Malecki,Bruno Moriset,2007-12-07

This book provides an up to date account of the technologies organizations and dynamics which constitute the digital economy and assesses the impacts they have on regions and communities **The Digital City** M. Laguerre,2005-08-02 Evolving out of a research project on information technology and society the book explores the digitization of the American city Laguerre examines the impact of changes to various sectors of society brought about by the advent of information technology and the Internet upon daily life in the contemporary American metropolis The book focuses on actual information technology practices in the Silicon Valley San Francisco metropolitan area explaining how those practices are remoulding social relations global interaction and the workplace environment The Regulation of Cyberspace Andrew

Murray,2007-03-12 Examining the development and design of regulatory structures in the online environment The Regulation of Cyberspace considers current practices and suggests a regulatory model that acknowledges its complexity and how it can be used by regulators to provide a more comprehensive regulatory structure for cyberspace Drawing on the work of cyber regulatory theorists such as Yochai Benkler Andrew Shapiro and Lawrence Lessig Murray explores and analyzes how all forms of control including design and market controls as well as traditional command and control regulation are applied within the complex and flexible environment of cyberspace It includes chapters on the role of the cyberlawyer environmental design and control online communities cyber laws and cyber law making This book is an essential read for anyone interested in law and information technology **Nachhaltige Lösungen für die Informationsgesellschaft**

Manfred Schrenk,2006 *Proceedings of the Fifth Annual International Conference on Business and Public Administration (AICoBPA 2022)* Andy Fefta Wijaya,Fadillah Amin,Mohammad Iqbal,2023-07-31 This is an open access book This year of 2022 in a concordance with the 62th Anniversary of Faculty of Administrative Science Universitas Brawijaya Indonesia we proudly present the 5th Annual International Conference on Business and Public Administration AICoBPA 2022 AICoBPA 2022 invites scientists and professionals from various fields related to Business and Public Administration around the world

Splintering Urbanism Steve Graham,Simon Marvin,2002-09-11 Splintering Urbanism makes an international and interdisciplinary analysis of the complex interactions between infrastructure networks and urban spaces It delivers a new and powerful way of understanding contemporary urban change bringing together discussions about globalization and the city technology and society urban space and urban networks infrastructure and the built environment developed developing and post communist worlds With a range of case studies illustrations and boxed examples from New York to Jakarta Johannesburg to Manila and Sao Paolo to Melbourne Splintering Urbanism demonstrates the latest social urban and

technological theories which give us an understanding of our contemporary metropolis **Inside the Communication Revolution** Robin Mansell, 2002 What does it mean to live and work inside the information and communication technology revolution The nature and significance of newly emerging patterns of social and technical interaction as digital technologies become more pervasive in the knowledge economy are the focus of this book The places and spaces where digital technologies are in use are examined to show why such use may or may not be associated with improvements in society Studies of on and off line interactions between individuals and of collective attempts to govern and manage the new technologies show that the communication revolution is essentially about people social organization adaptation and control not just technologies This book contains original empirical studies conducted within a programme of research in the Information Networks and Knowledge INK research centre at SPRU University of Sussex The authors draw upon cognitive economic management political and sociological theories to provide insights into the acceptance of and resistance to interactions made possible by the Internet information and communication systems in the newspaper insurance and banking industries electronic commerce services and other applications such as geographic information systems The Handbook of Service Industries J. R. Bryson, P. W. Daniels, 2007-01-01 It contains an impressive array of important and useful material that should be familiar to anyone interested in economic growth and change the potential value to be gained from these collected works is great James E Pratt Growth and Change Service activities are now acknowledged as key players in economic development societal change and public policy worldwide This exciting Handbook not only contributes to ongoing conceptual debates about the nature of service led economies and societies it also pushes back the frontiers of current critical thinking about the role of service activities in urban and regional development and the important research agendas that remain to be addressed Drawing on both theory and case studies the contributors are international experts who have written original and stimulating chapters from a number of different disciplinary perspectives Each chapter seeks to raise awareness of and to provoke debates about the opportunities and challenges presented by the shift to service employment Providing a truly interdisciplinary analysis The Handbook of Service Industries will be invaluable to scholars specializing in services research as well as students and researchers in the areas of economics geography business and management sociology public policy and planning The policy making community will also find the Handbook a relevant and useful resource **The Five Literacies of Global Leadership** Richard David Hames, 2015-06-10 New research has exposed our leadership paradigm as an outdated mess of flawed models and practices By working with great leaders and observing their common attitudes and behaviours Richard Hames has cracked a universal code based on intelligence appreciation and collaboration This code unlocks Five Literacies of Global Leadership These behaviours are the trade secrets of the artists and alchemists among us Often instinctively these leaders charge others with energy search for new perspectives and embrace diversity And they are driven by dialogue This book reveals approaches and attitudes that they all share and that can make anyone an exceptional

leader
