Making Sense of Modern Times James Davison Hunter, Stephen C. Ainlay, 2024-04-01 Peter Berger 1929 2017 was one of the pre eminent sociologists of the twentieth century His highly creative and controversial writing made a distinct impact not only in sociology but in such disciplines as political science public policy history religious studies and theology Originally published in 1986 *Making Sense of Modern Times* shows how Peter Berger struggled with the classical legacy of the sociological enterprise a legacy abandoned by contemporary sociology Berger made a self conscious effort to recover this vision Each of the four sections of the book Social Theory Modernization Religion The Method and Vocation of Sociology contains essays which examine Berger's efforts in the light of these broader issues and assess the degree to which Berger succeeds or fails in his efforts The book includes a contribution from Berger himself responding to the preceding essays as well as presenting his own appraisal of the future of interpretive sociology

Evolution Versus Revolution Melvyn L. Fein, 2017-07-05 Revolutionary and evolutionary theorists have very different views about change Fein writes in favour of evolution He proposes an integrated model of social evolution one that accounts for the complexity inconclusiveness and impediments that characterize social transformations This multi dimensional approach recognizes that change is always saturated in conflict Major changes are rarely initiated by conscious decisions that are automatically implemented power and morality generally

control the direction that significant alterations take Fein explains how the social generalist dilemma places our need for both flexibility and stability in opposition to each other such that non rational mechanisms are needed to produce a solution He also describes how an inverse force rule dictates that small societies are bound together by strong social forces whereas large ones are secured by weak forces This suggests that social roles are likely to become professionalized over time If social change is in fact analogous to natural rather than artificial selection we may be in the midst of an only partially predictable middle class revolution Indeed the current impasse between liberals and conservatives may be evidence that we are in the consolidation phase of this process Should this be the case a paradigm shift not a classical revolution is in our future **The**

When the Fences Come Down Genevieve Siegel-Hawley, 2016-04-12 How we provide equal educational opportunity to an increasingly diverse highly urbanized student population is one of the central concerns facing our nation As Genevieve Siegel Hawley argues in this thought provoking book within our metropolitan areas we are currently allowing a labyrinthine system of school district boundaries to divide students and opportunities along racial and economic lines Rather than confronting these realities though most contemporary educational policies focus on improving schools by raising academic standards holding teachers and students accountable through test performance and promoting private sector competition Siegel Hawley takes us into the heart of the metropolitan South to explore what happens when communities instead focus squarely on overcoming the educational divide between city and suburb Based on evidence from metropolitan school desegregation efforts in Richmond Virginia Louisville Kentucky Charlotte Mecklenburg North Carolina and Chattanooga Tennessee between 1990 and 2010 Siegel Hawley uses quantitative methods and innovative mapping tools both to underscore the damages wrought by school district boundary lines and to raise awareness about communities that have sought to counteract them She shows that city suburban school
