Under Fire Great Photographers And Writers In Vietnam:

Under Fire Catherine Leroy, 2005 Pairs the works of combat photographers of the Vietnam War with essays from various writers to chronicle the impact the war had on the soldiers fighting it the civilians caught in the cross fire and the world as a whole The Encyclopedia of the Vietnam War Bloomsbury Publishing, 2011-05-20 Now in its second edition this

comprehensive study of the Vietnam War sheds more light on the longest and one of the most controversial conflicts in U S history The Vietnam War lasted more than a decade was the longest war in U S history and cost the lives of nearly 60 000 American soldiers as well as millions of Vietnamese many of whom were uninvolved civilians The lessons learned from this tragic conflict continue to have great relevance in today s world Now in its second edition The Encyclopedia of the Vietnam War A Political Social and Military History adds an entire additional volume of entries to the already exhaustive first edition making it the most comprehensive reference available about one of the most controversial events in U S history Written to provide multidimensional perspectives into the conflict it covers not only the American experience in Vietnam but also the entire scope of Vietnamese history including the French experience and the Indochina War as well as the origins of the conflict how the United States became involved and the extensive aftermath of this prolonged war It also provides the most complete and accurate order of battle ever published based upon data compiled from Vietnamese sources This latest release delivers even more of what readers have come to expect from the editorship of Spencer C Tucker and the military history experts at ABC CLIO Women and War Bernard A. Cook, 2006-05-19 In this unique encyclopedia 120 leading scholars from around the world provide comprehensive treatment of the role of women in war from the first written history to the present This authoritative encyclopedia presents the work of leading scholars from all over the world to give the first detailed coverage of the role of women in wars throughout history Histories of war are typically histories of men great leaders and heroic fighters Yet the roles of women often receive only limited coverage Except for such notables as Joan of Arc traditional histories give short shrift to women as leaders and fighters Similarly the direct victimization particularly sexual abuse as a weapon of terror and domination and cultural dislocations women suffer in war float as background without detailed coverage This work represents a first devoted in its entirety to thorough examination of all aspects of women in war For the first time readers have a single source for information on the scope of women s role in war and war s effects on them

s activities in Vietnam Many of those women won esteemed prizes for their reporting including the Pulitzer the Overseas Press Club Award the George Polk Award the National Book Award and the Bancroft Prize for History Tragically several lost their lives covering the war while others were wounded or taken prisoner In this gripping narrative veteran journalist Joyce Hoffmann tells the important yet largely unknown story of a central group of these female journalists including Dickey Chapelle Gloria Emerson Kate Webb and others Each has a unique and deeply compelling tale to tell and vivid portraits of their personal lives and professional triumphs are woven into the controversial details of America's twenty year entanglement in Southeast Asia

Afterimages Liam Kennedy, 2016-03 Liam Kennedy here takes as his focus the ways in which selected photographers have sought to frame the activities and effects of American foreign policy often with a critical perspective and how their work engages the dynamics of power and knowledge that attend the American worldview What is at issue in this book is understanding relations between the geopolitical conditions of visibility and the particulars of the image Conditions of visibility for Kennedy are the ideologies that determine certain ways of seeing that support actions and representations which establish in visibilities and which police the relationship between seeing and believing the American worldview The individual photographers whose work Kennedy so insightfully dissects are those who have pushed the boundaries of photographic practice and who reflect critically on the contexts and scenery of war Larry Burrows and Philip Jones Griffiths in Vietnam Gilles Peress covering the Iranian Revolution Susan Meiselas in El Salvador and Nicaragua Ron Haviv and Gary Knight in the Balkans Ashley Gilbertson and Chris Hondros in Iraq and Tim Hetherington and Lynsey Addario in Afghanistan These individuals expanded the conception and technical repertoire of photojournalism receiving critical acclaim provoking public and professional controversy and often incurring great personal cost to themselves *Afterimages* presents us with a revisionary understanding of the art of conflict photography The images are often searing they sometimes demonize and dehumanize the enemy but also humanize friend or victim a focus on the human roots the range of feeling in such imagery from horror to pity

Historical Dictionary of the War in Vietnam Ronald B. Frankum Jr., 2011-06-10 For Southeast Asia the Vietnam War altered forever the history topography people economy and politics of the Democratic Republic of Vietnam DRV the Republic of Vietnam RVN Cambodia and Laos That the war was controversial is an understatement as is the notion that the war can be understood from any one perspective One way of understanding the Vietnam War is by marking its time with turning points both major and minor that involved events or decisions that helped to influence its course in the years to follow By examining a few of these turning points an organizational framework takes shape that makes understanding the war more possible *Historical Dictionary of the War in Vietnam* emphasizes the international nature of the war as well as provide a greater understanding of the long scope of the conflict The major events associated with the war will serve as the foundation of the book while additional entries will explore the military diplomatic political social and cultural events that made the war unique While military subjects will be fully explored there will be

greater attention to other aspects of the war All of this is done through a chronology an introductory essay an extensive bibliography and over 600 cross referenced dictionary entries This book is an excellent access point for students researchers and anyone wanting to know more about the Vietnam War Close-Up on War Mary Cronk Farrell,2022-03-22 The inspiring and fascinating true story of Catherine Leroy one of the few women photographers covering the Vietnam War who gave a human face to the conflict told by award winning journalist and children s book author Mary Cronk Farrell Close Up on War tells the story of French born photographer Catherine Leroy who documented some of the fiercest fighting in Vietnam s 20 year conflict Although she had no formal photographic training and had never traveled more than a few hundred miles from Paris before Leroy left home at age 21 to travel to Vietnam and document the faces of war Despite being told that women didn t belong in a man s world she was cool under fire gravitated toward the thickest battles went along on the soldiers slogs through the heat and mud of the jungle crawled through rice paddies and became the only official photojournalist to parachute into combat with American soldiers Leroy took striking photos that gave America no choice but to look at the realities of war showing what it did to people on both sides from wounded soldiers to civilian casualties Later Leroy was gravely wounded from shrapnel but that didn t keep her down for more than a month When captured by the North Vietnamese in 1968 she talked herself free after photographing her captors scoring a cover story in Life magazine A recipient of the George Polk Award one of the most prestigious awards in journalism Leroy was one of the most well known photographers in the world during her time and her legacy of bravery and compassion endures today Farrell interviewed people who knew Leroy as well as military personnel and other journalists who covered the war In addition to a preface by Pulitzer Prize winning Vietnam War photographer Nick Ut and a foreword by Pulitzer Prize winning journalist Peter Arnett Close Up on War includes an author s note endnotes bibliography timeline and index Includes Black and White and Color Photographs Dancing the Deep Hum, One Woman's Ideas about How to Live in a Dancing, Singing Universe Connie Tyler,2009-03 In Dancing the Deep Hum Connie Pwll examines the sometimes delightful and sometimes painful lessons she has learned in her sixty five years of life and humbly presents some ideas about how to live life joyfully Weaving in and out between the personal and the public the individual and the whole the universe the infinite and the here and now she searches for the definition of that unnamable something that hums uses her own experiences and other people s stories found in books film and the media to suggest a set of principles for living that just might bring us personal happiness while moving us toward a solution to the world s ecological and social justice problems Peace Is a Shy Thing Alex Vernon,2025-05-27 The first literary biography of Tim O Brien the preeminent American writer of the war in Vietnam and one of the best writers of his generation drawing on never before seen materials and original interviews Vietnam made me a writer Tim O Brien Featuring over one hundred interviews with family friends peers and others not to mention countless exchanges with Tim O Brien himself Peace is a Shy Thing provides a nearly day by day gripping account of O Brien s thirteen months as an

infantryman in Vietnam and gives equal diligence to reconstructing O'Brien's writing process. This meticulously researched biography explores the life and journey that turned O'Brien into a literary icon and a household name. It includes an unpublished short story about O'Brien from a college girlfriend, documentation of his comical involvement with the Washington Post's coverage of Watergate, and a 1989 attic exchange between American and Vietnamese writers on the eve of the publication of O'Brien's most beloved book, *The Things They Carried*, years before the two countries normalized relations. *Peace is a Shy Thing* is as much a history of the era as it is a story of O'Brien's life from his small town midwestern mid-century childhood to winning the National Book Award and his status as literary elder statesman. A story which Vernon, a combat veteran of the Persian Gulf War and a literary scholar trained by officers and professors of the Vietnam era, is uniquely suited to tell.

After Photography Fred Ritchin, 2009. Ritchin, one of the most influential commentators on photography, offers a fascinating look at the perils and possibilities of photography in a digital age. 50 color illustrations.

Resting Places Scott Wilson, 2016-09-05. In its third edition, this massive reference work lists the final resting places of more than 14,000 people from a wide range of fields including politics, the military, the arts, crime, sports, and popular culture. Many entries are new to this edition. Each listing provides birth and death dates, a brief summary of the subject's claim to fame, and their burial site location or, as much as is known, grave location within a cemetery. In many cases, as well as places of cremation and sites where ashes were scattered. Source information is provided. [News Photographer](#), 2005.

Killing for Show Julian Stallabrass, 2020-10-30. See firsthand how war photography is used to sway public opinion. In the autumn of 2014, the Royal Air Force released a blurry video of a missile blowing up a pickup truck which may have had a weapon attached to its flatbed. This was a lethal form of gesture politics to send a 9 million bomber from Cyprus to Iraq and back, burning 35,000 an hour in fuel to launch a smart missile costing 100,000 to destroy a truck or rather to create a video that shows it being destroyed. Some lives are ended; it is impossible to tell whose so that the government can pretend that it is taking effective action by creating a high budget snuff movie. This is killing for show. Since the Vietnam War, the way we see conflict through film, photographs, and pixels has had a powerful impact on the political fortunes of the campaign and the way that war has been conducted. In this fully illustrated and passionately argued account of war imagery, Julian Stallabrass tells the story of post-war conflict, how it was recorded and remembered through its iconic photography. The relationship between war and photograph is constantly in transition, forming new perspectives, provoking new challenges, what is allowed to be seen. Does an image have the power to change political opinion? How are images used to wage war? Stallabrass shows how photographs have become a vital weapon in the modern war, as propaganda from close quarters fighting to the drone's electronic vision, as well as a witness to the barbarity of events such as the My Lai massacre, the violent suppression of insurgent Fallujah, or the atrocities in Abu Ghraib. Through these accounts, Stallabrass maps a comprehensive theoretical re-evaluation of the relationship between war, politics, and visual culture. *Killing for Show* offers 190 photographs encompassing

photojournalism artists images photographs by soldiers and amateurs and dronesA comprehensive comparison of the role of photography in the Vietnam and Iraq WarsAn explanation of the waning power of iconic images in collective memoryAn analysis of the failure of military PR and the public display of killingA focus on what can and cannot be seen photographed and publishedAn exploration of the power and limits of amateur photographyArguments about how violent images act on democracy This full color book is an essential volume in the history of warfare and photography
