Venetian Renaissance Fortifications in the Mediterranean Dragoş Cosmescu, 2015-12-14 The Renaissance was a revolution of ideas arts and sciences alike with Italy at its center Venice was among the first states to embrace new concepts in fortification which would dominate military architecture for centuries In the age of large galley fleets and an expanding Ottoman Empire the mighty defenses of the Republic of Venice protected faraway territories in the Mediterranean and some of the largest and best preserved Renaissance fortifications are found on the former Venetian islands This book illustrates in detail the impressive defenses of Cyprus Crete and Corfu their design and their war record Walled towns and fortresses were constructed to the latest standards of military technology with walls capable of withstanding the largest armies and the longest sieges including the longest in history 22 years The Writing of Natural Disaster in Europe, 1500–1826 Sandhya

Patel, Sophie Chiari, 2022-12-12 This book explores reactions to and representations of natural disasters in early modern Europe. The contributors illustrate how the cultural production of the period in manuals, treatises, sermons, travelogues, and fiction grappled with environmental catastrophe. Crucially, they interrogate how people in the early modern era rationalized and mediated the threat of events like plagues, great frosts, storms, floods, and earthquakes. A vital contribution to environmental history, this book highlights the parallels between early modern responses to natural disaster and climate anxiety in our own era.

A Travel Guide to the Middle Ages Anthony Bale, 2024-04-23 An immensely entertaining history. *The New Yorker*. A captivating journey of the expansive world of medieval travel from London to Constantinople to the court of China and beyond. Europeans of the Middle Ages were the first to use travel guides to orient their wanderings as they moved through a world punctuated with miraculous wonders and beguiling encounters. In this vivid and alluring history, medievalist Anthony Bale invites readers on an odyssey across the medieval world, recounting the advice that circulated among those venturing to the road for pilgrimage, trade, diplomacy, and war. Journeying alongside scholars, spies, and saints from Western Europe to the Far East, the Antipodes, and the ends of the earth, Bale provides indispensable information on the exchange rate between Bohemian ducats and Venetian groats, medieval cures for seasickness, and how to avoid extortionist tour guides and singing sirens. He takes us from the streets of Rome, more ruin than tourist spot, and tours of the Khan's court in Beijing to Mamluk-controlled Jerusalem, where we ride asses across the holy terrain and bustling bazaars of Tabriz. We also learn of rumored fantastical places like ones where lambs grow on trees and giant canes grow fruit made of gems. And we are offered a glimpse of what non-European travelers thought of the West on their own travels. Using previously untranslated contemporaneous documents from a colorful range of travelers and from as far and wide as Turkey, Iceland, North Africa, and Russia, *A Travel Guide to the Middle Ages* is a witty and unforgettable exploration of how Europeans understood and often misunderstood the larger world.

A History of Architecture on the Comparative Method for Students, Craftsmen, and Amateurs Sir Banister Fletcher, Banister Fletcher, 1921

A History of Architecture on the Comparative Method for Students, Craftsmen, & Amateurs Sir Banister Fletcher, 1924

Mirrors of Heaven or Worldly Theaters? Jonathan E. Glixon, 2017-08-15 *Mirrors of Heaven or Worldly Theaters: Venetian Nunneries and Their Music* is the first in-depth study of the dynamic role of musical rituals at Venetian convents in the Early Modern era, examining the nuns as patrons and performers of both simple plainchant and complex sacred polyphony. The book also considers organs, bells, and musical and theatrical entertainment by and for the nuns.

Art and Social Change Klare Scarborough, Susan Dixon, 2015-10 The scholarly essays in this book focus on the theme of art and social change in Western art from the Renaissance to about 1950. The edited volume includes contributions by scholars with a range of professional backgrounds and affiliations. Their essays address some aspect of the theme and engage with one or more artworks in the collection of La Salle University Art Museum. Topics include religious iconography, portraiture, landscape, journal illustrations, and Modernist abstraction. These

essays on the collection add to the body of scholarship which situates works of art in contexts that help reveal and explain changes in social political or cultural values The book is lavishly illustrated with 104 color illustrations *A History of Architecture on the Comparative Method for the Student, Craftsman, and Amateur* Banister Fletcher, Sir Banister Fletcher, 1905

Water in World History Ellen F. Arnold, 2024-10-22 This book takes a thematic approach to the global history of water covering a wide range of human interactions with water and the ways in which it carries both life and death Water is one of the most common and valuable natural resources for the survival of individual people and civilizations As the Anthropocene brings the unpredictable challenges of climate change population growth and global industrialization and urbanism issues of water scarcity and availability will be ever growing and both the presence and absence of water can be sources of far reaching disaster The book argues that a deeper understanding of water's history is essential for navigating these changes The chapters discuss water and religion floods and disasters water engineering and waterpower the history of drinking water water parks and leisure the history of underwater exploration and the history of drought and water scarcity Each chapter is global in scope and is told over a broad chronology with complementary case studies Water in World History is an accessible introduction to water history and is an ideal resource for undergraduate students in environmental history and world history courses
