Faiths on Display Tim Oakes, Donald S. Sutton, 2010-10-16 By providing a unique perspective on China s changing relationship with religion this groundbreaking book explores the role the Chinese state continues to play in religious revival today Over the past several decades China has experienced a rapid expansion of religious spaces and activities More recently a growing middle class urban society has fueled an upsurge in Chinese domestic tourism Faiths on Display challenges the common separation of religious and tourist activities showing how these practices overlap and blend

together A group of leading scholars explores the unlikely interaction between these exuberant phenomena finding a surprisingly clear lens through which to view a rapidly transforming society Even the most casual observer is struck by the Chinese rediscovery of traditional culture particularly at revived religious festivals and pilgrimages in suburbs rural areas and at China's margins where religious practices of ethnic minorities attract particular tourist attention A set of fascinating case studies shows how state organizations are helping revive sacred spaces as exploitable sites for tourism development and revenue generation While this may appear to be a straightforward collision of Chinese tradition with modernization the contributors argue that the results of combining religion and tourism offer important insights not only into the practice of religion and the rise of leisure culture in contemporary China but also into the changing and contested nature of state governance The policies of an authoritarian modernizing state obviously influence both religion and tourism but religious practices the book clearly illustrates tend to slip out of state control and tourist tastes push development into directions not anticipated or welcomed by the state Contributions by Kenneth Dean Brian R Dott Xiaofei Kang Charlene Makley Susan K McCarthy Charles F McKhann Tim Oakes Yu Luo Rioux Donald S Sutton Marina Svensson and Rubie Watson *David Mitchell's Post-Secular World* Rose Harris-Birtill, 2019-01-10 Since the publication of *Ghostwritten* 1999 David Mitchell has rapidly established himself as one of the most inventive and important British novelists of the 21st century In this landmark study Rose Harris Birtill reveals the extent to which Mitchell has created an interconnected fictional world across the full run of his writing Covering Mitchell's complete fictions from bestselling novels such as *Cloud Atlas* 2004 *The Bone Clocks* 2014 and *number9dream* 2001 to his short stories and his libretti for the operas *Sunken Garden* and *Wake* this book examines how Buddhist influences inform the ethical worldview that permeates his writing Using a comparative theoretical model drawn from the Tibetan mandala to map Mitchell's fictional world Harris Birtill positions Mitchell as central to a new generation of post secular writers who re-examine the vital role of belief in galvanizing action amidst contemporary ecological political and humanitarian crises David Mitchell's *Post Secular World* features two substantial new interviews with the author a chronology of his fictions and a selected bibliography of important critical writings on his work **Tibet: Betrayed by the World** Brigadier Jasbir Singh Nagra, 2021-04-07 On 28 April 1954 history was made Never before had any nation outreached another nation that did not even share a common border with an offer to occupy its immediate neighbour sacrificing strategic interests Strangely the country that was directly involved was not even consulted To add to the weirdness the Indian Government continued to defend China's act of treason against Tibet in international forums and also misled its citizens How the India Tibet border was converted into the Sino Indian border in 1954 is both intriguing and tragic With Great Britain in the lead several other nations that had exploited Tibet for decades for various one-sided benefits brazenly decided to desert it at the time of its crisis and feigned conniving ignorance about its political status Tibet as a theocracy with no armed forces and reliable ally was an alluring target for expansionist China What lies ahead for Tibet is a geostrategically important issue

not only for India but also the world at large to contain China's outrageous expansionist and hegemonistic designs. The failure of China to subdue Tibetan nationalism, religion, culture and heritage by suppressive means over seven decades is indicative that the resurrection of Tibet is not a myth but a possibility in the future. *Newsletter, East Asian Art and Archaeology*, 1994
