Trans Bodies, Trans Selves Laura Erickson-Schroth, 2014-05-12 There is no one way to be transgender Transgender and gender non conforming people have many different ways of understanding their gender identities Only recently have sex and gender been thought of as separate concepts and we have learned that sex traditionally thought of as physical or biological is as variable as gender traditionally thought of as social

While trans people share many common experiences there is immense diversity within trans communities There are an estimated 700 000 transgendered individuals in the US and 15 million worldwide Even still there s been a notable lack of organized information for this sizable group Trans Bodies Trans Selves is a revolutionary resource a comprehensive reader friendly guide for transgender people with each chapter written by transgender or genderqueer authors Inspired by Our Bodies Ourselves the classic and powerful compendium written for and by women Trans Bodies Trans Selves is widely accessible to the transgender population providing authoritative information in an inclusive and respectful way and representing the collective knowledge base of dozens of influential experts Each chapter takes the reader through an important transgender issue such as race religion employment medical and surgical transition mental health topics relationships sexuality parenthood arts and culture and many more Anonymous quotes and testimonials from transgender people who have been surveyed about their experiences are woven throughout adding compelling personal voices to every page In this unique way hundreds of viewpoints from throughout the community have united to create this strong and pioneering book It is a welcoming place for transgender and gender questioning people their partners and families students professors guidance counselors and others to look for up to date information on transgender life

Philosophy of Love, Sex, and Marriage Raja Halwani, 2018-01-29 How is love different from lust or infatuation Do love and marriage really go together like a horse and carriage Does sex have any necessary connection to either And how important are love sex and marriage to a well lived life In the Second Edition of this lively lucid and comprehensive book Raja Halwani explores and elucidates the nature uses and ethics of romantic love sexuality and marriage It is structured in three parts Love examines the nature of romantic love and how it differs from other types of love such as friendship and parental love It also investigates the relationship of love to morality and asks what limits morality puts on romantic love and even whether romantic love is inherently moral Sex demonstrates the difficulty in defining sex and the sexual and examines what constitutes good and bad sex in terms of pleasure naturalness and moral permissibility It discusses the nature of sexual desire and its connection to objectification and virtue all the while looking at specific sexual engagements such as pornography BDSM and raced desires Marriage traces the history of the institution and describes the various forms in which marriage exists and the reasons why people marry It also investigates the necessity of marriage and ways in which it requires reform Updates and Revisions in the Second Edition Expands the coverage of love and morality from one to two chapters incorporating much of the recent literature on love as a moral emotion Includes a new chapter on sex and virtue ethics Ends each of the chapters on sex with an applied topic such as pornography BDSM prostitution racial sexual desires and adultery Increases coverage of the nature and purpose of marriage including debates surrounding same sex marriage but also moving beyond these debates to include issues on minimal marriage temporary marriage polygamy and other forms of marriage Updates the Further Reading and Study Questions sections at the end of each chapter and provides an up to date

comprehensive bibliography at the back of the book Includes new discussions of topics on the nature of love love and reasons distinctions between two types of romantic love love and its connections to moral theories definitions of crucial sexual concepts objectification virtue and sex racial sexual desires and the definition of marriage and whether it is important as an institution *Failing Desire* Karmen MacKendrick,2017-12-04 Luckily for human diversity we are perfectly capable of desiring impossible things *Failing Desire* explores a particular set of these impossibilities those connected to humiliation These include the failure of autonomy in submission of inward privacy in confession of visual modesty in exhibition and of dignity in playing various roles Historically those who find pleasure in these failures range from ancient Cynics through early Christian monks to those now drawn by queer or perverse eroticism As Judith Halberstam pointed out in *The Queer Art of Failure* failure can actually be a mode of resistance to demands for what a culture defines as success Karmen MacKendrick draws on this interest in queer refusals To value desire or seek humiliation undercuts any striving for success but it draws our attention particularly to the failures of knowledge as a form of power whether that knowledge is of one body or of a population How can we understand will that seeks not to govern itself psychology that constructs inwardness by telling all blushing shame that delights in exposure or dignity that refuses its lofty position *Failing Desire* suggests that the power of these desires and pleasures comes out of the very realization that this question can never quite be answered **What the Body Commands** Colin Klein,2015-08-14 A novel theory of pain according to which pains are imperatives commands issued by the body ordering you to protect the injured part In *What the Body Commands* Colin Klein proposes and defends a novel theory of pain Klein argues that pains are imperative they are sensations with a content and that content is a command to protect the injured part of the body He terms this view imperativism about pain and argues that imperativism can account for two puzzling features of pain its strong motivating power and its uninformative nature Klein argues that the biological purpose of pain is homeostatic like hunger and thirst pain helps solve a challenge to bodily integrity It does so by motivating you to act in ways that help the body recover If you obey pain s command you get better in ordinary circumstances He develops his account to handle a variety of pain phenomena and applies it to solve a number of historically puzzling cases Klein s intent is to defend the imperativist view in a pure form without requiring pain to represent facts about the world Klein presents a model of imperative content showing that intrinsically motivating sensations are best understood as imperatives and argues that pain belongs to this class He considers the distinction between pain and suffering explains how pain motivates addresses variations among pains and offers an imperativist account of maladaptive pains pains that don t appear to hurt masochism and why pain feels bad *Trans and Sexuality* Christina Richards,2017-08-10 Grounded in cutting edge qualitative research *Trans and Sexuality* explores the sexuality of people who do not identify with the gender that they were assigned at birth Arguing that whilst splitting members of the trans community into distinct groups might seem like a reasonable theoretical procedure the pervasive assumption that group membership impacts on the sexuality of trans people

has unduly biased opinions in this highly contested yet dramatically under researched area Moreover whilst existing literature has taken a purely positivistic standpoint or relies on methodology that could be seen as exploitative towards trans people Richards is careful to place the real life experiences of trans research participants at the heart of the work Showing that sexuality extends beyond the bedroom this forward thinking book touches on topics such as identity sexuality and the intersections between the two Richards takes a cross disciplinary approach and considers the sexuality of trans people within the contexts of psychiatric and psychological settings including Gender Identity Clinics as well as in the broader contexts of cultural and community settings The implications of the research at hand are also explored with respect to counselling psychology and existentialist philosophy Trans and Sexuality will appeal to academics researchers and postgraduate students in the fields of gender and sexuality counselling sociology psychotherapy psychology and psychiatry It will be of particular interest to those seeking an in depth and up to date overview of ethics and methodologies with people from marginalised sexualities and genders
