War And The Christian Conscience How Shall Modern War Be Conducted Justly:

War and the Christian Conscience Paul Ramsey, 1961 An inquiry into the ancient Christian theory of the just war and its application today *War and the Christian Conscience. How Shall Modern War be Conducted Justly?* Lilly Endowment Research Program in Christianity and Politics (United States), Paul Ramsey, 1961 The Just War Paul Ramsey, 2002 With a new foreword by noted theologian and ethicist Stanley Hauerwas this classic text on war and the ethics of modern statecraft written at the height of the Vietnam era in 1968 speaks to a new generation of readers Characterized by a sophisticated yet back to basics approach The Just War begins with the assumption that force is a fact in political life which must either be reckoned with or succumbed to It then grapples with modern challenges to traditional moral principles of just conduct in war the morality of deterrence and a just war theory of statecraft Ethics from a Theocentric Perspective: Ethics and theology James M. Gustafson, 1992 *Yearbook of International Humanitarian Law 2013* Terry D. Gill, Robin Geiß, Robert Heinsch, Tim McCormack, Christophe Paulussen, Jessica Dorsey, 2014-11-15 This volume contains several articles on the topic Detention in non international armed conflict including the Copenhagen Process and moreover features contributions on autonomous weapons systems Apartheid and the second Turkel Report It also contains an elaborate Year in Review and a special section on the high level Boundaries of the Battlefield symposium including a conference report and several in depth reflections on various other aspects of the symposium The Yearbook of International Humanitarian Law is the world's only annual publication devoted to the study of the laws governing armed conflict It provides a truly international forum for high quality peer reviewed academic articles focusing on this crucial branch of international law Distinguished by contemporary relevance the Yearbook of International Humanitarian Law bridges the gap between theory and practice and serves as a useful reference tool for scholars practitioners military personnel civil servants diplomats human rights workers and students

And the Word Became Flesh Thomas H. Olbricht, David Fleer, 2009-06-01 In his fifty three years Michael W Casey made an indelible impact upon all his academic friends in the United States Great Britain and elsewhere in the world His thirty some years of research and publications were multinational Mike was especially adept at looking into archival details on the numerous subjects that interested him in communication Scripture and history especially as they focused upon Churches of Christ and the Stone Campbell Movement If a scholar ever believed that the grandest project depends on the accuracy of the smallest component it was Mike Casey He believed that words were enfolded in concrete persons All his studies recognized the persuasive powers of committed humans The title for this volume therefore is And the Word Became Flesh The essays in this volume are divided into three sections Those in the first section are on Restoration History The second section is on communication studies And the final section contains essays on a specialty of Casey's conscientious objection just war and Christian peacemaking *Cosmopolis* Danilo Zolo, 2013-05-31 This volume makes a challenging critique of the idea of Cosmopolis that is the idea of world or global government In recent years this idea has been put

forward as a way of averting the threat of war and international disorder and as a way of avoiding the destruction of the planet. Proponents of this idea call for a radical reform of the United Nations which aims to legitimize this institution as an international police force and as a provider of global justice. Zolo criticizes this new cosmopolitan philosophy and rejects the idea of trying to eliminate international conflict through the use of centralized and superior military force. He seeks instead to develop a conception of international relations which takes account of their pluralistic dynamic and conflictual nature. This conception moves away from the logic of hierarchical centralization which so dominates the UN Charter and towards the logic of weak interventionism and weak pacifism which relies on self organization, coordination and negotiation. Timely, provocative and iconoclastic, *Cosmopolis* is an important contribution to current debates in politics, international relations and social and political theory.

God So Loved the World Jonathan R. Wilson, 2001-06-01 Explores how Jesus Christ demonstrates the love of God in the stories, images and practices of the New Testament.

Gathered for the Journey David Matzko McCarthy, M. Therese Lysaught, 2007-08-28 *Gathered for the Journey* sets moral reasoning in a theological context of worship and discipleship. Part 1 provides a framework for the moral life based on questions of human fulfillment. Part 2 and demonstrates how these theological resources shape a distinctive approach to questions of globalization, Catholic social teaching, the family, war and peace, bioethics and the environment. Part 3 McCarthy and Lysaught have crafted a distinctively unified collection. *Gathered for the Journey* represents a common project among Catholic scholars who are struggling with similar questions about living faithfully. Contributors: Frederick Christian Bauerschmidt, William T. Cavanaugh, David M. Cloutier, Dana Dillon, James M. Donohue, Jeanne Heffernan, Schindler Kelly, S. Johnson, M. Therese Lysaught, William C. Mattison III, David M. McCarthy, Michael R. Miller, Julie Hanlon Rubio, Tobias Winright.

Reconstructing the Common Good Gary J. Dorrien, 2008-05-01 This landmark study in the history and theory of modern Christian socialism examines the work of such major figures as Rauschenbusch, Tillich, Moltmann, Gutierrez and Miguez Bonino. Dorrien argues that these theologians provide a singular context for addressing questions of freedom and totalitarianism, sacralization and democratization, individual autonomy and the common good. He focuses on the differing conceptions of the common good that these major theorists have propounded and explicates as well their theological arguments on the relationship between the Kingdom of God and projects of historical praxis. With a new Preface addressing the tumultuous events in Eastern Europe, *Reconstructing the Common Good* develops and sustains a forceful argument for the continuing relevance of a decentralized, pluralistic, democratic form of socialism.

Orthodox Synthesis Joseph J. Allen, 1981 These essays by well known theologians representing various branches of theology: liturgics, ecclesiology, ethics, pastoral practice, church history, biblical studies, contribute to the unity of theological thought in the Orthodox Church.

The Ethics of War Richard Sorabji, David Rodin, 2020-09-10 9/11 and the subsequent invasions of Afghanistan and Iraq have left many people baffled and concerned. This interdisciplinary study of the ethics of war provides an excellent orientation not only to present but also to future

conflicts It looks both back at historical traditions of ethical thought and forward to contemporary and emerging issues The Ethics of War traces how different cultures involved in present conflicts have addressed similar problems over the centuries Distinguished authors reflect how the Graeco Roman world Byzantium the Christian just war tradition Islam Judaism Hinduism and the Geneva Conventions have addressed recurrent ethical problems of war Cutting edge essays by prominent modern theorists address vital contemporary issues including asymmetric war preventive war human rights and humanitarian intervention Distinguished academics ethical leaders and public policy figures have collaborated in this innovative and accessible guide to ethical issues in war

Necessity, Proportionality and the Use of Force by States

Judith Gardam,2004-11-18 There has been considerable debate in the international community as to the legality of the forceful actions in Kosovo in 1999 Afghanistan in 2002 and Iraq in 2003 under the United Nations Charter There has been consensus however that the use of force in all these situations had to be both proportional and necessary Against the background of these recent armed conflicts this 2004 book offers the first comprehensive assessment of the twin requirements of proportionality and necessity as legal restraints on the forceful actions of States It also provides a much needed examination of the relationship between proportionality in the law on the use of force and international humanitarian law

Serve and Protect Tobias Winright,2020-11-13 This collection of essays on policing and the use of force while written over the course of the last twenty five years remains relevant and timely Although issues in policing and questions about excessive force and brutality have been addressed by criminologists sociologists philosophers and criminal justice ethicists only a handful of theological ethicists treat this pressing matter While the Christian moral tradition has a voluminous record of theological attention to violence and nonviolence war and peace there is a dearth of references to policing And most considerations of criminal justice issues by Christians and their churches concentrate on prison reform or abolition and the death penalty but not policing These essays authored by a theological ethicist possessing professional experience in law enforcement seek to fill this curious gap They offer a framework for moral reasoning concerning the justification for police use of force and the just application of such force and they propose just policing as a model that is consonant with promoting a just peace in communities and society In addition they explore the implications of such an approach for wider international questions about just war terrorism the responsibility to protect and post war justice

Loving Creation Gary Chartier,2022 Gary Chartier offers an alternative to natural law theories that disregard people s welfare and embrace impartiality He envisions Christian love as focused on creation to enrich social practices and personal life Loving Creation contributes to theological understanding personal moral reflection church practice and participation in public life

Informed Consent, Proxy Consent, and Catholic Bioethics Grzegorz Mazur, O.P.,2011-09-22 This work offers a comprehensive understanding rooted in Catholic anthropology and moral theory of the meaning and limits of informed and proxy consent to experimentation on human subjects In particular it seeks to articulate the rationale for proxy

consent in both therapeutic and nontherapeutic settings As to the former the book proposes that the Golden Rule recognizing the basic inclinations of human nature toward objective goods perfective of human persons should underpin the notion of proxy consent to experimentation on humans As to the latter an additional scrutiny of the amount of risk involved is necessary since the risk benefit ratio frequently invoked to justify higher risk therapeutic research does not exist in its nontherapeutic counterpart This study discusses a number of possible solutions to this question and develops a position that builds upon the objective notion of the human good *Moral Passion and Christian Ethics* Robin Gill,2017-03-06 Using a range of disciplines this book explores the relationship between moral passion and rational ethical deliberation
