diverse members of a community not just the elite think about and experience politics in ways that include much more than merely voting This book illustrates how the social and economic changes of the last three decades have made some new routes to active democratic participation possible while making others more difficult Local Democracy Under Siege suggests how we can account for the current limitations of U S democracy and how remedies can be created that ensure more meaningful participation by a greater range of people Complete List of Authors pictured From Left to Right bottom row Enrique Murillo Jr Thaddeus Guldbrandsen Marla Frederick McGlathery Top row Dorothy Holland Catherine Lutz Lesley Bartlett and Don Nonini *Handbook of Rural Development* Gary Paul Green,2013-12-27 Rural development policies have historically focused primarily on increasing agricultural productivity but this volume demonstrates the need for a much broader approach as rural producers become increasingly integrated into the global economy Followi *The Environmental Policy Paradox (1-download)* Zachary A. Smith,2015-09-25 This book examines environmental policy in the United States in air water land use agriculture energy waste disposal and other areas It discusses the legal processes that come into play when citizens pursue environmental policy goals in the courts **The Environmental Policy Paradox** Zachary A. Smith,2017-09-19 Updated in its seventh edition The Environmental Policy Paradox provides an introduction to the policy making process in the United States with regard to air water land use agriculture energy and waste disposal while introducing readers to both global and international environmental issues and institutions The text explains why some environmental ideas shape policy while others do not and illustrates that even when the best short and long term solutions to environmental problems are identified the task of implementing these solutions is often left undone or is completed too late Readers are presented with a comprehensive history of the environmental movement paired with the most up to date account of environmental policy available today New to the Seventh Edition Covers new topics including fracking Arctic drilling the Keystone XL pipeline controversy GMOs food security and the green economy Provides expanded information about the subsidy process Extends the treatment of land preservation with a discussion of the Land and Water Conservation Fund Adds Discussion Questions to the end of each chapter Civic Agriculture Thomas A. Lyson,2004-06 A engaging analysis of food production in the United States emphasizing that sustainable agricultural development is important to community health *Exploring and Optimizing Agricultural Landscapes* Lothar Mueller,Viktor G. Sychev,Nikolai M. Dronin, Frank Eulenstein,2021-06-14 The book informs about agricultural landscapes their features functions and regulatory mechanisms It characterizes agricultural production systems trends of their development and their impacts on the landscape Agricultural landscapes are multifunctional systems coupled with all nexus problems of the 21th century This has led to serious discrepancies between agriculture and environment and between urban and rural population The mission key topics and methods of research in order to understanding monitoring and controlling processes in rural landscapes is being explained Studies of international expert teams many of them from

Russia demonstrate approaches towards both improving agricultural productivity and sustainability and enhancing ecosystem services of agricultural landscapes Scientists of different disciplines decision makers farmers and further informed people dealing with the evolvement of thriving rural landscapes are the primary audience of this book *Theory, Practice, and Community Development* Mark Brennan, Jeffrey Birdger, Theodore Alter, 2013-06-19 For many scholars the study of community and community development is at a crossroads Previously dynamic theories appear not to have kept pace with the major social changes of our day Given our constantly shifting social reality we need new ideas and research that pushes the boundaries of our extant community theories Theory Practice and Community Development stretches the traditional boundaries and applications of well established community development theory and establishes new theoretical approaches rooted in new disciplines and new perspectives on community development Expanded from a special issue of the journal Community Development Theory Practice and Community Development collects previously published and widely cited essays as well as new theoretical and empirical research in community development Compiled by the editors of Community Development the essays feature topics as varied as placemaking democratic theory and rural organizing Theory Practice and Community Development is vital for scholars and practitioners coming to grips with the rapidly changing definition of community *Partnerships for Smart Growth* Wim Wiewel, Gerrit Knaap, 2017-03-02 Linking the worlds of community development higher education administration and urban design this accessible guidebook offers useful information on how universities and communities can best develop partnership projects Its focus on smart growth projects further enhances its value for those interested in how urban suburban and rural growth can be accommodated while preserving open spaces and quality of life Partnerships for Smart Growth includes 13 case studies for university community collaborations on smart growth initiatives The chapters include geographically diverse locations and urban suburban and rural projects Each case includes a comprehensive discussion of how and why the project was initiated who was involved what techniques were employed what were the pitfalls and what was the outcome The result is a book with wide appeal for university administrators land use planners and administrators scholars and community development experts
