Counseling Children and Adolescents in Schools Sandy Magnuson, Robyn S. Hess, Linda Beeler, 2011-12-08 Counseling Children and Adolescents in Schools is a text and practice and application guide designed to help aspiring school psychologists and counselors gain the necessary theoretical background and skill set to work effectively with youth in schools. The dual focus on school counselors and school psychologists provides students a broader view of the different mental health professionals in the schools with an emphasis on collaboration. This interdisciplinary text can be used across pre-practica, practica, and other school-based field experiences.

Child and Adolescent Psychoanalysis in a Changing World Catalina Bronstein, Sara Flanders, 2023-07-14 This book applies psychoanalytic insight to work with children and adolescents in a changing, often traumatic world. Each chapter considers how psychoanalysis can develop and be developed, assessing how in the modern world psychological disturbance and psychological trauma is manifest in new, unfamiliar ways. From new and different social and technological realities to the internet and new sexual discourse, each chapter explores how the analyst can hold onto fundamental psychoanalytic understandings of mental functioning, address the young patient's or family's need for containment while respecting the importance of drives, the varieties of psychosexuality, and the powerful impact of anxiety on psychological development. In relation to children, these authors disclose the potential destructiveness of impingements from adults on a precious, vulnerable development. This collection is essential reading for all psychoanalysts and psychoanalytic psychotherapists as well as other health and educational professionals working with children and adolescents.

The Routledge International Handbook of Children, Adolescents and Media Dafna Lemish, 2013-07-18 The roles that media play in the lives of children and adolescents, as well as their potential implications for their cognitive, emotional, social, and behavioral development, have attracted growing research attention in a variety of disciplines. The Routledge International Handbook of Children, Adolescents and Media analyses a broad range of complementary areas of study, including children as media consumers, children as active participants in media making, and representations of children in the media.
