Puca,2024-04-02 Shamanism is thriving as an exotic import and a hidden native tradition in Italy today This ethnographical work uncovers two faces of Italian shamanism The first is trans cultural shamans who creatively adapt rituals and beliefs from indigenous cultures worldwide Second extensive fieldwork shows how regional folk magic practices of segnatori and segnatrici constitute a little known but enduring form of native Italian shamanism By documenting these parallel worlds contemporary magic workers appear to be the heirs of ancient local healing traditions Offering rare insights into vernacular religion this book vividly portrays shamans past and present on the Italian peninsula The Books of "Is" Dr. R.

Lowery-Hawk D.D. D.R.S. PhD.,2012-08-29 The first Books of IS is full of contemplative designs and graphics along with rhythmic writings All are created to move gently your senses and your brain to stirring you awake and into thinking sensing and observing the life within you and around you The writings and graphics are meant to be contemplated upon and carried into your daily life so to awaken you to the truth of you and the universe of life here now and beyond here and the now I have also included pages at the end of each chapter for the reader's own inspired writings brought on by the repeated readings and contemplations of the writings and graphics in this book so to assist in the activation of your creative and intellectual mind right and left brain functions The Books of IS came about after my being mysteriously intuitively guided for over twenty eight years to write down messages of a higher conscious level on truths of life myself and all life in general The writings in BOOK ONE The Dance of Becoming are compiled writings from a higher presence of love that I was receiving during a strong inner sensing to write down what was calling to me This first began occurring during my pre teens then again as an adult during times of great sorrow or loneliness As an adult and after writing for almost a year the writings began taking on a deeper nature They began to change into messages and memories of truth guidance and gentle love coming forth giving me more of the peace and joy they had been creating within me The desire to write more called often and strongly yet pleasantly to me and the experience of it all was ecstasy I began to realize that I must have been touching down into deeper parts of myself and then rising up to the higher parts of me my Higher Soul I was then feeling such peace joy and knowing that I no longer felt sadness nor loneliness Instead I felt the great desire and joy to experience and to know more It felt as if at these times I was my TRUE SELF I felt complete and all knowing I felt like I was with the Holy of Holies and the Angels Then in the year 1984 I was telepathically told by these Sacred Messengers of a higher power Creator to put all these writings into books and when the time came publish them to aid all mankind all existence From these writings I receive messages and teachings that went beyond mundane and into the higher planes of existence connecting me with the Creator of all principles of all life There I connected with Holy Messengers of various kinds I had asked for validation on all this and soon found

myself miraculously being lead to the meeting of those who were Guardians of these ancient long protected Sacred Truths along with findings in old books and other similar occurrences and people These valuations ranged from old mystery schools of various kinds to ancient indigenous beliefs on creation and a higher powerful being to more modern religions and scientific findings I also was lead in syn with others who too were receiving similar writings with same truths some written a bit differently In 1884 I was given the spiritual telepathic message that in the future I would be compiling these and other writings into books to be published for the world This was so that many people could be reached more quickly for the quickening had begun They told me that the writings in this book and in others were seed truths selectively and rhythmically placed camouflaged seeming at first to those not ready as stories of mere fantasy so called make believe and sci fi I was told the writings are done this way so to gently but powerfully unlock the encoded truths within those who hear or read them and view the graphics These writings therefore are like camouflaged words codes hidden to many but obvious to those who were ready remembering awakening therefore protected from those who would abuse them and interpret them with mis

Heart of Listening Hugh Milne, 1998 This deluxe hardcover edition contains both Volume I and II of *The Heart of Listening*. Milne, a third generation Scottish osteopath, begins by explaining the visionary approach to healing and how it may be applied to the realm of craniosacral work. He explains the importance of meditation, centering, and the cultivation of heartfulness in the development of compassionate practice. Milne introduces the reader to the story of visionary work, its genesis, evolution, philosophy, and practice, and explains how a grounding in meditation, sensitive touch, and intuitive perception can lead to a remarkable unfoldment in skill development. In the second volume, Milne details the anatomy, physiology, energetics, and techniques that are the essential core of visionary craniosacral work. His particular genius lies in his ability to weave a delicate tapestry of narrative poetry and scientific fact into a fascinating and insightful exposition of the visionary healing arts.
