War Morality And The Military Profession Second Edition Revised And Updated:

War, Morality and the Military Profession Malham M. Wakin, 1981 **War, Morality, And The Military Profession** Malham M Wakin, 1986-05-28 This anthology brings together material on two major related topics the military profession and morality and war The revised and updated edition retains those sections that made the original version indispensable in the classroom while incorporating new selections on topics of special concern for the 1980s and beyond In particular Colonel Wakin has included essays focusing on the relevance of nuclear deterrence and just war theory in the nuclear age More than a third of the chapters are new The articles in the first section stress the ethical dimensions of the military profession considering topics such as the conflict between military values and societal norms the relation of the military to the state and the concepts of loyalty honor and integrity New chapters include an essay by Vice Admiral James B Stockdale suggesting how moral philosophy can serve the profession contemporary commentaries on the profession by Jacques Barzun and Max Lerner and new thoughts on ethics and leadership by Colonel Wakin The essays in Part 2 confront the agonizing moral issues associated with warfare especially modern warfare In conjunction with discussions of the laws of war and war crimes new chapters highlight the continuing debate on nuclear issues Included are excerpts from the U S Catholic Bishops pastoral letter The Challenge of Peace God's Promise and Our Response a defense of pacifism by Stanley Hauerwas arguments about the use of nuclear weapons and nuclear deterrence by Michael Walzer Michael Novak and Charles Krauthammer and some moral reflections on the Strategic Defense Initiative Star Wars by Kenneth Kemp

Ebenezer David J. Leach, 2018-03-15 Here you will find thought provoking discussions regarding religion national security the Constitution these are heard in the seven theses representing how history repeats itself through divisions within nations when the God who created mankind is left out Significantly during the past fifty years the God who simultaneously gave us life and gave us liberty according to Jefferson is being disregarded in the most important deliberations at the highest levels of government National Security policy discussions revolve around political considerations and short term wins and losses which will garner the best media bias in favor of the policies promulgated and which might provide payback for past political favors and votes The long term ramification of those policies are not based upon biblical principles unless the interpretation of the Bible fits what humanist politics deem appropriate for the times and in accordance with a living Constitution perspective Ebenezer discusses United States national security from a biblical perspective through discussions regarding clandestine operations homosexuality in the Department of Defense terrorism women in direct combat operations nuclear weapons deterrence borders language and culture and National Security Strategy Ebenezer means stone of help It represents the stone erected by the prophet Samuel to commemorate and be a reminder of the Lord God's power and protection for his people the United States has been an Ebenezer since its founding a stone of help to a world in need To be Ebenezer the United States needs a foundational stone to lean against *Ethics Education in the Military* Nigel de Lee, Mr

Don Carrick, Professor Paul Robinson, 2013-03-28 With formal ethics education programmes being a rarity in most countries armed forces there is a growing importance for servicemen to undergo additional military ethics training But how do we ensure that soldiers learn the right lessons from it Furthermore how can we achieve a uniformity of approach The current lack of uniformity about what constitutes ethical behaviour and how troops should be educated in it is potentially a cause for serious alarm This book advances knowledge and understanding of the issues associated with this subject by bringing together experts from around the world to analyze the content mode of instruction theoretical underpinnings and the effect of cultural and national differences within current ethics programmes It also explores whether such programmes are best run by military officers chaplains or academic philosophers and reflects whether it is feasible to develop common principles and approaches for the armed forces of all Western countries This is an invaluable volume for military academies and staff colleges to enhance understanding of a matter which requires much further thought and which is becoming a vital force in influencing outcomes on the battlefields of the twenty first century The book will primarily be of interest to military officers and others directly involved in ethics education in the military as well as to philosophers and students of military affairs

Military Review ,2012 *Professional Journal of the United States Army* ,1996 **Strategy and Resilience** Ramon Martinez, 2016-09-27 Strategy and resilience are common terms but most researchers and authors have come up short in defining what they mean and how to achieve them Ramon Martinez a retired lieutenant colonel with the U S Air Force solves that problem with this business guidebook in which he introduces the subjects of business strategy and resilience dispels myths about strategy corrects misconceptions and clarifies what strategy and resilience means shows how guiding principles a vision and a mission are instrumental to doing business in a complex and fast paced world filled with change shares ways to create a strong business strategy so companies can thrive even during tough times and connects it all with a profound yet dynamic discussion on leadership Throughout the book Martinez makes the case that business strategy and resilience work hand in hand Business strategy helps you overcome obstacles to success and resilience allows you to adapt to changes in order to sustain healthy growth over time This book is for everyone working in a company for any person who runs or manages a business for students studying business and for anyone wishing to learn something new Filled with collaborative exercises anecdotes clear definitions illustrations models and examples from real life the business strategy you develop using this book enables you to build a thriving business that lasts **War and Morality** Michael Cavanagh, 2014-01-10 In democratic societies it is said that wars and military interventions are fought in the name of the citizens of the nation engaged in the conflict Yet ordinary citizens the major stakeholders in war are seldom provided with as much information for making and acting on their moral decisions about war as they are about many other national issues that affect them To fill the void this volume addresses the nature of conscience various moral norms a moral decision making process and the theoretical and practical issues involved in attempting to avoid war or at least to make it as moral as possible considering its

nature By discussing how the morality of war differs from its political military economic and legal dimensions this unique work attempts to enable citizens to make informed decisions about declaring waging and ending war and to act on those decisions Instructors considering this book for use in a course may request an examination copy here **Stoicism as a Warrior Philosophy** William C. Spears, 2025-11-13 William C Spears presents a compelling case for Stoicism as the moral framework warriors need I saw this firsthand during my service in the Marine Corps at the CIA and later as a senior official at the Pentagon The core principles of Stoicism discipline resilience knowing what matters apply just as much on the battlefield as they do in the Situation Room at the White House This is not just theory it s a philosophy tested under pressure and meant for those whose decisions have consequences measured in lives Michael Mick Mulroy former U S Deputy Assistant Secretary of Defense for the Middle East and senior fellow at Harvard s Belfer Center If Stoicism seriously attracts your attention you need a North Star In the life of work William Spears has invested in this text you have a resource that provides authentic thorough guidance He writes it in a wonderful manner that allows you to choose your own challenges but with the tools included to have a best chance of finding both methodology and reward And when you master an aspect of Stoicism it allows you to bite off another piece of its life sustaining wisdom and approach any challenge with confidence Foreword by James B Stockdale II Can ancient philosophers really provide useful insights for the modern warfighter How might they reconcile cosmopolitan principles with patriotic duty Would a truly enlightened individual participate in the horrors of war Stoicism as a Warrior Philosophy grapples with these questions and more Authored by a serving military professional it breaks down the most advanced concepts of Stoicism into plain language without oversimplifying Exhaustively researched steeped in original sources and informed by examples from the cutting edge of modern conflict it builds upon ancient thinking to develop innovative theories of patriotic duty and ethical warfighting While Stoicism has seen an explosion in popular interest and is widely embraced in military culture no serious philosophical work has yet explored its full implications within the military profession This book answers that call Endorsed by senior military officials and academic philosophers Stoicism as a Warrior Philosophy provides compelling and original contributions to both military ethics and the literature of modern Stoicism **Nuclear Weapons And The American Churches** Donald L. Davidson, 2019-03-04 This book describes the positions advocated by ethicists and churches in the public debate on nuclear weapons After tracing the development of just war theory the dominant moral position on war in Western thought Dr Davidson synthesizes the views of contemporary ethicists on the moral principles associated with the just war tradition He then documents the postures of Reinhold Niebuhr Paul Ramsey Michael Walzer and James Turner Johnson with regard to the first use and retaliatory use of nuclear weapons deterrence policy the nuclear freeze proposal the arms race and disarmament The positions endorsed by the Roman Catholic Church and the major Protestant and Jewish denominations in the United States on the issues of nuclear warfare are described in detail with extensive treatment given to the development of the Catholic Bishops 1983 pastoral

letter on war and peace and the statements of churches affiliated with the National Council of Churches The views of over 30 denominations representing more than 110 million members are considered The final chapter of the book contrasts the stance of the churches with that of the Reagan Administration Proposing guidelines for a moral defense policy in the nuclear age Dr Davidson s thesis is that national security requires a recognition of the need to protect and preserve values worth defending while simultaneously taking steps to prevent nuclear war

A Companion to American Military History

James C. Bradford,2009-11-03 With more than 60 essays A Companion to American MilitaryHistory presents a comprehensive analysis of the historiographyof United States military history from the colonial era to thepresent Covers the entire spectrum of US history from the Indian andimperial conflicts of the seventeenth century to the battles inAfghanistan and Iraq Features an unprecedented breadth of coverage from eminentmilitary historians and emerging scholars including little studiedtopics such as the military and music military ethics care of thedead and sports Surveys and evaluates the best scholarship on every importantera and topic Summarizes current debates and identifies areas whereconflicting interpretations are in need of further study

The Military Profession Charles A. Leggett,1982

Soldiers, Peasants,

and Bureaucrats Roman Kolkowicz,Andrzej Korbonski,2021-01-26 This book first published in 1981 is a comprehensive examination of the main theoretical methodological and empirical approaches to the study of the military in modernising political systems in socialist and non socialist countries It analyses civil military relations in the Middle East Eastern Europe and China and in doing so sheds new light on the comparative politics and strategic affairs of the Cold War period

The Ashgate Research Companion to Military Ethics James Turner Johnson,Eric D. Patterson,2016-03-23 This Companion provides scholars and graduates serving and retired military professionals members of the diplomatic and policy communities concerned with security affairs and legal professionals who deal with military law and with international law on armed conflicts with a comprehensive and authoritative state of the art review of current research in the area of military ethics Topics in this volume reflect both perennial and pressing contemporary issues in the ethics of the use of military force and are written by established professionals and respected commentators Subjects are organized by three major perspectives on the use of military force the decision whether to use military force in a given context the matter of right conduct in the use of such force and ethical responsibilities beyond the end of an armed conflict Treatment of issues in each of these sections takes account of both present day moral challenges and new approaches to these and the historical tradition of just war Military ethics as it has developed has been a particularly Western concern and this volume reflects that reality However in a globalized world awareness of similarities and differences between Western approaches and those of other major cultures is essential For this reason the volume concludes with chapters on ethics and war in the Islamic Chinese and Indian traditions with the aim of integrating reflection on these approaches into the broad consideration of military ethics provided by this volume

Torture and the Military Profession J. Wolfendale,2007-10-04 Wolfendale argues that the prevalence of

military torture is linked to military training methods that cultivate the psychological dispositions connected to crimes of obedience While these methods are used the military has no credible claim to professional status Canadian Defence Quarterly ,1993 Military Medical Ethics Anthony E. Hartle,Edmund D. Pellegrino,2003 2 volumes sold as a set Textbooks of Military Medicine Section editors Edmund D Pellegrino Anthony E Hartle and Edmund G Howe et al Addresses medical ethics within a military context **The Choice of War** Albert L. Weeks,2009-11-25 A longtime scholar of the Cold War deftly weaves together the tradition of just war and an examination of current events to show how the time honored concepts of jus ad bellum justice of war and jus in bello justice in war apply to the U S military involvement in Iraq This timely analysis of President George W Bush s foreign policy deals with the cornerstone of his administrations the war on terror as implemented in Afghanistan Iraq Guantanamo Bay and at Abu Ghraib prison The Choice of War The Iraq War and the Just War Tradition discusses NSS 2002 the national security statement that became the blueprint for the Bush Doctrine It explains the differences and similarities between preventive and pre emptive war and explores the administration s justification of the necessity of the March 2003 invasion Finally it analyzes the conduct of the war the occupation and the post occupation phases of the conflict In evaluating the Bush Doctrine both as declared strategy and as implemented Albert L Weeks asks whether going it virtually alone in the global struggle against 21st century terrorism should be incorporated permanently into American political and military policy Answering no he suggests an alternative to a doctrine that has isolated the United States and left the world divided **Military Medical Ethics, Volume 1** , Studies in Defense ,1983
