War In European History:

War in European History Michael Howard, 2009 An updated edition of Michael Howard's classic history of war in European history from medieval times to the 21st century showing how the changing face of war has shaped the wider course of the continent's history over the last millennium

War in European History Michael Eliot Howard, 2001 WAR IN EUROPEAN HISTORY Michael Howard, 1979

War in European History, 1494-1660 Jeremy Black, 2006 This volume traces Europe's military revolution beginning with the onset of modern warfare in the 15th century Italian Wars and ending with the restoration of the House of Stuart to the English throne It provides a complete bibliography for this time

Europe Between the Wars Martin Kitchen, 2014-01-14 Martin Kitchen's compelling account of Europe between the wars sets the twenty year crisis within the context of the profound sense of cultural malaise shared by many philosophers and artists the economic crises that plagued a Europe ruined by war and the social upheavals caused by widespread unemployment and grinding poverty amid a noticeable improvement of living standards This thoroughly revised edition with completely new sections on intellectual cultural and social history is richly illustrated with contemporary photographs It is an up to date and lively account of a critical period of European history when the old world collapsed the dictators offered seemingly exciting alternatives and democracies were put to the supreme test Written for undergraduate students studying 20th century European history this new edition of a classic will challenge and provoke a deeper understanding of the interwar years

War in European History National War College, 2015-12-09 The recent dramatic changes in Europe have outstripped our ability to clearly perceive what to expect in the future Experts see the same events and conjure the broadest spectrum of predictions There are those who foresee a potential Soviet backlash to Stalinism and therefore advocate continued containment strategies There are also those who feel today's mood of amiability will last forever and are ready to cash in the defense budget for a peace dividend Both sides can cite historical examples Both sides also use the same threat factors capabilities intentions vulnerabilities But both sides are selective in what history they cite and they differ in how the threat formula should be applied All this makes a big difference in how the past and the present are used to predict the future

European Warfare 1453-1815 Jeremy Black, 1999-05-25 War played a fundamental role in European history during the early modern period This up to date collection covers this crucial period in military history and analyses the nature and impact of warfare on the political and social development of Europe

Europe Between the Wars Martin Kitchen, 1988 It had seemed the war to end wars yet within twenty one years the unthinkable had become the inevitable and Europe was burning again How did it happen In this sober yet compelling account of Europe between the wars Martin Kitchen traces the course of the deepening crisis in Europe by looking first at the peace settlement itself and then at the economic and social problems of the interwar years

Warfare in Europe 1815-1914 Peter Hamish Wilson, 2006 The twenty six essays in this volume examine the changes in nineteenth century European warfare in the period between the end of the Napoleonic Wars

in 1815 and the outbreak of the First World War in 1914 from a variety of innovative and fresh perspectives

War in Europe Jeremy Black, 2016-02-11 War in Europe is an overview of war and military development in Europe since 1450 bringing together the work of a renowned historian of modern European and military history in a single authoritative volume Beginning with the impact of the Reformation and continuing up to the present day Jeremy Black discusses the following key themes long term military developments notably in the way war is waged and battle conducted the relationship between war and transformations in the European international system the linkage between military requirements and state developments the consequences of these requirements and of the experience of war for the nature of society Adopting a clear chronological approach Black weaves a rich and detailed narrative of the development of war in relation to transformations in the European international system demonstrating the links between its causes and consequences in the military political and social spheres Assimilating decades of important research as well as bringing new perspectives to the topic War in Europe is a key text for students taking courses in European history international relations and war studies

War, Peace and World Orders in European History Anja V. Hartmann, Beatrice Heuser, 2002-11 This book explores a new way for students of International Relations to look at war peace and world orders throughout European history The contributors argue that the predominant realist paradigm that focuses on states and their self interest is not applicable to the largest period of European history because states either did not exist or were only in the making Instead they argue we have to look through the eyes of historical entities to see how they understood the world in which they lived The authors use a wide range of case studies focusing on subjects as diverse as the ancient Greek concept of honour and persecution under Communist regimes during the Cold War to explore the ways in which people in different societies at different times perceived and felt about war and peace in the world around them

War, Peace, and World Orders in European History Beatrice Heuser, 2001 This book explores a new way for students of International Relations to look at war peace and world orders throughout European history The contributors argue that the predominant realist paradigm that focuses on states and their self interest is not applicable to the largest period of European history because states either did not exist or were only in the making Instead they argue we have to look through the eyes of historical entities to see how they understood the world in which they lived The authors use a wide range of case studies focusing on subjects as diverse as the ancient Greek concept of honour and persecution under Communist regimes during the Cold War to explore the ways in which people in different societies at different times perceived and felt about war and peace in the world around them

Warfare in Europe 1650-1792 Jeremy Black, 2005 Scholars have tended to underrate the importance of war in the period 1650 1792 as there is a feeling that periods before and after were more consequential for military development This collection of essays sets out to address this problem probing the nature of warfare throughout Europe from the middle of the seventeenth century to the end of the eighteenth century

Politics and War David E. Kaiser, 1990 David Kaiser looks at four hundred years of modern European history to find the

political causes of war In four distinct periods he shows how war became a natural function of politics **West Germany, Cold War Europe and the Algerian War** Mathilde Von Bulow, 2016-08-22 Examining the clandestine and subversive activities of Algerian nationalists in West Germany and Europe Mathilde Von Bulow sheds new light on the extent to which FLN activities and French counter measures impacted the conflict in Algeria and the politics of the global Cold War

Syllabus of a Course of Lectures on Modern European History Charles Austin Beard, 1906 *Peace, War, and the European Powers, 1814-1914* Christopher John Bartlett, 1996 The causes of war have tended to attract more attention than the causes of peace yet the two are intimately related Indeed there was much talk of war during the unprecedentedly long periods of peace between the European great powers in the years 1815 1854 and again in 1871 1914 the Near Eastern crises of 1878 and 1887 8 being only two of the more notable examples In the case of the latter there occurred a spell of fatalistic and belligerent talk in both Berlin and Vienna which in many ways anticipated that which gripped those capitals by 1914 This valuable book will be welcomed by anyone wishing to understand the nature of European state relations in the nineteenth century Professor Bartlett examines why major wars did happen and did not happen with particular attention being paid to the events of 1914 *European Warfare 1453-1815* Jeremy Black, 1999-05-26 War played a fundamental role in European history during the early modern period This up to date collection covers this crucial period in military history and analyses the nature and impact of warfare on the political and social development of Europe *The Thirty Years' War* Kelly Mass, The Thirty Years War a protracted and catastrophic conflict raged from 1618 to 1648 primarily within the borders of the Holy Roman Empire Often regarded as one of the most devastating wars in European history it is estimated that between 4 5 to 8 million people perished as a result of the conflict with some regions of Germany experiencing population losses exceeding 50% This war though often thought of in isolation was deeply interconnected with several other significant European conflicts including the Eighty Years War the War of the Mantuan Succession the Franco Spanish War and the Portuguese Restoration War For much of the history of the conflict historians regarded the Thirty Years War as a continuation of the religious struggles that had begun during the Reformation and were seemingly concluded with the Peace of Augsburg in 1555 The Peace of Augsburg had divided the Holy Roman Empire into Catholic and Lutheran states but the rapid spread of Protestantism particularly beyond these established boundaries steadily eroded Imperial authority in the years that followed While religion undeniably played a role in sparking the conflict scholars generally agree that the broader struggle for European supremacy between the Habsburgs of Austria and Spain and the House of Bourbon in France fueled the war s escalation and far reaching impact Religious Warfare in Europe 1400-1536 Norman Housley, 2002-08-08 Religious warfare has been a recurrent feature of European history In this study Norman Housley describes and analyses the principal expressions of holy war in the period from the Hussite wars to the first generation of the Reformation
