

Walmart Statement of Ethics

I'm a Vision Center regional manager. I've recently invested \$10,000 in an investment fund that may invest some of the money in the optical industry. Would this be a violation? Since you don't have direct control over the investment strategy, it's not a violation.

Someone told me I could not own stock in a vendor. Is this correct?

No. The restriction is you may not have any direct financial interest in a vendor whose business you have direct or indirect influence over within your position at Walmart. There are no restrictions to financial interests in vendors you do not have business influence over.

My wife recently joined Walmart and we own more than \$20,000 of stock in a key competitor. Must she sell this stock?

You should disclose the information to your manager and the Global Ethics Office. The Global Ethics Office will issue you an opinion with any instructions regarding any potential conflicts of interest.

Labor Contestation at Walmart Brazil Scott B. Martin, João Paulo Cândia Veiga, Katiuscia Moreno Galhera, 2021-09-10 This book explores how and why the labor practices of the world's largest employer supermarket giant Walmart were contested by unions and government regulators as it expanded to Latin America starting in the 1990s With an in depth case study of Brazil and a comparative chapter examining Argentina Chile and Mexico this book analyzes the problematic encounter between diffusion of home office anti labor practices and evolving national institutional contexts that are quite varied and in some cases enable considerable resistance by unions and or regulators Walmart's repressive familial and anti union model is found to generate costs and conflicts that contributed to its unprofitability and ultimate exit from Brazil in 2018 This experience contrasted with country situations where Walmart's overall competitive and labor and human resource practices fit better with national markets and institutions underlines the brittle problematic nature of diffusionist corporate models lacking adaptive capacity to significant cross national variations across host countries
