Wax Tablets Mind Cognitive Classical:

Wax Tablets of the Mind Jocelyn Penny Small, 2003-09-02 In this volume the author argues that literacy is a complex combination of various skills not just the ability to read and write the technology of writing the encoding and decoding of text symbols the interpretation of meaning the retrieval and display systems which organize how meaning is stored and memory The book explores the relationship between literacy orality and memory in classical antiquity not only from the point of view of antiquity but also from that of modern cognitive psychology It examines the contemporary as well as the ancient debate about how the writing tools we possess interact and affect the product why they should do so and how the tasks required of memory change and develop with literacy's increasing output and evoking technologies *The Gospels According to*

Michael Goulder Chris A. Rollston, 2002-09-01 A variety of noted scholars respond to Michael Goulder's reading of the Gospel as Midrash on the liturgies of the Jewish festivals and calendar **A History of Trust in Ancient Greece** Steven

Johnstone, 2024-05-31 An enormous amount of literature exists on Greek law economics and political philosophy Yet no one has written a history of trust one of the most fundamental aspects of social and economic interaction in the ancient world In this fresh look at antiquity Steven Johnstone explores the way democracy and markets flourished in ancient Greece not so much through personal relationships as through trust in abstract systems including money standardized measurement rhetoric and haggling Focusing on markets and democratic politics Johnstone draws on speeches given in Athenian courts histories of Athenian democracy comic writings and laws inscribed on stone to examine how these systems worked He analyzes their potentials and limitations and how the Greeks understood and critiqued them In providing the first comprehensive account of these pervasive and crucial systems *A History of Trust in Ancient Greece* links Greek political economic social and intellectual history in new ways and challenges contemporary analyses of trust and civil society

Classical Views, 2000 *Lists and Catalogues in Ancient Literature and Beyond* Rebecca Laemmle, Cédric Scheidegger Laemmle, Katharina Wesselmann, 2021-02-22 Lists and catalogues have been en vogue in philosophy cultural media and literary studies for more than a decade These explorations of enumerative modes however have not yet had the impact on classical scholarship that they deserve While they routinely take a limited set of ancient models as their starting point there is no comparably comprehensive study that focuses on antiquity conversely studies on lists and catalogues in Classics remain largely limited to individual texts and with some notable exceptions offer little in terms of explicit theorising The present volume is an attempt to close this gap and foster the dialogue between the recent theoretical re appraisal of enumerative modes and scholarship on ancient cultures The 16 contributions to the volume juxtapose literary forms of enumeration with an abundance of ancient non sub or para literary practices of listing and cataloguing In their different approaches to this vast and heterogeneous corpus they offer a sense of the hermeneutic epistemic and methodological challenges with which the study of enumeration is faced and elucidate how pragmatics materiality performativity and aesthetics are mediated in lists

and catalogues Figures in the Shadows Bart Huelsenbeck, 2018-06-11 The collection of the elder Seneca assembles quotations from scores of declaimers over a period spanning sixty years from the Augustan Age through the early decades of the empire A view is offered onto a literary scene for this critical period of Roman letters that is numerous highly interactive and less dominated by just a few canonical authors Despite this potential modern readings have often lumped declaimers together en masse and organizational principles basic to Seneca's collection remain overlooked This volume attempts to hear the individual speech of declaimers by focusing on two speakers Arellius Fuscus rhetor to Ovid and Papirius Fabianus teacher of the younger Seneca A key organizing principle informing both the collection and the practice of declamation was the shared locus a short passage defined by verbal and argumentative ingredients that gained currency among declaimers Study of the operation of the shared locus carries several advantages 1 we appreciate distinctions between declaimers 2 we recognize shared passages as a medium of communication and 3 the shared locus emerges as a community resource explaining deep seated connections between declamation and literary works **Beloved**

David—Advisor, Man of Understanding, and Writer Naftali S. Cohn, Katrin Kogman-Appel, 2024-06-07 This volume brings together the latest scholarship on Jewish literary products and the ways in which they can be interpreted from three different perspectives In part 1 contributors consider texts as literature as cultural products and as historical documents to demonstrate the many ways that early Jewish rabbinic and modern secular Jewish literary works make meaning and can be read meaningfully Part 2 focuses on exegesis of specific biblical and rabbinic texts as well as medieval Jewish poetry Part 3 examines medieval and early modern Jewish books as material objects and explores the history functions and reception of these material objects Contributors include Javier del Barco Elisheva Carlebach Ezra Chwat Evelyn M Cohen Naftali S Cohn William Cutter Yaacob Dweck Talya Fishman Steven D Fraade Dalia Ruth Halperin Martha Himmelfarb Marc Hirshman Tamar Kadari Israel Knohl Susanne Klingenstein Katrin Kogman Appel Jon D Levenson Paul Mandel Annett Martini Jordan S Penkower Annette Yoshiko Reed Jeffrey L Rubenstein Shalom Sabar Raymond P Scheindlin Seth Schwartz Sarit Shalev Eyni Moshe Simon Shoshan Peter Stallybrass Josef Stern Barry Scott Wimpfheimer Elliot R Wolfson Azzan Yadin Israel and Joseph Yahalom

Mnemotechnics and Virgil Elizabeth-Anne Scarth, 2008 Cicero Quintilian and the anonymous author of the ad Herennium each describe the art and practice of using an artificial memory system to help aid remembrance Each of the authors respective treatises offers an exploration of how both loci places and imagines images were used to facilitate remembrance of both res things and verba words The methods delineated by each author provide valuable insight into the visual process used by educated Romans to retrieve and recall information stored in their memories By understanding how remembering and recollection were inherently important to the Romans the modern reader can apprehend how Virgil as a member of the Roman elite either consciously or subconsciously would portray his characters as being familiar not only with the system of artificial memory but also with the Roman process of using different spaces and places to stimulate

remembrance This book looks at the rhetoricians discussions of the art of memory and posits that Virgil uses the artificial memory system features of sequential order discriminability and distinctiveness when describes the way his characters look at various images in the Aeneid **The Journal of Hellenic Studies** ,2001 Vols 1 8 1880 87 plates published separately and numbered I LXXXIII **Helios** ,1995 *First Rites* Allen Joseph Romano,2004 **Neotestamentica** ,2005 Vols for

,2012 **The British National Bibliography** Arthur James Wells,1998 Thomas Aquinas as Reader of the Psalms Thomas Ryan,2000 Often overlooked but rich in inspiration Aquinas Commentary on the Psalms is part of his lectures on the Bible delivered to students Composed near the end of his life this work reflects his mature thought on such central issues as Christ prayer preaching grace and good works In his study of this important text Thomas Ryan shows how the Postilla super Psalmos offers new insight into Aquinas spirituality Combining literary thematic and comparative questions Ryan reveals how this work differs from those more familiar to modern students of Aquinas and he articulates its significance for the study of spirituality Aquinas believed the Psalms to be a book that contained all of theology revealing so much about Christ that it resembles New Testament gospels more than Old Testament prophetic books Ryan identifies patterns in Aquinas confirmatory use of scripture and his use of christological quotations He shows how Super Psalmos reflects the evocative way in which Aquinas draws out meaning for his students lives and pastoral practices and reveals how as a teacher and theologian Aquinas was intent on moving his students often through dramatic language both to imitation of Christ and to action inspired by prayer The first treatment of Super Psalmos in English Ryan s work recovers Aquinas as an accomplished biblical and pastoral theologian and not simply a dispassionate expositor of theology reestablishing him as an important resource for spirituality It offers a better understanding of Aquinas life and work as it suggests new potential for assessing other Thomistic writings and also invites us to reconsider the deeper meaning of the Psalms **The Web of Images** Lina

Bolzoni,2004 Through her investigation of the mnemonic role of images in vernacular preaching and in mystical texts Lina Bolzoni moves beyond the traditional art historical approach to late Mediaeval and Renaissance art which tends to concentrate on style and iconography offers new ways of reconstructing their meaning By bringing her knowledge of rhetoric and the art of memory to bear on the visual arts she opens up new perspectives for the study of religious art and literature of

the Renaissance and shows how these images actually functioned within the everyday context of the liturgy and of the life of the common people
