## **Watchdogs And Gadflies Activism From Marginal To Mainstream:**

Watchdogs and Gadflies Tim Falconer, 2001 Canadians have a long and storied history of activism This book examines the current generation of activists and charts some of their successes Through interviews with both veterans and relative newcomers the author explores the grassroots community and individual agendas motivating people to work for what they see as the greater good What he finds is that far from the left wing nuts label critics would pin on them activists come in all shapes sizes and political stripes from lawyers like Craig Jones who first came to prominence during the APEC demonstrations to scions of respected families like Duff Conacher and privileged housewives such as Priscilla De Villiers who pushed for gun registration after her daughter was shot All have one thing in common the desire for change and a concern for what they see as injustice in the world The broader picture is looked at in chapters about globalization methods of communication and publicity grabbing and the demonization of activists

**Social Policy and Practice in Canada** Alvin Finkel, 2012-05-09 Social Policy and Practice in Canada A History traces the history of social policy in Canada from the period of First Nations control to the present day exploring the various ways in which residents of the area known today as Canada have organized themselves to deal with or to ignore the needs of the ill the poor the elderly and the young This book is the first synthesis on social policy in Canada to provide a critical perspective on the evolution of social policy in the country While earlier work has treated each new social program as a major advance and reacted with shock to neoliberalism s attack on social programs Alvin Finkel demonstrates that right wing and left wing forces have always battled to shape social policy in Canada He argues that the notion of a welfare state consensus in the period after 1945 is misleading and that the social programs developed before the neoliberal counteroffensive were far less radical than they are sometimes depicted Social Policy and Practice in Canada A History begins by exploring the non state mechanisms employed by First Nations to insure the well being of their members It then deals with the role of the Church in New France and of voluntary organizations in British North America in helping the unfortunate After examining why voluntary organizations gradually gave way to state controlled programs the book assesses the evolution of social policy in Canada in a variety of areas including health care treatment of the elderly child care housing and poverty

**Disability, Mothers, and Organization** Melanie Panitch, 2012-08-06 This book examines how and why mothers with disabled children became activists Leading campaigns to close institutions and secure human rights these women learned to mother as activists struggling in their homes and communities against the debilitating and demoralizing effects of exclusion Activist mothers recognized the importance of becoming advocates for change beyond their own families and contributed to building an organization to place their issues on a more public scale In highlighting this under examined movement this book contributes to the scholarship on Disability Studies Women s Students Sociology and Social Movement Studies

**The State of the System** Paul W. Bennett, 2020-09-23 Over the

last fifty years Canada's public schools have been absorbed into a modern education system that functions much like Max Weber's infamous iron cage. Crying out for democratic school level reform, the system is now a centralized bureaucratic fortress that every year becomes softer on standards for students less accessible to parents further out of touch with communities and surprisingly unresponsive to classroom teachers. Exploring the nature of the Canadian education order in all its dimensions, *The State of the System* explains how public schools came to be so bureaucratic, confronts the critical issues facing kindergarten to grade 12 public schools in all ten provinces, and addresses the need for systemic reform. Going beyond a diagnosis of the stresses, strains, and ills present in the system, Paul Bennett proposes a bold plan to re-engineer schools on a more human scale as the first step in truly reforming public education. In place of school consolidation and managerialism, one size fits all uniformity, limited school choice, and the success for all curriculum, Bennett advocates for a new set of priorities: decentralize school governance, deprogram education ministries and school districts, listen to parents and teachers, and revitalize local education democracy. Tackling the thorny issues besetting contemporary school systems in Canada, *The State of the System* issues a clarion call for more responsive, engaged, and accountable public schools.

**Religion and Representation** Ingrid Mattson, Paul Nesbitt-Larking, Nawaz Tahir, 2015-02-05 Religion and Representation: Islam and Democracy brings together a series of reflections, studies, and observations that examine the complex relationship between political representation and Islam. Through the perspectives of theology, history, sociology, philosophy, and political science, contributions to this volume explore the connections between religious beliefs, religiosity, political ideals, and political behaviour. Grounded in the experience of both Muslim majority and Muslim minority states, the chapters represent a broad cross-section of approaches that emerge from a process of exchange and dialogue which began with a three-day conference in London, Canada, in March 2012. Beyond demonstrating how Islam and democracy are compatible, the authors in this volume employ theological reasoning, theoretical insight, logical argumentation, and empirical data to explore in detail the points of connection. Contributions encompass a broad spectrum of interpretations of Islam, as well as consideration of critical and compelling issues and controversies across a range of contemporary settings.

**Windfall** Tim Falconer, 2025-02-18 The fascinating, scandalous, and true story of Viola MacMillan and the Windfall mining scandal. Viola MacMillan had it all: success, money, and respect. Influence even. But in 1964, after three decades in the mining industry, one of the most fascinating women in Canadian business history was the central character in one of the country's most famous stock scandals. MacMillan, who started out as a prospector in the 30s, had developed lucrative mines and put together big deals. But she still wanted a major discovery. Early in July 1964, shares in Windfall Oil and Mines, a company she and her husband controlled, traded for around 56 cents. Then one day the stock took off. In the absence of any information from the company about what it had found near Timmins, rumors and greed pushed the share price to a high of 570. MacMillan stayed quiet. Finally, after three weeks, Windfall admitted it had nothing. So many small investors lost money when the stock crashed that the Ontario

government appointed a royal commission to examine what had happened which led to changes at the Ontario Securities Commission and the Toronto Stock Exchange Although MacMillan spent a few weeks in prison she later received a pardon and the Order of Canada      Not for Sale Gordon Laxer, Dennis Soron, 2006-01-01 A thorough and challenging book Maude Barlow National Chairperson Council of Canadians      *Communication Activism* Lawrence R. Frey, Kevin M. Carragee, 2007 These two texts showcase how scholars have engaged in communication activism to assist individuals groups organizations and communities to secure social reform Volume 2 focuses on research studies that show how media can be managed to promote social change and how performance can serve as an important form of communication activism Together these two volumes demonstrate the significant effects that communication scholars working from many different theoretical and methodological traditions can have on promoting social change especially for those who are most marginalized when they engage in communication activism      **Journal of English Studies and Comparative Literature** ,2005      Rethinking Media Education Anita Nowak, Sue Abel, Karen Ross, 2007 This collection discusses and analyzes the efficacy of media education around the world paying particular attention to whether and how it improves the critical thinking skills of students Many books describe the importance of media education but few evaluate its effectiveness Implicit is a belief that without a thorough understanding of the extent to which media education achieves its aims or fails to do so its potential cannot be fulfilled      *That Good Night* Tim Falconer, 2009 That Good Night is for every Canadian worried about dying some day or who loves someone who s getting close Medical advances mean our demise will likely be a negotiated event not simply nature taking its course We may seek guidance from the professional ethicists now on staff at major hospitals but even they have no obvious answers for the toughest question we ll ever face how and when do you want to die Tim Falconer once again transforms a complicated subject into a thoughtful readable and engaging book one that shows us what ethicists do while tackling the difficult dilemmas that precede the modern death By sharing the compelling stories of those who ve made hard choices by considering living wills and by exploring the merits of assisted suicide and euthanasia That Good Night untangles a topic that touches us all      *Quill & Quire* ,2001      **Canadian Books in Print** ,2003      *Canadian Books in Print.
