century Also included is the most comprehensive bibliography on Walker Evans published to date **Walker Evans** Stephanie Schwartz,2023-10-15 NO POLITICS whatever Walker Evans made this emphatic declaration in 1935 the year he began work for FDR s Resettlement Administration Evans insisted that his photographs of tenant farmers and their homes breadlines and the unemployed should be treated as pure record The American photographer s statements have often been dismissed In Walker Evans No Politics Stephanie Schwartz challenges us to engage with what it might mean in the 1930s and at the height of the Great Depression to refuse to work politically Offering close readings of Evans s numerous commissions including his contribution to Carleton Beals s anti imperialist tract The Crime of Cuba 1933 this book is a major departure from the standard accounts of Evans s work and American documentary Documentary Schwartz reveals is not a means of being present or being political It is a practice of record making designed to distance its maker from the scene of the crime That crime Schwartz argues is not just the Depression it is the processes of Americanization reshaping both photography and politics On Tropical Grounds Francisco-J. Hernandez Adrian,2024-10-11 On Tropical Grounds develops a new approach to the avant garde and Surrealism in Caribbean and Atlantic studies The book examines how islands and their tropical associations figure in the cultural and political imaginaries of the Caribbean and the Atlantic and identifies genealogies of local responses to continental fantasies of exotic insularity Examining written and visual works that reflect on the Hispanic and Francophone Caribbean and the Canary Islands as well as critical debates around discourses of insularity in island and metropolitan spaces this book considers notions of ethnic purity originality imitation appropriation cosmopolitanism and self exoticism to challenge the idea that avant garde practices were pre eminently urban and metropolitan cultural forms The book argues that attention to the relational dimension implicit in exchanges around ideas of anticolonial struggle radical social transformation and anti fascist resistance should inform analyses of cultural production in Caribbean and Atlantic insular spaces On Tropical Grounds develops a persuasive critical model for the investigation of politically and aesthetically situated archipelagic relations that transgresses disciplinary boundaries and reconfigures our conception of the avant garde as a global movement that was overdetermined by racial gender and colonial conflicts This book will be of value to anyone interested in Caribbean and Atlantic studies avant garde and visual culture studies and literary and cultural studies

Aesthetics and the Revolutionary City James Clifford Kent,2018-09-22 Aesthetics and the Revolutionary City engages in alternative ways of reading foreign visual representations of Havana through analysis of advertising images documentary films and photographic texts It explores key narratives relating to the projection of different Havana imaginaries and focuses on a range of themes including pre revolutionary Cuba the dream of revolution and the metaphor of the city frozen in time The book also synthesizes contemporary debates regarding the notion of Havana as a real and imagined city space and

fleshes out its theoretical insights with a series of stand alone important case studies linked to the representation of the Cuban capital in the Western imaginary The interpretations in the book bring into focus a range of critical historical moments in Cuban history including the Cuban Revolution and the Special Period and consider the ways in which they have been projected in advertising documentary film and photography outside the island

Drift Jeff Ferrell, 2018-03-16 This book was written late in the North American night with the rumbling thuds and booming train horns of the nearby rail yard echoing through my windows reminding me of the train hoppers and gutter punks out there rolling through the darkness In Drift Jeff Ferrell shows how dislocation and disorientation can become phenomena in their own right Examining the history of drifting Ferrell situates the contemporary global phenomenon of drift within today's economic social and cultural dynamics He also highlights a distinctly North American form of drift that of the train hopping hobo by tracing the hobo's political history and by sharing his own immersion in the world of contemporary train hoppers Along the way Ferrell sheds light on the ephemeral intensity of drifting communities and explores the contested politics of drift the legal and political strategies designed to control drifters in the interest of economic development the irony by which these strategies spawn further social and spatial exclusion and the ways in which drifters and those who embrace drift create their own slippery strategies of resistance With an eye toward the truth Ferrell keenly argues that the lessons of drift can provide us with new models for knowing and engaging with the world around us

Cutting a Figure Richard J. Powell, 2008 Examining portraits of black people over the past two centuries Cutting a Figure argues that these images should be viewed as a distinct category of portraiture that differs significantly from depictions of people with other racial and ethnic backgrounds The difference Richard Powell contends lies in the social capital that stems directly from the black subject's power to subvert dominant racist representations by evincing such traits as self composure self adornment and self imagining Powell forcefully supports this argument with evidence drawn from a survey of nineteenth century portraits in depth case studies of the postwar fashion model Donyale Luna and the contemporary portraitist Barkley L Hendricks and insightful analyses of images created since the late 1970s Along the way he discusses major artists such as Fr d ric Bazille John Singer Sargent James Van Der Zee and David Hammons alongside such overlooked producers of black visual culture as the Tonka and Nike corporations Combining previously unpublished images with scrupulous archival research Cutting a Figure illuminates the ideological nature of the genre and the centrality of race and cultural identity in understanding modern and contemporary portraiture
