Trenches Strategies Nations Trial Lawyers:

Lawyers on Trial Christopher Whelan, 2024-11-14 Whelan has written a book that anyone interested in the law should queue to buy. The Times of the 1st edition. A classic work. Michael Beloff KC Former President Trinity College Oxford. Treasurer Gray's Inn. Lawyers are universally unpopular but is that justified? Aren't lawyers necessary for justice? This book uses real world examples, case studies and commentary from practitioners to answer this question and to reveal the many and varied strategies American and English lawyers use to protect clients. It shows how lawyers tackle their conflicting duties and highlights the choices lawyers everywhere routinely make through their power of decision. What emerges are new ways of understanding the critical role lawyers play in society and their professional responsibilities. This new edition considers the litigation surrounding Donald Trump and the role played by his lawyers. It includes a new chapter on SLAPPs and the way the law is used to advance clients' interests. This book presents a unique and fascinating account of what happens when lawyers' duties to clients conflict with their duties to the legal system and looks in detail at the ethical codes and laws that regulate their conduct.

The Bodyguards of Lies Christopher Whelan, 2022-10-20 This book uses real world examples, case studies and commentary from practitioners to reveal the many and varied strategies American and English lawyers use to protect truth. It shows how they tackle their conflicting duties and highlights the tragic choices lawyers everywhere routinely make through their power of decision. What emerges are new ways of understanding the critical role lawyers play in society and their professional responsibilities. Truth is so precious it should always be protected by a bodyguard of lies. Churchill said this about wartime deception plans but lawyers' clients may think their truth, especially an inconvenient truth, is so precious it too should be protected. Lawyers are bodyguards of lies when they use so-called tricks of the trade not only to keep clients' secrets but to construct a reality that is far from real. But should they? Lawyers have a divided loyalty. The book presents a unique and fascinating account of what happens when lawyers' duties to clients conflict with their duties to the legal system and looks in detail at the ethical codes and laws that regulate their conduct.

From the Trenches John S. Worden, American Bar Association, 2015-12-07 Bringing together legal strategy, psychology and persuasion theory, this book offers a fresh approach to trial preparation, one that focuses on how jurors learn, think and deliberate.

The Culture of Conservative Christian Litigation Hans J. Hacker, 2005-05-05 Over the past decade, conservative Christian public law firms have been some of the most active and aggressive litigators in the nation. Their efforts have impacted important policy areas including religion in the Public Square, school prayer, gay rights, family values and abortion policy. But the Fundamentalist Christian Evangelical social movement is not monolithic. In this probing and judicious work, Hacker explores and clarifies the influence of ideology on the goals and behavior of three leading conservative Christian law firms and how they differ in agendas and approach. He provides rich interview narratives that shed light on interest group behavior and how it is influenced by internal group characteristics.
