Want More Alex Schneideman:

Soulfulness Brian Draper,2016-05-19 Brian Draper is Britain s foremost popular spiritual thinker he has no equals in linking the inner with the political and personal outer This is a remarkably practical exploration of elusive yet core elements of our existence Oliver James The beauty of mindfulness is that it s incredibly simple both to get and to practise And the results increasingly backed by neuro scientific evidence are priceless calmness and reduced stress more creativity greater awareness compassion And yet there s a danger that mindfulness can be used in a purely consumerist and self serving way to help people to become better adapted cogs in a still toxic model of work and life Brian Draper challenges us to live not just mindfully but soulfully Not merely to be less stressed but to flourish dynamically and creatively to be present through living intentionally and compassionately

How to Use Interest Rate Futures Contracts Edward W. Schwarz,1979 *The Book Collector* ,2012 [Want More](#) Paul Dolan,Harry Eyres,2015 Positioned somewhere between documentary and art photography *Want More* is a stark and hard hitting portrayal of twenty first century capitalism in action In a series of arresting atmospheric and beautiful black and white images London based photographer Alex Schneideman captures the alienating numbing and denaturing effects of mass consumerism by photographing shoppers in stores at the mall and on the street Despite the instant beauty of each frame tedium misery anxiety frustration and occasional anger seem to be the dominant emotions experienced by these subjects most of whom are unaware of the photographer s lens as they appear ground down by their duty as drone like consumer citizens to spend spend spend Very few of the pictures make any reference to their location Instead they have a universality that extends beyond the specific time and place reflecting the nullifying homogeneity that characterizes the consumerist society itself Confronting us with the lived reality and implications of the have it all culture of needing the latest products and the coolest brands *Want More* shows us how the contemporary world works and works on all of us A text considers Schneideman s photographs as demonstrations of the social and psychological effects of boundless consumerism and the addictive and herd like behaviour it demands and evidence that as we become richer we do not necessarily become happier A conversation with the artist considers some of the aesthetic and philosophical issues raised by the work and its place in the history of photography
