Walter Benjamin Selected Writings Volume 2 Part 2 1931 1934:

Selected Writings: 1927-1934 Walter Benjamin, Howard Eiland, Gary Smith, 1996 Comprising more than 65 pieces journal articles reviews extended essays sketches aphorisms and fragments this volume shows the range of Walter Benjamin s writing His topics here include poetry fiction drama history religion love violence morality and mythology *Selected Writings* Walter Benjamin, 1999 This volume brings together previously untranslated writings on major figures such as Brecht Val ry and Gide and on subjects ranging from film radio and the novel to memory kitsch and the theory of language We find the manifoldly inquisitive Benjamin musing on the new modes of perception opened up by techniques of photographic enlargement and cinematic montage on the life and work of Goethe at Weimar on the fascination of old toys and the mysteries of food and on the allegorical significance of Mickey Mouse dust jacket **Walter Benjamin's Antifascist Education** Tyson E. Lewis, 2020-02-01 A comprehensive study of education in the writings of Walter Benjamin Walter Benjamin s Antifascist Education is the first comprehensive analysis of educational themes across the entirety of the critical theorist s diverse writings Starting with Benjamin s early reflections on teaching and learning Tyson E Lewis argues that the aesthetic and cultural forms to which Benjamin so often turned namely radio broadcasts children s theatrical productions collections cityscapes public cinemas and word games swell with educational potentialities What emerges from Lewis s reading is a constellational curriculum composed of minor practices such as poor teaching absentminded learning and nondurational studying This curriculum carries political significance offering an antidote to past and present forms of fascist manipulation hardness and coldness Walter Benjamin s Antifascist Education is a testimony to Benjamin s belief that everyone is an educator and everyone needs to be educated and everything is education Taking up the multifaceted Benjaminian conception of educational life a life of studious straying and self reflection at once critical and mimetic and following its untoward trajectory in object areas as diverse as slapstick film riddles cityscapes and children s theater this subtle imaginative and comprehensive analysis speaks directly to the moral and spiritual crisis of the present Howard Eiland Massachusetts Institute of Technology **Adorno's Critique of Political Economy** Dirk Braunstein, 2022-11-21 To this day there persists a widespread assumption that Adorno s references to Marx and especially to Marx s critique of political economy represent a relic from an early and short lived stage of Adorno s theoretical development On the basis of relevant and largely unpublished textual sources this book refutes this thesis while showing that the centre of Adorno s critical theory of society is occupied by a critique not only of political economy but of economy in general **Agamben and the Signature of Astrology** Paul Colilli, 2015-10-16 The work of Giorgio Agamben one of the world s most important living philosophers has been the object of much scrutiny Yet there is one dimension of his thought that remains unexamined by scholars the presence of the ancient science of astrology in his writings This book the first of its kind identifies the astrological elements and explains the implications of their usage by Agamben In so doing this study challenges us to imagine Agamben s thought in a

radically new light A critical account of the presence of astrology and related themes in Agamben's writings ranging from the earlier works to the more recent publications illustrates that the astrological signature constitutes a mode of philosophical archaeology that allows for an enhanced understanding of concepts that are central to his works such as potentiality the signature bare life and biopolitics **Ruins in the Literary and Cultural Imagination** Efterpi Mitsi, Anna

Despotopoulou, Stamatina Dimakopoulou, Emmanouil Aretoulakis, 2019-11-28 This book focuses on literal and metaphorical ruins as they are appropriated and imagined in different forms of writing Examining British and American literature and culture in the nineteenth and twentieth centuries the book begins in the era of industrial modernity with studies of Charles Dickens Thomas Hardy Henry James and Daphne Du Maurier It then moves on to the significance of ruins in the twentieth century against the backdrop of conflict waste and destruction analyzing authors such as Beckett and Pinter Kurt Vonnegut Robert Lowell Anne Sexton and Leonard Cohen The collection concludes with current debates on ruins through discussions of Walter Benjamin and Bertolt Brecht as well as reflections on the refugee crisis that take the ruin beyond the text offering new perspectives on its diverse legacies and conceptual resources The Palgrave Walter Benjamin Handbook Nathan

Ross, 2025-02-26 Walter Benjamin is one of the most influential authors in contemporary humanities exerting a deep fascination for students and garnering scholarly interest in a variety of fields such as history of philosophy literature film and media studies political science religion architecture art and history This Handbook provides students and scholars with a guide to Walter Benjamin's work that explores each of these areas in depth while also giving the reader a chance to discover connections to other areas of thought In order to do justice to the complexity of Benjamin's thinking this volume includes international scholars from a variety of academic disciplines and is organized such that a dialogue emerges between them Each section presents an argument for the integration of its subject into the whole demonstrating that what might seem specialized and esoteric actually intersects with the problems and questions of the other sections Urban Phantasmagorias Iulia Stătică, 2023-11-30 Urban Phantasmagorias examines the legacies of socialist housing in the city of Bucharest during the period of communist rule in Romania The book explores the manner in which the socialist state reconfigured the city through concrete acts of demolition and construction as well as indirectly through legal frameworks aimed at the regulation of women's reproductive agency in an attempt to materialize its idea of modernity It follows the effects of this state agenda with a focus on the period between 1965 and 1989 through an investigation of the transformations representations meanings and uses of domestic spaces The book draws on Walter Benjamin's concept of phantasmagoria which provides a critical framework through which it articulates the dynamic relationship between ideology architecture and everyday practices and reassesses their impact upon individual subjectivity and agency The woman emerges as a central subject of the book upon whom the phantasmagoric effects of the socialist state's modernizing agenda have an acute impact at the level of lived domesticity and everyday life Through a focus on the lived experiences of women the book illuminates the prismatic effect of

the state's infrastructural and legal intentions including the ways in which these were subverted through women's lived bodily experiences of the home The book establishes both theoretically and through the concrete case of the city of Bucharest the methodological significance of Benjamin's notion of phantasmagoria as an epistemological approach to a modern communist cityscape *Urban Phantasmagorias* is an important contribution to scholarship in architectural history and theory urban and gender studies and post socialist and Eastern European studies

Rethinking Marxist Approaches to Transition Onur Acaroglu, 2020-09-25 In *Rethinking Marxist Theories of Transition* Onur Acaroglu traces the concept of transition across the tracts of Classical and Western Marxism Rarely directly invoked transition between different societies appears as an imminent social reality and a useful conceptual tool for critical social theory Transitions as qualitative shifts between societies are often considered as eventual historical stages or effaced altogether Theorising transition in a new direction Onur Acaroglu elaborates a theory of temporal dislocation Considering transition through a framework of out of joint temporalities the notion comes through as an undervalued tendency in social reproduction

The Good Metropolis Alexander Eisenschmidt, 2019-01-29 The publication presents the first historical analysis of the tension between the city and architectural form It introduces 20th century theories to construct a historical context from which a new architecture city relationship emerged The book provides a conceptual framework to understand this relationship and comes to the conclusion that urbanization may be filled with potential i e be a Good Metropolis

Surrealism and Photography in 1930s Japan Jelena Stojkovic, 2020-05-31 Despite the censorship of dissident material during the decade between the Manchurian Incident of 1931 and the outbreak of the Pacific War in 1941 a number of photographers across Japan produced a versatile body of Surrealist work In a pioneering study of their practice Jelena Stojkovic draws on primary sources and extensive archival research and maps out art historical and critical contexts relevant to the apprehension of this rich photographic output most of which is previously unseen outside of its country of origin The volume is an essential resource in the fields of Surrealism and Japanese history of art for researchers and students of historical avant gardes and photography as well as for readers interested in visual culture

Almost Nothing Nora Wendl, 2025-05-20 The iconic Edith Farnsworth House is a singular glass home designed by Mies van der Rohe But the oft told history of the house overwrites Farnsworth's role as Mies's collaborator and antagonist while falsely portraying her as the architect's angry ex lover Nora Wendl's audacious work of creative nonfiction explodes the sex and real estate myth surrounding the Edith Farnsworth House and its two central figures An eminent physician and woman of letters Farnsworth left a rich trove of correspondence memoirs and photographs that Wendl uses to reconstruct her voice Farnsworth's memories and experiences alternate with Wendl's thoughts on topics like misogyny and professional ambition to fashion a lyrical examination of love loneliness beauty and the search for the divine Eloquent and confessional *Almost Nothing* restores Edith Farnsworth to her place in

architectural history and the masterpiece that bears her name **Reading Autoethnography** James M. Salvo, 2019-10-22
Reading Autoethnography situates autoethnographic insights within the context of two fundamental concerns of critical qualitative inquiry justice and love Through philosophical engagement it gives close readings of written passages taken from leading autoethnographers and frames the philosophical project of autoethnography as one that is both political and interpersonal It does this to highlight how autoethnographic lessons can allow us to think through how we may achieve a flourishing for all something that is both related to justice as it pertains to the political and when situations are in excess of justice related to love as it pertains to feeling at home in the world with others As such this book will be of interest to those who have a burgeoning interest in autoethnography and seasoned autoethnographers alike anyone interested in critical qualitative inquiry as a discourse promoting justice and love and any scholar who has encountered the ethical question of What ought we do Snapshots of the Soul Molly Thomasy Blasing, 2021-07-15

Snapshots of the Soul considers how photography has shaped Russian poetry from the early twentieth century to the present day Drawing on theories of the lyric and the elegy the social history of technology and little known archival materials Molly Thomasy Blasing offers close readings of poems by Boris Pasternak Marina Tsvetaeva Joseph Brodsky and Bella Akhmadulina as well as by the late and post Soviet poets Andrei Sen Sen kov Arkadii Dragomoshchenko and Kirill Medvedev to understand their fascination with the visual language representational power and metaphorical possibilities offered by the camera and the photographic image Within the context of long standing anxieties about the threat that visual media pose to literary culture Blasing finds that these poets were attracted to the affinities and tensions that exist between the lyric or elegy and the snapshot Snapshots of the Soul reveals that at the core of each poet s approach to writing the photograph is the urge to demonstrate the superior ability of poetic language to capture and convey human experience Open Access edition funded by the National Endowment for the Humanities **Memory and the Built Environment in 20th-Century American Literature** Alice Levick, 2021-05-20

From the paving of the Los Angeles River in 1938 and the creation of the G I Bill in 1944 to the construction of the Interstate Highway System during the late 1950s and the brownstoning movement of the 1970s throughout the mid 20th century the United States saw a wave of changes that had an enduring impact on the development of urban spaces Focusing on the relationship between processes of demolition and restoration as they have shaped the modern built environment and the processes by which memory is constructed hidden or remade in the literary text this book explores the ways in which history becomes entangled with the urban space in which it plays out Alice Levick takes stock of this history both in the form of its externalised concretised manifestation and its more symbolic representation as depicted in the mid 20th century work of a selection of American writers Calling upon access to archival material and interviews with New York academics authors local historians and urban planners this book locates Freud s Uncanny in the cracks between the absent and present invisible and visible memory and history as they are presented in city narratives demonstrating both the passage of time and the

imposition of 20th century modernism With reference to the works of D J Waldie Joan Didion Hisaye Yamamoto Raymond Chandler Marshall Berman Gil Cuadros Paule Marshall L J Davis and Paula Fox Memory and the Built Environment in 20th Century American Literature unpacks how time becomes visible in Los Angeles Sacramento Lakewood and New York in the decades just before and after the Second World War questioning how these spaces provide access to the past in both narrative and spatial forms and how at times this access is blocked The Origins of Dislike Amit Chaudhuri,2018-09-20 Strategic thinking for a writer articulates itself as dislike and as allegiance In this wonderfully rich and diverse collection of essays Amit Chaudhuri explores the way in which writers understand and promote their own work in antithesis to writers and movements that have gone before Chaudhuri s criticism disproves and questions several assumptions that a serious and original artist cannot think critically in a way that matters that criticism can t be imaginative and creative work contain radical argumentation that a writer reflecting on their own position and practice cannot be more than a testimony of their work but open up how we think of literary history and reading Illuminating new ways of thinking about Western and non Western traditions prejudices and preconceptions Chaudhuri shows us again that he takes nothing as a given literary tradition the prevalent definitions of writing and culture and the way the market determines the way culture and language express themselves He asks us to look again at what we mean by the modern and how it might be possible to think of the literary today **The Exile of Language** Libera Pisano,2025-06-05 The Exile of Language uncovers a hidden chapter in the history of philosophy where early twentieth century German Jewish thinkers such as Fritz Mauthner Gustav Landauer Margarete Susman Franz Rosenzweig and Walter Benjamin grappled with the inherent tension of their intertwined identities The study of these thinkers reveals how a sceptical and diasporic approach to language can question and reshape traditional concepts of belonging purity and nation By confronting the myth of autochthony their critiques of linguistic and national idolatry offer a fresh lens for reimagining politics in our times This narrative blends philosophical depth with groundbreaking insights making it a must read for anyone interested in the dynamic interplay of language identity and community

Architectures of Hiding Rana Abughannam,Émélie Desrochers-Turgeon,Pallavi Swaranjali,Federica Goffi,2024-01-31 Architecture manifests as a space of concealment and unconcealment lethe and al theia enclosure and disclosure where its making and agency are both hidden and revealed With an urgency to amplify narratives that are overlooked silenced and unacknowledged in and by architectural spaces histories and theories this book contends the need for a critical study of hiding in the context of architectural processes It urges the understanding of inherent opportunities power structures and covert strategies whether socio cultural geo political environmental or economic as they are related to their hidescapes the constructed landscapes of our built environments participating in the architectures of hiding Looking at and beyond the intentions and agency that architects possess architectural spaces lend themselves as apparatuses for various forms of hiding and un hiding The examples explored in this book and the creative works presented in the interviews enclosed in the

interludes of this publication cover a broad range of geographic and cultural contexts discursively disclosing hidden aspects of architectural meaning The book investigates the imaginative intrigue of concealing and revealing in design processes along with moral responsibilities and ethical dilemmas inherent in crafting concealment through the making and reception of architecture

Schools and Styles of Anthropological Theory Matei Candea, 2018-01-23 This book presents an overview of important currents of thought in social and cultural anthropology from the 19th century to the present It introduces readers to the origins context and continuing relevance of a fascinating and exciting kaleidoscope of ideas that have transformed the humanities and social sciences and the way we understand ourselves and the societies we live in today Each chapter provides a thorough yet engaging introduction to a particular theoretical school style or conceptual issue Together they build up to a detailed and comprehensive critical introduction to the most salient areas of the field The introduction reflects on the substantive themes which tie the chapters together and on what the very notions of theory and theoretical school bring to our understanding of anthropology as a discipline The book tracks a core lecture series given at Cambridge University and is essential reading for all undergraduate students undertaking a course on anthropological theory or the history of anthropological thought It will also be useful more broadly for students of social and cultural anthropology sociology human geography and cognate disciplines in the social sciences and humanities
