the 1979 and later T140E models Unfortunately Triumph was already experiencing financial troubles and it is obvious that they were doing everything they could to cut costs Consequently the print quality of these later Triumph factory manuals was somewhat compromised by the re use of images and text from earlier manuals This re use is apparent in this manual as the quality of the images and the density of the text varies within the page and or from one page to another While we have done our best to normalize the print density there will still be variations that were just too difficult to correct Unfortunately owners of the 1973 to 1978 models are subjected to considerable confusion surrounding the appropriate selection of the multitude of originals and reprints of the various manuals that have recently flooded the marketplace We encourage you to exercise caution when purchasing a manual for your motorcycle or automobile as many of the reprints found on internet websites are from bedroom sellers at enticingly low prices by individuals that really have no idea what they are selling Many are nothing more than poor quality comb bound photocopies that are scanned and printed complete with greasy pages and thumbprints and as such are deceptively described as pre owned used or even refurbished In addition they are often advertised for the incorrect series and or model years Owners of the later 1979 to 1983 750cc machines are directed to workshop manual ISBN 9781588502902 which will also be of use to owners of the 1985 1988 T140 Devon Bonneville
