Unbored The Essential Field Guide To Serious Fun:

Unbored Joshua Glenn,Elizabeth Foy Larsen,2013-07-18 Unbored is the book every modern child needs Brilliantly walking the line between cool and constructive it s crammed with activities that are not only fun and doable but that also get kids standing on their own two feet If you re a kid you can Build a tipi or an igloo Learn to knit Take stuff apart and fix it Find out how to be constructively critical Film a stop action movie or edit your own music Do parkour like James Bond Make a little house for a mouse from lollipop sticks Be independent Catch a bus solo or cook yourself lunch Make a fake exhaust for your bike so it sounds like you re revving up a motorcycle Design a board game Go camping or glamping Plan a road trip Get proactive and support the causes you care about Develop your taste and decorate your own room Make a rocket from a coke bottle Play farting games There are gross facts and fascinating stories reports on what stuff is like home schooling working in an office Q As with inspiring grown ups extracts from classic novels lists of useful resources and best ever lists like the top clean rap songs stop motion movies or books about rebellion Just as kids begin to disappear into their screens here is a book that encourages them to use those tech skills to be creative try new things and change the world And it gets parents to join in Unbored is fully illustrated easy to use and appealing to young and old girl and boy Parents will be comforted by its anti perfectionist spirit and humour Kids will just think it s brilliant

Unbored Joshua Glenn,Elizabeth Foy Larsen,2016-08-04 Since it s publication in 2012 Unbored The Essential Field Guide to Serious Funhas been a favorite of parents and kids alike a huge jam packedbookoffun for smart and adventurous families with activities for outdoors and indoors embracing time honored traditions and the latest technology Now kids can get the best of Unbored in a size and shape that s just for them a book to take into the field with no chaperone required With approximately seventy five activities covering the ground from Goofing Off to Expressing Yourself from Getting Crafty to Making Your Own Media this kids activity guide is seriously fun a new way to get unbored on the go

Unbored : the Essential Field Guide to Serious Fun ,2015 Unbored is the most original entertaining and instructive all in one book for kids ever published jam packed with information ideas and activities for children and their parents to share together Vibrantly designed and illustrated it s crammed with activities that are not only fun and doable but get kids engaged in the wider world and provides information to expand their worldviews too inspiring them to learn more Right at the age where kids start to disappear into various screens Unbored encourages them to use those tech skills in creative ways Activities parents will remember from their childhoods are presented alongside bold new possibilities science experiments crafts and upcycling board game hacking code cracking geocaching skateboard repair yarn bombing stop action movie making plus tons of trivia best of lists and forward thinking ideas made accessible to kids Unbored expertly walks the line between cool and constructive parents will appreciate its wisdom and humor its lessons in civic mindedness and self esteem as well as its anti perfectionist spirit Kids will just think it s awesome Provided by publisher

UNBORED Games Joshua Glenn,Elizabeth Foy Larsen,2014-10-14 UNBORED Games has all the smarts creativity and DIY

spirit of the original UNBORED It's a book It's a guide It's a way of life Los Angeles Magazine but with a laser like focus on the activities we do for pure fun to while away a rainy day to test our skills and stretch our imaginations games There are more than seventy games here 50 of them all new plus many more recommendations and they cover the full gambit from old fashioned favorites to today's high tech games The book offers a gold mine of creative constructive fun intricate clapping games bike rodeo Google Earth challenges croquet golf capture the flag and the best ever apps to play with Grandma to name only a handful Gaming is a whole culture for kids to explore and the book will be complete with gaming history and interviews with awesome game designers The lessons here all games can be self customized or hacked You can even make up your own games Some could even change the world The original UNBORED has taken its place as a much beloved distinctly contemporary family brand UNBORED Games extends the franchise also including UNBORED Adventure in a new handy flexibound format illustrated in full color throughout This is a whole shelf of serious fun the whole family can enjoy indoors outdoors online and offline

School Library Makerspaces in Action Heather Moorefield-Lang, 2018-03-05 Maker learning spaces in schools and public libraries are made real through the narratives of professional librarians around the world comprising the collaborative activities experiences and perspectives of librarians as they have implemented makerspaces for students of all ages School Library Makerspaces in Action is for any librarian looking for inspiration for their own makerspaces hackerspaces fablabs or DIY locations and how to use these spaces in libraries and educational settings Contributions from authors around the world address the needs of most all readers including how to provide the staff training necessary for a successful makerspace Each chapter is written from an author's personal experience and with only a little fine tuning and imagination many of these ideas can be used throughout all levels disciplines and subjects in K 12 education and carry over into higher education The successes and optimism shared in this collection will inspire librarians and educators to think positively about how to implement maker learning locations train staff and use makerspaces in their libraries and classrooms to promote and share new ideas

Booktalking Nonfiction Jennifer Bromann-Bender, 2013-12-20 Booktalking Nonfiction 200 Sure Fire Winners for Middle and High School Readers will provide an introduction to selecting and writing booktalks for nonfiction books with a focus on unique informational texts and biographies and autobiographies A booktalk is a summary of a book presented in a way that would interest someone in reading the book described Why non fiction Because the Common Core Standards Initiative which most states have adopted requires that 70% of the materials students read be from the category of informational texts it is especially important to focus on nonfiction when sharing books with students Here's everything you need to do just that Chapters cover selecting writing preparing and presenting booktalks special tips for high interest low level books and using non fiction in the library and the classroom Two hundred ready to present booktalks arranged by genre are also included Genres include animals famous people sports crime and serial killers movies and television religion war history and the supernatural

How to STEM Carol Smallwood, Vera

Gubnitskaia,2013-12-05 During the past few years groups like the President s Council of Advisors on Science and Technology Center for Education have been placing great emphasis on the significance of STEM science technology engineering and math education In brief the US is seen as falling behind the rest of the world in science and technology education In response the curricula have been revised in many educational institutions and school districts across the country It is clear that for STEM to be successful other community organizations most particularly libraries need to be closely involved in the process Library staff realize the importance of getting involved in STEM education but many have difficulty finding comprehensive information that will help them plan and successfully implement STEM direction in their organization This book is designed to meet that need It is timely and relevant How to STEM Science Technology Engineering and Math Education in Libraries is by and for libraries who are involved in contributing efforts into advancing these subjects It is organized in 9 parts including funding grant writing community partnerships outreach research and examples of specific programming activities Authors are drawn from the professional staffs of educational institutions libraries and non profit organizations such as science museums The book contains eight parts each emphasizing a different aspect of how to succeed with STEM Part 1 emphasizes how hands on activities that are both fun and educational can be used to further STEM awareness Parts 2 and 3 contain chapters on the uniting of STEM with Information Literacy Innovative collection development ideas are discussed in Part 4 and Part 5 focuses on research and publishing Outreach is the theme of Part 6 and the programs described in these chapters offer an array of ways to connect with students of all ages The final section of How to STEM Science Technology Engineering and Math Education in Libraries addresses the funding of these programs Librarians of all types will be pleased to discover easy to implement suggestions for collaborative efforts many rich and diverse programming ideas strategies for improving reference services and library instruction to speakers of English as a second language marketing and promotional tips designed to welcome multicultural patrons into the library and much more *Born Reading* Jason Boog,2014-07-15

Describes how to raise a child s IQ and give him or her a competitive advantage through interactive reading and provides step by step instructions for developing and nurturing an early interest in books **Death in a Consumer Culture** Susan Dobscha,2015-12-22 Death has never been more visible to consumers From life insurance to burial plots to estate planning we are constantly reminded of consumer choices to be made with our mortality in mind Religious beliefs in the afterlife or their absence impact everyday consumption activities Death in a Consumer Culture presents the broadest array of research on the topic of death and consumer behaviour across disciplinary boundaries Organised into five sections covering The Death Industry Death Rituals Death and Consumption Death and the Body and Alternate Endings the book explores topics from celebrity death tourism pet and online memorialization family history research to alternatives to traditional corpse disposal methods and patient assisted suicide Work from scholars in history religious studies sociology psychology anthropology and cultural studies sits alongside research in marketing and consumer culture From eastern and western perspectives spanning

social groups and demographic categories all explore the ubiquity of death as a physical emotional cultural social and cosmological inevitability Offering a richly unique anthology on this challenging topic this book will be of interest to researchers working at the intersections of consumer culture marketing and mortality The Collection Program in Schools

Marcia A. Mardis, 2016-02-25 This thorough treatment of collection development will serve school library educators and students as well as practicing school librarians providing quick access to information that is both immediately useful and helpful as unforeseen situations arise Our digitally rich world changes quickly and contains more information resources than ever before as a result school librarians are tasked with the enormous challenge of curating a diverse high quality and up to date collection for teachers students and administrators to use This new edition of The Collection Program in Schools gives school librarians the tools to develop and maintain a collection in a constantly changing environment often with reduced budgets and to ensure that students can use virtual libraries and have access to all modern media and learning resources The book logically progresses in its coverage of national and state policy concerns to community needs to the process of collection building and maintenance Topics covered include key education trends affecting collections such as digital textbooks and other non print resources instructional improvement systems STEM priorities and open education resources the use of school libraries as makerspaces media type considerations for a range of users Common Core State Standards and Next Generation Science Standards and the principles of curation acquisition description organization promotion evaluation and maintenance This guide is ideal for use in many graduate level school librarian preparation courses including classes on school library collection development and school library management
