Worship And The New Cosmology Liturgical And Theological Challenges:

Worship and the New Cosmology Catherine Vincie, 2014-08-14 What is the Christian response to developments in the hard sciences What do discoveries at the macro and micro levels have to say about Christian theology about a theology of God Christology pneumatology and creation How do the developments in systematic theology that do take the advances in cosmology and the New Sciences seriously come to bear on our worship life These are the questions that are addressed in this text It is an initial effort to bring cosmology and the New Sciences into dialogue with developments in systematic and sacramental theology This book also suggests some ways in which these developments might appear in our worship Overall the author is concerned to reduce the cognitive dissonance between our scientifically informed everyday lives and our life of faith

Sacramentality Renewed Lizette Larson-Miller, 2016 Tracing developments in sacramental theology over the past twenty five years this study explores a growing ecumenical dynamism in both the academic study of sacramentality and its centrality in pastoral applications But how does ecumenical excitement in a renewed discovery of sacramental theology fit with different theologies of church and different pastoral beliefs and practices How does the universality of academic accessibility in the form of an expansive ecumenical sharing of perspectives meet the particularities of pastoral reality and ecclesial polity Arguing in favor of fruitful ecumenical conversation this book also focuses on the crucial interaction of ecclesiology liturgical practice and sacramentality which raises the need for a creative tension between the particularities of a given ecclesial system and the catholicity of Christian sacramentality Using Anglican sacramental theologies and Anglicanism as vehicles of exploration this study contributes to an overview of the state of the field of sacramental theology in the twenty first century while challenging the assumption that one size fits all In sacramental theology as in other important areas of Christian life unity in diversity may be the basis for authentic lived sacramentality

Art and Architecture for Congregational Worship Richard S. Vosko, 2019-09-26 A deep strain of tribal politics is dividing societies around the globe Organized religions are also coping with scandals disappointments and polarizing ideologies The history of Christianity reveals that such frictions deeply wound the church Fr Richard S Vosko recognizes that liturgical buildings are metaphorical expressions of the people of God He proposes in a relational way that when all physical and psychological boundaries in a place of worship are removed people will discover a common ground Building on theological foundations and design principles Vosko envisions what an egalitarian servant church can look like In a bold but thoughtful manner he

presents progressive insights into the fields of church art and architecture Cosmology in Theological Perspective Olli-Pekka Vainio, 2018-07-17 Olli Pekka Vainio a leading expert in science and theology explores questions concerning the place and significance of humans in the cosmos Vainio introduces cosmology from a state of the question perspective examining the history of the idea in dialogue with C S Lewis This work which is related to a NASA funded project on astrobiology ties into the ongoing debate on the relationship between Christian theism and scientific worldview and shows what the stakes are for religion and theology in the rise of modern science **Context and Text** Kevin W. Irwin, 2018-07-12 One of the most influential works in the debate over the concept and definitions of liturgical theology Context and Text by Monsignor Kevin W Irwin is now available in a completely rewritten new edition In light of the historical theological and pastoral mandates of the Constitution on the Sacred Liturgy Context and Text is both a proposal for and an example of an investigation of the Church's liturgical praxis from a liturgical theological perspective This second edition which includes an expanded introduction covers new liturgical and ecclesial contexts resulting from newly promulgated liturgies further research in method for liturgical studies consideration for changes in the cultural contexts in which people celebrate the liturgy Besides brand new chapters on time and sacramentality and additions to the chapter on the arts this edition also considers the ongoing texts and contexts of the liturgy as always a new event in the life and ongoing discussion of liturgical theology within Christianity **Theology and Ecology in Dialogue** Dermot A. Lane, 2020-05-21 This book opens with an examination of the meaning of the innocent sounding category of Integral Ecology in contemporary thought and its significance for theology today According to well known Irish theologian Dermot Lane Integral Ecology changes everything In this book he focuses on the neglected implications of Integral Ecology for systematic theology Ecology challenges theology to reimagine who we are who the Spirit of God is who Christ is where creation is going and what is the role of liturgy in society all in the glare of the ecological crisis This book also mines the theology within and behind the ground breaking encyclical Laudato Si On Care for our Common Home Until fairly recently climate change was left to the scientists politicians and activists More is needed Now is the time to hear voice of religion in that debate in the public forum with a view to initiating new transformative practices in society in politics and in religions This new book will be of interest to activists politicians priests christian educators and theologians The book is born out of the conviction that climate change is not just one more problem to be addressed by politicians rather it is the challenge facing humanity in the 21st century and as such is the challenge underlying all other challenges at this moment in history *Worship and Church* Latkovich, Sallie, Phan, Peter C., 2019 These essays cover historical systematic spiritual and spiritual aspects as well as social justice issues in relation to liturgy **Full of Your Glory** Teresa Berger, 2019-12-05 2020 Catholic Press Association honorable mention award for faith and science This collection of essays explores the rich and diverse intersections between the world of liturgy and the worlds of creation and the cosmos The intersections highlighted here include biblical historical visual and musical materials as well

as contemporary theological and pastoral challenges for worship today The essays gathered in this volume were first presented at the 2018 Yale Institute of Sacred Music Liturgy Conference and are here made available to a wider audience These essays are responses to the unprecedented attention to ecological and cosmological concerns which call for sustained engagement by scholars and practitioners of liturgy

Nature's Sacrament David C. McDuffie, 2021-09-24 In a sacramental ecology divine grace is to be found in the evolutionary emergence of life The Epic of Evolution is the scientific story that reveals that we live in an approximately 14 billion year old universe on a planet that is approximately 4.6 billion years old and that we are a part of the ongoing process of life that has existed on Earth for roughly 4 billion years Nature's Sacrament focuses on the religious and ecological significance of the evolutionary epic in an effort to seamlessly connect the ecological value attributed as a part of an understanding of the evolutionary connectedness of life on Earth with the Divine grace understood to be present in Christian sacramental worship David C. McDuffie is a faculty member in the Religious Studies Department at the University of North Carolina at Greensboro where his primary teaching schedule includes courses in World Religions Religion in America Christian History Religion and Environment and Religion and Politics Broadly his research and teaching interests involve the subject area of Religion and Culture which includes but is not limited to the relationships between religion and politics science and health care This is his first book

Sacramental Theology Bruce T. Morrill, 2019-11-18 Throughout the second half of the twentieth century sacramental theology has evolved as a discipline advancing comprehensive theories of sacraments and sacramentality as integral to the Christian faith while also studying the history and theology of the particular rites Now in the twenty first century the need for attention to the actual performance and specific social settings of sacramental worship has become well established This makes the work of sacramental theology necessarily engaged with multiple cross disciplinary theories attentive to particular contexts whether local national or global Still the divine human encounter at the heart of Christian symbol and ritual likewise beckons to philosophical theological reflection The essays in this volume begin with profound philosophical perspectives on the personal and communal sacramental experience expanding from traditional cosmology to evolutionary and chaos theories of our planetary existence continuing with shifts especially among youth to interreligious and non institutional perspectives consideration of change in popular notions of guilt and social ethical issues in relation to liturgical theology and practice so as finally to return to fundamental theological reflection on human sacramentality and divine revelation

Extraterrestrials in the Catholic Imagination Jennifer Rosato, Alan Vincelette, 2021-02-10 What do scientists know about the possibility of life outside our solar system How does Catholic science ction imagine such worlds What are the implications for Catholic thought This collection brings together leading scientists philosophers theologians and science fiction authors in the Catholic tradition to examine these issues In the first section Christian scientists detail the latest scientific findings regarding the possibility of life on exoplanets The second part brings together leading Catholic science fiction authors who describe how alien life forms have

been prevalent in the Catholic imagination from the Middle Ages right up to the present day In the final section Catholic philosophers and theologians examine the implications of discovering intelligent life elsewhere in the universe Rather than worrying that the discovery of intelligent extraterrestrials might threaten the dignity of humans or their existence the contributors here maintain that such creatures should be welcomed as fellow creatures of God and potential subjects of divine salvation

Dialectics of the Big Bang and the Absolute Existence of the Multiverse Gregory

Phipps,2024-06-11 This interdisciplinary book develops a dialectical narrative about the beginning of the universe by combining Hegel s philosophy with texts about the Big Bang theory Scientific accounts of the Big Bang indicate that the first second of existence was an eventful period in which the universe progressed through six different epochs Bringing together cosmological narratives and Hegel s writings particularly The Science of Logic Gregory Phipps reads this movement as a dialectical progression a sequence of transitions among interlinked concepts like being and nothing finitude and infinitude and space and time Phipps also draws upon Hegel s conception of absolutes to outline a model of the multiverse In doing so he argues that Hegelian readings of the first second offer speculative snapshots of a hypothetical multiverse that contains the full and probably infinite scope of existence Acknowledging the profound impact that the Big Bang theory can produce on understandings of age old philosophical concerns this study importantly brings Hegel s philosophy into dialogue with contemporary science tracing intersections in his speculative thought and the more creative and imaginative dimensions of cosmology For scholars and readers interested in Hegelianism and in the crosscurrents between philosophy science and narrative

On Creation, Science, Disenchantment and the Contours of Being and Knowing Matthew W.

Knotts,2019-09-19 For Augustine the world is replete with meaning it represents not merely a collection of facts to be catalogued but a repository of truths to be discovered and discerned a view which contrasts with the one we have inherited as a result of the thought of figures such as Descartes Newton and Kant What difference would it make to see the world as created Matthew W Knotts explores this question in close conversation with Augustine according to whom our nature as God s creatures determines fundamental aspects of our identity and our knowledge In a postmodern context informed by a renewed appreciation of the limitations of human nature and reason Augustine once again emerges as an insightful and compelling source for further reflection

from Christianity's sacramental consciousness of baptism loving service of the Yamuna River in Hinduism and the compassionate wisdom of the bodhisattva to develop an integral approach to water ethics Building on but distinct from the foundation laid by Christiana Zenner's Just Water this book is a welcome addition to the growing field of concern surrounding global water crises

Nature Praising God Dermot Lane, 2023-03-16 During the lockdown caused by the Covid 19 crisis streets were emptied churches closed and a relationship with nature developed in which questions to be asked again in light of the crisis arose Is God present in nature Is communion with God in nature possible Is there a relationship between the God of creation the God of history and the God we worship in Sunday liturgies In Nature Praising God Dermot Lane explores these questions by returning to the Bible The Christian tradition shows that nature is understood as a living community is graced by God and has a sacramental character He suggests that readers change their perception of how nature is traditionally regarded as a resource for human needs and embrace a new way of praising God through an appreciation of and care for the myriad life forms on earth The result of these explorations is the outline of a new theology of nature praising God with lessons for the way we worship God in our churches today

Apocalyptic Good News R. Dean Drayton, 2019-07-12 Remarkable studies in the New Testament have recovered the fact that the gospel the good news of Jesus Christ was apocalyptic good news God's redemptive action within history Today for more and more people the sheer scope of an evolutionary universe renders life on Earth as utterly insignificant religion as nothing more than superstition And now in the Anthropocene we on the pale blue dot live in an apocalyptic age in which cataclysmic issue after cataclysmic issue threaten the future of the planet The faith of the early church was in an apocalyptic cosmic Christ unleashing within history God's good news of a new creation Set within the world as we now know it this gives meaning to the cosmos and life wherever it is found around any star Screened from view for over a millennium during mission to non apocalyptic cultures now is the time for a new paradigm for church the apocalyptic church for an apocalyptic age to replace the denominational church What a difference this makes to faith worship and the role of the church in an apocalyptic future

Preaching as Spiritual Leadership Michael E. Connors, CSC, 2021-05-15 In this unique resource Fr Michael E Connors CSC gathers and expertly guides the collective wisdom of experienced preachers and homilists to provide a unique resource that examines the

preacher's unique role as shepherd and a spiritual leader. The chapters will investigate these dual roles according to the roots of the Catholic spiritual tradition and provide practical advice for priests, deacons, seminarians in homiletics classes or preaching classes, retreat leaders, RCIA catechists, all who preach. *Preaching as Spiritual Leadership* provides solutions to the following questions: How is preaching embedded in the Church's pastoral mission? What does it mean to be a shepherd and spiritual leader for others? How can a preacher flourish in the role of spiritual leader? How can we lead others into committed discipleship through preaching? To be a shepherd and spiritual leader, the preacher must be in some sense a mystic who is filled with the Lord's gracious presence, a presence to be shared with others. Homilists are sacramental people; they must also be mystagogues, ministers who can both lead the community's ritual celebrations and help the People of God to plunge into the liturgy with lively faith to touch the holy realities behind them.
