Noussia,2019-12-05 This Volume of the AIDA Europe Research Series on Insurance Law and Regulation explores the key trends in InsurTech and the potential legal and regulatory issues that accompany them There is a proliferation of ideas and concepts within InsurTech that will fundamentally change the market in the next few years These innovations have the potential to change the way the insurance industry works and alter the relationships between customers and insurers resulting in insurance products that are more closely aligned to individual preferences and priced more appropriately to the risk Increasing use of technology in the insurance sector is having both a disruptive and transformative impact on areas including product development distribution modelling underwriting and claims and administration practice The result is a

new industry known as InsurTech But while the insurance market looks to technology for greater efficiency regulators are beginning to raise concerns about managing potential risks The first part of the book examines technological innovations relevant for insurance such as FinTech InsurTech Sharing Economy and the Internet of Things The second part then gathers contributions on insurance contract law in a digitalized world while the third part focuses on cyber insurance and robots Last but not least the fourth part of the book discusses legal and ethical questions regarding autonomous vehicles and transportation including the shipping industry as well as their impact on the insurance sector and civil liability Written by legal scholars and practitioners the book offers international comparative and European perspectives The Chapters FinTech InsurTech and the Regulators by Viktoria Chatzara Smart Contracts in Insurance A Law and Futurology Perspective by Angelo Borselli and Room for Compulsory Product Liability Insurance in the European Union for Smart Robots by Aysegül Bugra are available open access under a CC BY 4.0 license at link.springer.com All three open access chapters were funded by BIPAR

A Global View on Intercultural Management Jürgen Rothlauf, 2014-12-11 Whatever their industry of origin all companies are facing the same challenge to a greater or lesser degree globalization It is becoming more and more evident that companies need to plan ahead and anticipate coming developments if they are to be successful in the future Today it is crucial to establish a solid competitive position in the global arena There is no doubt that a corporate culture that is open to innovation and shaped by global thinking plays a key role in this context A culture in which representatives of different countries and cultures can come together anticipating and understanding the cultural challenges creates the foundation of any international business A global view on intercultural management will be the key to successfully doing business in diverse cultural environments

Eurasian Integration - The View from Within Piotr Dutkiewicz, Richard Sakwa, 2014-10-17 As Eurasia and the adjacent territories become more important to the world there is increasing interest from international powers accompanied by attempts to give institutional form to traditional economic and security links within the region This book includes a range of substantive work from scholars based in the region offering contrasting perspectives on the process of Eurasian integration and its place in the world Chapters consider economic political social and security developments with notable studies of the major countries involved in the development of the Eurasian Economic Union The work also examines the connections between the region and China greater Asia and the European Union It outlines the varying dynamics with populations growing in Central Asia while at best stagnant elsewhere The book discusses the increasing strategic significance of the region and explores how the new post Soviet states are growing in national cohesion and political self confidence Above all the book examines the concept of Eurasia outlining the debates about the concept and how various aspects of the legacy of Eurasianism contribute to contemporary plans for integration The book argues that although regional integration is very much a popular idea in our age with the potential for economic benefits and increased international influence in practice contemporary projects for Eurasian integration have been highly ambiguous and contested Nevertheless

significant steps have been taken towards the creation of the Eurasian Economic Union The book analyses developments to date noting the achievements as well as the challenges *The Battle of the Bulge: The German View* Danny S. Parker, 2016-08-30 As Allied armies swept towards the Reich in late 1944 the German high command embarked on an ambitious plan to wrest the initiative on the Western Front and deal a crippling blow to the Allied war effort This superb book brings together a wealth of primary source material including German documentation and debriefs of German generals to tell the story of this famous campaign from the German point of view Expertly edited by the acclaimed historian Danny S Parker this is an impressive volume which sheds fascinating light on one of the most crucial episodes of the Second World War A brief view of the Dutch Ecclesiastical Establishment: ... with an appendix, containing the general regulations for the Government of the Reformed Church in the Netherlands. ... Third edition William STEVEN (Head Master of George Heriot's Hospital.), 1839 *How Europeans View and Evaluate Democracy Revisited* Mónica Ferrín, Hanspeter Kriesi, 2025-01-29 In 2012 How Europeans View and Evaluate Democracy assessed the Europeans views and evaluations of the state of democracy after one of the deepest economic and financial crises worldwide Against the most pessimistic Zeitgeist the book found that there was overwhelming support for democracy in Europe even if the breadth and scope of the citizens demands for their democratic systems varied within and between countries Importantly with very few exceptions the implementation of the basic democratic principle of free and fair elections was well evaluated across Europe However analysis also showed that there was room for improvement in many countries according to the citizens evaluations Overall in 2012 there were no symptoms of a democratic crisis in Europe Ten years and several crises later the authors reassess how Europeans view and evaluate democracy and that many changes that have occurred in the meantime This book How Europeans View and Evaluate Democracy Revisited compares how Europeans view and evaluate democracy in 2021 22 and in 2012 based on surveys in 24 European countries It shows that Europeans continue to be attached to democratic ideals and that they continue to be rather dissatisfied with the way these ideals are implemented in their country The liberal democratic model continues to enjoy great support just as it did a decade ago and there is also support for additional models of democracy for social direct and populist democracy Surprisingly the populist model turns out to be a complement rather than a substitute for the other models Comparative Politics is a series for researchers teachers and students of political science that deals with contemporary government and politics Global in scope books in the series are characterized by a stress on comparative analysis and strong methodological rigour The series is published in association with the European Consortium for Political Research For more information visit www.ecprnet.eu The series is edited by Nicole Bolleyer Chair of Comparative Political Science Geschwister Scholl Institut LMU Munich and Jonathan Slapin Professor of Political Institutions and European Politics Department of Political Science University of Zurich *Beam's Eye View Imaging in Radiation Oncology* Ross I. this exciting technology which enables real time anatomical imaging It highlights how the information collected e g the shape and size of the beam aperture and intensity of the beam is used in the clinic for treatment verification adaptive radiotherapy and in treatment interventions The chapters cover detector construction and components common imaging procedures and state of the art applications The reader will also be presented with emerging innovations including target modifications real time tracking reconstructing delivered dose and in vivo portal dosimetry Ross I Berbeco PhD is a board certified medical physicist and Associate Professor of Radiation Oncology at the Dana Farber Cancer Institute Brigham and Women s Hospital and Harvard Medical School *The Long Twelfth-Century View of the Anglo-Saxon Past* Martin Brett,David A.

Woodman,2016-03-03 Scholars have long been interested in the extent to which the Anglo Saxon past can be understood using material written and produced in the twelfth century and simultaneously in the continued importance or otherwise of the Anglo Saxon past in the generations following the Norman Conquest of England In order to better understand these issues this volume provides a series of essays that moves scholarship forward in two significant ways Firstly it scrutinises how the Anglo Saxon past continued to be reused and recycled throughout the longue dur e of the twelfth century as opposed to the early decades that are usually covered Secondly by bringing together scholars who are experts in various different scholarly disciplines the volume deals with a much broader range of historical linguistic legal artistic palaeographical and cultic evidence than has hitherto been the case Divided into four main parts The Anglo Saxon Saints Anglo Saxon England in the Narrative of Britain Anglo Saxon Law and Charter and Art history and the French Vernacular it scrutinises the majority of different genres of source material that are vital in any study of early medieval British history In so doing the resultant volume will become a standard reference point for students and scholars alike interested in the ways in which the Anglo Saxon past continued to be of importance and interest throughout the twelfth century *"Force of Order and Methods ..."*

An American view into the Dutch Directed Society Maurice C. Blanken,2012-12-06 The Netherlands is an unusual nation in many ways It is not only that nearly half her land is below sea level Nor is it that she is one of the world s most crowded lands her more than 13 million people create a population density of about 1000 per square mHe Nor is it that half her national income is dependent upon world trade Nor is it that so small anation could achieve peace and prosperity with so little natural resources What is most unusual is that the Netherlands has made such a rapid and total adjustment to the demands of modern technological society In no small measure this was achieved by a deliberate policy of planning direction control and development Its postwar history tells how a determined people under intelligent govern ment leadership rose from a broken economy to a level of economic and social development that places their society among the most modern in the world The Netherlands is a success story that in some measure has been overlooked by a wider world This will be an attempt to record her story touching upon some of the causes and results of this success The Netherlands is undoubtedly one of the most planning conscious of modern nations This is not to say that the Dutch government or its people have any concept
