history of modern Paganism and that of second wave feminism in the UK Youniquely Woman Kay Arthur, Emilie Barnes, Donna Otto, 2008-04-01 Can you imagine the amazing wisdom available when three of today's most admired Christian women get together to share with younger women what they've learned through the journey of their lives Kay Arthur co-founder of Precept Ministries renowned speaker and author Emilie Barnes founder of More Hours in My Day speaker and author and Donna Otto founder and president of Homemakers by Choice author and speaker are dear friends who have put together Youniquely Woman conferences and this helpful and insightful book to present what they most wish they'd known when they started their lives as wives mothers and women of God In a warm inviting and conversational manner Kay Emilie and Donna share how to celebrate God's unique imprint on your life by bringing out the best in your marriage and your children capturing a vision for your home creating a strong relationship with God finding balance in every area of your life and much more *Political Power and Women's Representation in Latin America* Leslie A. Schwindt-Bayer, 2010-09-30 The number of women elected to Latin American legislatures has grown significantly over the past thirty years This increase in the number of women elected to national office is due in large part to gender friendly electoral rules such as gender quotas and proportional electoral systems and it has in turn fostered constituent support for representative democracy Still this book argues that women are gaining political voice and bringing women's issues to state agendas but they are not gaining political power Women are marginalized by the male majority in office and relegated to the least powerful committees and leadership posts hindering progress toward real political equality In *Political Power and Women's Representation in Latin America* Leslie Schwindt Bayer examines the causes and consequences of women's representation in Latin America She does so by asking a series of politically relevant and theoretically challenging questions including why the numbers of women in office have increased in some countries but vary across others what the presence of women in office means for the way representatives legislate and what consequences the election of women bears for representative democracy more generally Schwindt Bayer articulates a comprehensive theory of women's representation that analyzes and connects trends in relation to four facets of political representation formal descriptive substantive and symbolic She then tests this theory empirically using aggregate data from all eighteen Latin American democracies and original fieldwork in Argentina Colombia and Costa Rica Ultimately this book communicates the complex and often incomplete nature of women's political representation in Latin America **Women in Storytelling** Afra Kavanagh, 2000 **Uncommon Women and Others**, 1975 *Women In Utah History* Patricia Lyn Scott, Linda Thatcher, 2005-11-30 A project of the Utah Women's History Association and cosponsored by the Utah State Historical Society Paradigm or Paradox provides the first thorough survey of the complicated history of all Utah women Some of the finest historians studying Utah examine the spectrum of significant social and cultural topics in the state's history that particularly have involved or affected women The contents are as follows A Comparison of Utah Mormon Polygamous and Monogamous Women Jessie L Embry and Lois Kelley Innovation and Accommodation the
