It's Not You, It's What Happened to You Courtois Christine A., 2014-10-12 With It s Not You It s What Happened to You Complex Trauma and Treatment Dr Christine Courtois has simplified her extensive and until now quite scholarly work geared toward understanding and developing the concept of complex trauma and the assessment and treatment thereof A universally acknowledged leader in this emerging psychotherapeutic field Dr Courtois provides here an abbreviated and easy to read explanation of what complex trauma is how it develops the ways in which it manifests and how it can effectively be dealt with The book opens with an explanation of trauma in general providing historical perspective examining the various types of traumatic experience and looking in depth at the chronic repetitive and layered forms of trauma that often build upon and reinforce one another to create complex trauma Next Dr Courtois discusses trauma driven emotional turmoil and trauma s effects on memory self image relationships and even physical wellbeing She then provides readers with a basic understanding of the ways in which complex trauma is diagnosed and assessed with an explanation of all common trauma related diagnoses including stress disorders such as PTSD dissociative reactions and disorders and frequently co occurring issues addictions self injury sleep disorders etc In the book s final section Dr Courtois presents rudimentary information about the ways in which complex trauma and related issues can effectively be treated including

brief explanations of all psychotherapeutic methods that might be used. Importantly she discusses in detail the sequenced three stage treatment model she has developed for work with addicted survivors of complex trauma recognizing that complex trauma and addictions are often interrelated in powerful ways and unless both issues are addressed simultaneously the client may not heal from either. Though It's Not You It's What Happened to You is written for people new to the concept of complex trauma and how it may be affecting them or a loved one, clinicians will also find the work useful, relying on it as a way to bolster their own knowledge and perhaps more importantly as a tool for informing their traumatized clients about the degree and nature of the psychotherapeutic work to come.

Out of The Ashes Nancy E Strout, 2021-01-30 Dr Christine Courtois is the co author of the book *Treating Complex Trauma A Sequenced Relationship Based Approach* and has written the following endorsement: "This book *Out of the Ashes* is aptly titled. It is a book that documents the deep anguish and pain of incest and other childhood abuse followed by perseverance, courage and determination to overcome and to heal. It is also a story of a treatment gone wrong, documenting how a misunderstanding of the symptoms of PTSD on the part of a medical health provider led to misdiagnosis and years of overmedication and physical and psychological suffering for the author and her family. This is a story that unfortunately is all too common for women survivors and this first person account documents its terrible consequences. Nancy Strout writes about how she persevered in detoxing from her medications and using other methods to manage her symptoms and return to health. Brava."

American Journal of Psychotherapy, 1947 **Treating Adult Survivors of Childhood Emotional Abuse and Neglect** Elizabeth K. Hopper, Frances K. Grossman, Joseph Spinazzola, Marla Zucker, 2021-08-09 Component based psychotherapy for childhood abuse is not a sequenced model but it deliberately attends to the following four components: 1 relational focused on client and therapist attachment styles and relational patterns with the intent of building a secure attachment as the context of the remaining work; 2 self regulation not only of emotions but of cognitions and behavior; 3 dissociative parts of self and their identification and elicitation; and 4 narrative construction of a coherent self. CPB does so in a way that is client centered, flexible and fluid yet it is also systematic and has a structure. Each chapter offers observations of false starts, missed opportunities, pivotal interactions and alternate approaches in response to particular exchanges between therapist and client and highlights and builds upon interactions and interpretations perceived to bear promise.

Treating Complex Traumatic Stress Disorders (Adults) Christine A. Courtois, Julian D. Ford, 2009-02-05 Combining scientific and clinical perspectives this volume brings together leading authorities on complex traumatic stress and its treatment in adults. Contributors review the research that supports the conceptualization of complex traumatic stress as distinct from PTSD. They explore the pathways by which chronic trauma can affect psychological development, attachment security and adult relationships. Chapters describe evidence based assessment tools and an array of treatment models for individuals, couples, families and groups.
