John Baker Dafin

The Visible And The Invisible The Visible And The Invisible:

The Visible and the Invisible Maurice Merleau-Ponty, 1968 The Visible and the Invisible contains the unfinished manuscript and working notes of the book Merleau Ponty was writing when he died The text is devoted to a critical examination of Kantian Husserlian Bergsonian and Sartrean method followed by the extraordinary The Intertwining The Chiasm that reveals the central pattern of Merleau Ponty s own thought The working notes for the book provide the reader with a truly exciting insight into the mind of the philosopher at work as he refines and develops new pivotal concepts **The Visible and the Invisible** John Baker Dafin, Michel Henry Jeffrey Hanson, Michael R. Kelly, 2012-02-09 Michel Henry 1922 2002 was a French philosopher and novelist whose work spanned decades and genres while remaining united by a singular vision In this specially commissioned collection eight internationally recognized experts on Henry s thought investigate his profound acquaintance with the mystery of life which he understood as the irreducible bedrock of all reality in its self manifestation under the rubrics of phenomenological experience religion and praxis Each chapter investigates a different aspect of Henry s remarkable range of thought focusing on his special relevance to debates on the relationship of phenomenology and theology as well as to contemporary radical discourses on embodiment and immanence politics and theory Henry s phenomenology of life is both deep and demanding and its relevance to the topics under examination in this book cannot be denied This collection represents the first sustained effort in coming to an understanding of just how far and wide that relevance reaches It will not only spark a resurgence in Henry studies but resonate within that sphere for many years to come **Merleau-Ponty and the Art of Perception** Duane H. Davis, William S. Hamrick, 2016-03-01 This collection of essays brings together diverse but interrelated perspectives on art and perception based on the philosophy of Maurice Merleau Ponty Although Merleau Ponty focused almost exclusively on painting in his writings on aesthetics this collection also considers poetry literary works theater and relationships between art and science In addition to philosophers the contributors include a painter a photographer a musicologist and an architect This widened scope offers important philosophical benefits testing and providing evidence for the empirical applicability of Merleau Ponty s aesthetic writings The central argument is that for Merleau Ponty the account of perception is also an account of art and vice versa In the philosopher s writings art and perception thus intertwine necessarily rather than contingently such that they can only be distinguished by abstraction As a result his account of perception and his account of art are organic interdependent and dynamic The contributors examine various aspects of this intertwining across different artistic media each ingeniously revealing an original perspective on this intertwining **The Works of the Reverend William Law, M.A. ...: Three letters to the Bishop of Bangor** William Law, 1892 *The Baptized Body* Peter J. Leithart, 2007 What does baptism do to the baptized Nothing Something In this study Peter Leithart examines this single question of baptismal efficacy He challenges several common but false assumptions about God man the church salvation and more that confuse discussions

about baptism He aims to offer a careful and simple discussion of all the central biblical texts that speak to us about baptism the nature of signs and rites the character of the church as the body of Christ and the possibility of apostasy In the end the author urges us to face up to the wonderful conclusion that Scripture attributes an astonishing power to the initiation rite of baptism

The Works of the Reverend William Law William Law,1892 Herodotus in Context Rosalind Thomas,2000

Herodotus called his work an enquiry and wrote before history was a separate discipline Coming from Halicarnassus at the crossroads between the Persian and Athenian spheres of influence he combined the culture of Athens with that of the more pluralistic and less ethnocentric cities of east Greece Alive to the implications of this cultural background for Herodotus thought this study explores the much neglected contemporary connotations and context of the Histories looking at them as part of the intellectual climate of his time Concentrating on Herodotus ethnography geography and accounts of natural wonders and examining his methods of argument and persuasion it sees the Histories which appear virtually without antecedents as a product of the late fifth century world of the natural scientists medical writers and sophists a world of controversy and debate

Transgressive Corporeality Diane MacDonald,1995-07-01 This study begins with Nietzsche's attempt to subvert the projects of classical and modern metaphysics through an unmasking of their abusive underpinnings Because Nietzsche ultimately retreated into his own violent metaphysics of a will to power his critique has been radicalized by other philosophers who explore the body as a site of resistance to foundationalist metaphysics and for clues pointing toward nonfoundational modes of thinking and becoming The philosophies of body explored in this book are those of Maurice Merleau Ponty Michel Foucault and Julia Kristeva In their respective analyses oppressive modes of the will to truth include the objectifying thought of Enlightenment empiricism and idealism classical and modern modes of rationality discipline and sexuality as well as a mono logical thinking operative in literature and religion Each theorist attempts to retrieve remainders of these cultural truths as sites of resistance and of alternative modes of relatedness The book concludes by suggesting how these philosophies of body might reshape the imagination of contemporary constructive theology

One, Holy, Catholic, and Apostolic Church Guy Prentiss Waters,2025-08-06 We can better see God's wise and good plan for the world when we better understand his intentions for the church One Holy Catholic and Apostolic Church provides a cohesive and comprehensive guide to understanding the nature and purpose of the church Throughout redemptive history God has been gathering a people to himself to worship him to serve one another and to bring the gospel to the nations Waters approaches the doctrine of the church from biblical theological historical and systematic angles He also addresses practical concerns about the life and ministry of the church today such as worship spiritual gifts and the relationship between church and state
