Mayers, 2012 The process of shaping and asserting cultural identity in viceregal Spanish America occurred as much through the medium of pictures as through the medium of writing Focused on writing that references visual texts ekphrasis *Visions of Empire in Colonial Spanish American Ekphrastic Writing* examines the way words about pictures in the writing of three Spanish American Creoles Hernando Domínguez Camargo Juan de Espinosa Medrano and Sor Juana Inés de la Cruz negotiate the challenges that confronted the American born ruling elite in Spanish America during the contentious transitional period between the Conquest and Independence In Spanish America pictures have long served as a crucial medium for cultural communication In vast rural and urban regions where print culture is not deeply rooted and being cultured is not synonymous with being literate visual texts ranging from pre Hispanic pictographic codices to Baroque architectural surfaces to postmodern painted murals have played an essential role in shaping and asserting cultural identity During the viceregal era texts that referenced such visual texts proliferated in Latin America particularly among Creole elites who found themselves trapped in an ambiguous political and social position between Spain and America At the level of content Creole ekphrases bear little obvious connection to categories of social privilege On the level of form however these ekphrases engage conventions of representation that reveal the social contingencies of the poetic gaze They refract the visual object through an ideologically charged language that invokes differentials of race class gender sexuality nationality and position within the colonial power structure *Visions of Empire* brings recent scholarship on visibility and ekphrasis to bear on twenty first century reexaminations of criollismo to explore how cultural productions of the Spanish American Creole elite exercised relations of power mediated social differences and presented symbolic organizations of social space Focusing on the way Creole adaptations of Gongoran ekphrases placed the Creoles in a position of epistemological economic or moral authority over peninsular Spaniards and Amerindian and casta majorities around them this book illustrates how Creole words about pictures propose alternate visions of empire symbolically reordering Spain's empire in the Americas around the figure of the Creole **The World Encompassed** Geoffrey Vaughn Scammell, 1981-01-01 A study of European exploration and colonization includes examinations of the expansion of the English Spanish Dutch French and Portuguese empires *Rereading the Conquest* James Krippner-Martínez, 2010-11-01 Combining social history with literary criticism James Krippner Martínez shows how a historiographically sensitive rereading of contemporaneous documents concerning the sixteenth century Spanish conquest and evangelization of Michoacán and of later writings using them can challenge traditional celebratory interpretations of missionary activity in early colonial Mexico The book offers a fresh look at religion politics and the writing of history by

employing a poststructuralist method that engages the exclusions as well as the content of the historical record The moments of doubt contradiction and ambiguity thereby uncovered lead to deconstructing a coherent conquest narrative that continues to resonate in our present age Part I The Politics of Conquest deals with primary sources compiled from 1521 to 1565 Krippner Mart nez here examines the execution of Cazonci the indigenous ruler of Michoac n as recounted in the trial record produced by his executioners explores the missionary Indian encounter as revealed in the Relaci n de Michoac n and assesses the writings of Michoac n s first bishop the legendary Vasco de Quiroga and their complex interplay of authoritarian paternalism and reformist hope Part II Reflections looks at how the memory of these historical figures is represented in later eras A key text for this discussion is the Cr nica de Michoac n written in the late eighteenth century by the Franciscan intellectual Pablo de Beaumont Krippner Mart nez concludes with a critique of the debate that initiated his investigation the controversy between Latin Americans and Europeans over the colonialist legacy beginning with the Latin American Bishops Conference in 1992
