Counter-Insurgency in Nigeria Akali Omeni, 2017-09-08 This book offers a detailed examination of the counter insurgency operations undertaken by the Nigerian military against Boko Haram between 2011 and 2017 Based on extensive fieldwork conducted with military units in Nigeria Counter Insurgency in Nigeria has two main aims First it seeks to provide an understanding of the Nigerian military's internal role a role that today as a result of internal threats pivots towards counter insurgency The book illustrates how organizational culture historical experience institutions and doctrine are critical to understanding the Nigerian military and its attitudes and actions against the threat of civil disobedience today and in the past The second aim of the book is to examine the Nigerian military campaign against Boko Haram insurgents specifically plans and operations between June 2011 and April 2017 Within this second theme emphasis is placed on the idea of battlefield innovation and the reorganization within the Nigerian military since 2013 as the Nigerian Army and Air Force recalibrated themselves for COIN warfare A certain mystique has surrounded the technicalities of COIN operations by the Army against Boko Haram and this book aims to disperse that veil of secrecy Furthermore the work's analysis of the air force's role in counter insurgency is unprecedented within the literature on military warfare in Nigeria This book will be of great interest to students of military studies counter insurgency counter terrorism African politics and security studies in general

Understanding Insurgent Resilience Andrew Henshaw, 2020-07-30 This book examines terrorist and insurgent organisations and seeks to understand how such groups persist for so long while introducing a new strategic doctrine for countering these organisations The work discusses whether familial or meritocratic insurgencies are more resilient to counterinsurgency pressures It argues that it is not the type of organization that determines resilience but rather the efficiency functions of social capital and trust which have different natures and forms within them It finds that while familial insurgencies can challenge incumbents from the start they weaken over time whereas meritocracies will generally strengthen The book examines four of the most enduring and lethal

insurgent organizations the Haqqani Network in Afghanistan Lashkar e Taiba in Pakistan Jemaah Islamiyah in Indonesia and the Abu Sayyaf in the Philippines The author breaks down each group into its formative strengths and vulnerabilities and presents a bespoke model of strategic counterintelligence that can be used to manipulate degrade and destroy each organization This book will be of much interest to students of counterinsurgency terrorism intelligence security and defence studies in general
