The Oxford Handbook of the African American Slave Narrative John Ernest, 2014-02-28 Given the rise of new interdisciplinary and methodological approaches to African American and Black Atlantic studies The Oxford Handbook of the African American Slave Narrative will offer a fresh wide ranging assessment of this major American literary genre The volume will begin with articles that consider the fundamental concerns of gender sexuality community and the Christian ethos of suffering and redemption that are central to any understanding of slave narratives The chapters that follow will interrogate the various agendas behind the production of both pre and post Emancipation narratives and take up the various interpretive problems they pose Strategic omissions and veiled gestures were often necessary in these life accounts as they revealed disturbing too painful truths far beyond what white audiences were prepared to hear While touching upon the familiar canonical autobiographies of Frederick Douglass and Harriet Jacobs the Handbook will pay more attention to the under studied narratives of Josiah Henson Sojourner Truth William Grimes Henry Box Brown and other often overlooked accounts In addition to the literary autobiographies of bondage the volume will anatomize the powerful WPA recordings of interviews with former slaves during the late 1930s With essays on the genre s imaginative afterlife its final essays will chart the emergence and development of neoslave narratives most notably in Styron s *The Confessions of Nat Turner* Toni Morrisons s *Beloved* and Octavia Butler s provocative science fiction novel *Kindred* In short the Handbook will provide a long overdue assessment of the state of the genre and the vital scholarship that continues to grow around it work that is offering some of the most provocative analysis emerging out of the literary studies discipline as a whole

Master Narratives, Identities, and the Stories of Former Slaves Jonathan Clifton, Dorien Van De Mierop, 2016-03-31 This book is intended for researchers in the field of narrative from post graduate level onwards It analyzes the audio recordings of the narratives of former slaves from the American South which are now publically available on the Library of Congress website Voices from the days of slavery More specifically this book analyses the identity work of these former slaves and considers how these identities are related to master narratives The novelty of this book is that through using such a temporally diverse and relatively large corpus we show how master narratives change according to both the zeitgeist of the here and now of the interview world and the historical period that is related in the there and then of the story world Moreover focusing on the

active achievement of master narratives as socially situated co constructed discursive accomplishments we analyze how different inherently unstable and even contradictory versions of master narratives are enacted
