Jaeger, Götz-Sebastian Hök, 2009-11-11 In 1999 a suite of three new conditions of contract was published by FIDIC following the basic structure and wording harmonised and updated around the previous FIDIC Design Build and Turnkey Contract the 1992 Orange Book These conditions known as the FIDIC rainbow were the Conditions of Contract for Construction the so called Red Book for works designed by the Employer Plant and Design Build the so called Yellow Book for works designed by the Contractor EPC Turnkey Projects the so called Silver Book for works designed by the Contractor The first is intended for construction works where the Employer is responsible for the design as for per the previous so called Red Book 4th Edition 1987 with an important role for the Engineer The other two conditions of contract are intended for situations when the Contractor is responsible for the design The Plant and Design Build Contract has the traditional Engineer while the EPC Turnkey Contract has a two party arrangement generally with an Employer's Representative as one of the parties

Understanding and Negotiating EPC Contracts, Volume 2 Howard M. Steinberg, 2016-10-14 Any project which involves an EPC contract is also likely to involve a number of other complicated contracts The challenge of the parties to an

EPC contract is not to try to eliminate risk but rather put into place a narrative structure that enables the parties to predict the contractual result that would obtain if a risk materializes. If the EPC contract does not allow the parties to determine the consequences of an unanticipated situation they will have to look to an expert mediator tribunal or court to impart guidance or pass judgment. The sample forms of contract contained in Volume 2 of *Understanding and Negotiating EPC Contracts* are intended to serve as a guide to demonstrate how risks and responsibilities can be allocated among project sponsors, EPC contractors and the various other parties that may be involved in a project. Collectively the sample forms in this volume offer an extraordinary resource that provides the benefit of lessons learned and priceless insight into any project being undertaken which can help assure the resilience of any EPC project.
