Cultivating Future-Oriented Learners Yael Yondler, Nissim Avissar, Dovi Weiss, 2024-09-10 The book *Cultivating Future Oriented Learners Polyphonic Education in a Changing World* offers a new theoretical and practical educational approach responding to our era's challenges. The polyphonic paradigm it proposes uses current educational elements to produce a new whole connecting technology, varied learning spaces, humanizing pedagogy, and global values of personal, social, and environmental responsibility. Combining all these elements, the presented polyphonic wisdom model enables teachers to design a technology-enhanced pluralistic and dynamic learning environment where individual voices are heard while all the voices harmonize. Centered around human dignity and affinity between the personal and collective good, it aspires to assist educators in cultivating productive and value-based future citizens and teachers within a democratic society. The book introduces thirteen unique teaching models to foster humanizing global values, diversity, and inclusion, ecohumanistic responsibility, and a dialogue between diverse stands and perspectives. It guides learners toward attaining their objectives by acquiring independent learning skills. Together, these teaching models are a catalogue of practical implementation choices of the polyphonic wisdom model in various educational frameworks. The envisaged readership encompasses educators and related professionals but no less so anyone concerned about the current educational crisis who wishes to rethink education technology and values such as present and future personal, social, and environmental responsibility.

Confident Witness--changing World Craig Van Gelder, 1999 In *Confident Witness Changing World*, twenty-two scholars and skilled ministry practitioners explore this complex question not only theoretically but also in practical terms immediately useful to pastors and church leaders.

Teaching Reading Comprehension to English Learners in Secondary Schools: A Research-Based Approach Cekiso, Madoda, Olifant, Florence, Mokhtari, Kouider, 2025-04-23 Teaching reading comprehension to English learners (ELs) in secondary schools presents unique challenges as these students must navigate the complexities of academic texts and the intricacies of language acquisition. Effective instruction requires a research-based approach that considers the diverse linguistic, cultural, and cognitive backgrounds of these learners. Recent studies highlight the importance of integrating strategies that build both language proficiency and content knowledge essential for helping ELs develop the skills needed to comprehend complex materials. Fostering metacognitive awareness through strategies like summarizing, questioning, and making connections can empower students to become active and strategic readers. This approach recognizes the need for a supportive, inclusive classroom environment that encourages language development while promoting academic achievement in content areas. Further research may help educators provide English learners with the tools to thrive as capable readers in secondary school. *Teaching Reading Comprehension to English Learners in Secondary School: A Research-Based Approach* explores various aspects of teaching reading comprehension to English Second Language (ESL) learners in secondary schools. It examines current challenges and evidence-based strategies in
