The Vision Thing Myth Politics And Psyche In The World:

The Vision Thing Thomas Singer, 2000 Contemporary politics goes on at a mythic level This is the provocative argument put forward in this unique book The first part focuses on leadership and vision while the second part deals with the one and many theme in politics

The Vision Thing Thomas Singer, 2014-01-14 Contemporary politics goes on at a mythic level This is the provocative argument put forward in this unique book which results from the collaboration of practising politicians organisational and political consultants scholars of mythology and culture and Jungian analysts from several countries The first part of the book focuses on leadership and vision and features a reflection on myth and leadership by former U S Senator Bill Bradley The second part deals with the way the theme of the one and the many works itself out in politics today From the perspective of the many there are chapters on factionalism ethnic strife genocide and multiculturalism From the perspective of the one there are chapters on the economic myth and gender politics showing how these bring coherence to today s confused political scene culminating in the suggestion that the modern political psyche is itself in the midst of a rite of passage The relevance of the book to the practice and study of politics mainstream and marginal cannot be overemphasised and the book will provide stimulating reading for practitioners and students in these areas as well as for those engaged in psychological work such as therapy counselling or analysis

Vision, Reality and Complex Thomas Singer, 2020-11-09 Vision Reality and Complex brings together a rich selection of Thomas Singer s scholarship on the development of the cultural complex theory and explores the relationship between vision reality and illusion in politics and psyche The chapters in this book discuss the basic principles of the cultural complex theory in various national and international contexts that span the Clinton Bush Obama and Trump eras Each chapter grounds this theory in practical examples such as race and healthcare in the United States or in specific historical and international conflicts between groups whether they be ethnic racial gender local national or global With chapters on topics including mythology leadership individuation revolution war and the soul Singer s work provides unique insights into contemporary culture activism and politics This collection of essays demonstrates how the cultural complex theory applies in specific contexts while simultaneously having cross cultural relevance through the reemergence of complexes throughout history It is essential reading for academics and students of Jungian and post Jungian ideas politics sociology and international studies as well as for practicing and trainee analysts alike

Filming the Nation Donatella Spinelli Coleman, 2012-12-06 Italian neo realism has inspired film audiences and fascinated critics and film scholars for decades This book offers an original analysis of the movement and its defining films from the perspective of the cultural unconscious Combining a Jungian reading with traditional theorizations of film and national identity *Filming the Nation* reinterprets familiar images of well known masterpieces by Roberto Rossellini Vittorio de Sica and Luchino Visconti and introduces some of their less renowned yet equally significant films Providing an illuminating analysis of film images across a particularly traumatic and complex

historical period *Filming the Nation* revisits the concept of national identity and its construction from a perspective that combines cultural psychoanalytic and post Jungian theories As such this book will be essential reading for all students and scholars of film and psychoanalysis

The Liminal and The Luminescent Terrill L. Gibson,2021-12-21 Our world is bathed in ongoing biological political cultural climate and spiritual crises that seem endless If anything these disruptions appear to be spiraling into ever larger threat fronts that challenge our survival as a species Carl Gustav Jung renowned Swiss psychiatrist avowed in his archetypal psychology that there is a portal of transforming possibility if we have the courage to enter that doorway That threshold entering demands that we embrace our individual and collective sufferings and then seek the path of meaning and destiny that is always resident deeply at the core of such trauma This book narrates how this destiny is found and lived forward for both each individual life and for our varied human cultures It affirms and gives examples of the deep soul dimension of life that lies under the often chaotic surface the liminal realm of animate and guiding dream vision myth and spirituality where the gods meet us so that we all can find our mutual way Home This liminal world is navigated through the metaphoric and literalness of pilgrimage performance and political processes in our personal and cultural lives What might be your path of destiny
