The Westminster Dictionary Of New Testament And Early Christian Literature And:

The Westminster Dictionary of New Testament and Early Christian Literature and Rhetoric David Edward Aune, 2003-01-01 The Westminster Dictionary of New Testament and Early Christian Literature and Rhetoric details the variety of literary and rhetorical forms found in the New Testament and in the literature of the early Christian church This authoritative reference source is a treasury for understanding the methods employed by New Testament and early Christian writers Aune s extensive study will be of immense value to scholars and all those interested in the ways literary and rhetorical forms were used and how they functioned in the early Christian world This unique and encyclopedic study will serve generations of scholars and students by illuminating the ways words shaped the consciousness of those who encountered Christian teachings

Numbers Walter Riggans, 1983-01-01 Although the name of the book of Numbers derives from the lists and census data contained therein Walter Riggans shows that this biblical book rich in content is best understood in the context of the Pentateuch as a whole In this incisive commentary the author describes the people of Israel during their trials in the wilderness throughout the period of adjustment and into the time of settlement He illustrates that the underlying theme of Numbers is the gracious providence of the Lord who cares for Israel in spite of constant rebellion by the people and their leaders Carrying forward brilliantly the pattern established by Barclay s New Testament series the Daily Study Bible has been extended to cover the entire Old Testament as well Invaluable for individual devotional study for group discussion and for classroom use the Daily Study Bible provides a useful reliable and eminently readable way to discover what the Scriptures were saying then and what God is saying today

The New Testament and Early Christian Literature in Greco-Roman Context John Fotopoulos, 2006-10-01 This volume is a collection of scholarly studies honoring Prof Dr David E Aune on his 65th birthday Its title The New Testament and Early Christian Literature in Greco Roman Context Studies in Honor of David E Aune reflects Prof Aune s academic training interests and extensive publications The volume s studies investigate a range of topics within the Pauline correspondence Gospels Apocalypse of John and other early Christian writings with insights drawn from Greco Roman culture and Hellenistic Judaism Thus the studies make use of Greco Roman literature rhetoric magic medicine moral philosophy iconography archaeology religious cults and social conventions while also utilizing social historical social scientific literary critical and rhetorical critical methodologies thereby adding an interdisciplinary dimension to the volume These groundbreaking studies have been written by prominent international scholars and are published here for the first time

The Oxford Handbook of Early Christian Ritual Risto Uro, Juliette Day, Rikard Roitto, Richard E. DeMaris, 2019 The Handbook provides an indispensable account of the ritual world of early Christianity from the beginning of the movement up to the end of the sixth century

The Oxford Handbook of Hebrews and the Catholic Epistles Patrick Gray, 2024 The study of Hebrews and the Catholic Epistles was never truly confined to their place in fraught ecclesiastical disputes Recent decades have witnessed a resurgence of interest in these writings The

present volume seeks to assess the relevance of these works to various questions that are often posed to other parts of the New Testament canon to report on the current state of scholarship devoted to the interpretive issues they raise and to survey their rich and often overlooked afterlives

The Apostolic Fathers Michael W. Holmes, 2007-11-01 This revision of the 1992 Greek English edition features updated introductions bibliographies and textual witnesses Essential for the serious student of early Christianity

Hebrews, the General Letters, and Revelation Charles B. Puskas, 2016-10-28 Most New Testament NT introductions because of page limitations and other reasons tend to minimize their treatment of the last nine books of the Christian Bible from Hebrews to Revelation The focus in these introductions is often on the four Gospels and the Letters of Paul As important as these books are one should not neglect with only a brief survey the treatment of Hebrews the General Letters and the book of Revelation The title given later to the collection Catholic Epistles or General Letters is a reminder of its general appeal to the whole church despite its slow canonical recognition and authorship issues Nevertheless these writings from Hebrews to Revelation continue to capture our attention and ignite our imagination My purpose for this book is to supplement my NT introduction and others like it with a focus on specific questions about each book from Hebrews to Revelation When and why was each book written By whom and to whom was each book written What are some special features of each book How soon or late was each book included in the NT collection Answers to many of these questions are tentative The assured results of scholarship are in continual need of reevaluation Since the 1980s a host of diverse studies have emerged and I have endeavored to include them when they are relevant to the discussion

Redemptive-Historical Hermeneutics and Homiletics Yung Hoon Hyun, 2015-04-14 This book focuses on redemptive historical hermeneutics and homiletics within New Testament theology This is a valuable legacy of the Reformed tradition despite differences in interpreting and preaching Bible texts that surfaced in Holland 1920s and 1930s and the United States 1970s onwards before influencing Korean Reformed churches The background origin distinctiveness and development of these theological debates is explored and evaluated before the features of redemptive history in Korea are identified The influence of Western redemptive historical scholars on the Korean debate are also analyzed Here is a major and contemporary contribution to reformed historical hermeneutics and homiletics that is relevant for Korean Reformed churches but also for all Reformed churches worldwide

A Greek-English Lexicon of the New Testament and Other Early Christian Literature Walter Bauer, 2010-11-02 Described as an invaluable reference work Classical Philology and a tool indispensable for the study of early Christian literature Religious Studies Review in its previous edition this new updated American edition of Walter Bauer's *Wörterbuch zu den Schriften des Neuen Testaments* builds on its predecessor's staggering deposit of extraordinary erudition relating to Greek literature from all periods Including entries for many more words the new edition also lists more than 25 000 additional references to classical intertestamental Early Christian and modern literature In this edition Frederick W Danker's broad knowledge of Greco Roman literature as well as papyri and epigraphs provides a more panoramic view of

the world of Jesus and the New Testament Danker has also introduced a more consistent mode of reference citation and has provided a composite list of abbreviations to facilitate easy access to this wealth of information Perhaps the single most important lexical innovation of Danker's edition is its inclusion of extended definitions for Greek terms For instance a key meaning of episkopos was defined in the second American edition as overseer Danker defines it as one who has the responsibility of safeguarding or seeing to it that something is done in the correct way guardian Such extended definitions give a fuller sense of the word in question which will help avoid both anachronisms and confusion among users of the lexicon who may not be native speakers of English Danker's edition of Bauer's *Wörterbuch* will be an indispensable guide for Biblical and classical scholars ministers seminarians and translators
