Translation Globalisation And Localisation A Chinese Perspective Topics In Translation:

Translation, Globalisation and Localisation Wang Ning, Sun Yifeng, 2008-03-28 The global local distinction has changed significantly and the topic has been heatedly debated in literary and cultural as well as translation scholarship In this age of globalisation the traditional definition of translation has been altered In the present anthology translation is viewed as a cultural and political practice and accordingly translation studies is based on a heightened awareness of global local tensions in translation and of its moderating and transforming impact on local cultural paradigms All the essays in this anthology deal with issues of translation from a cultural and theoretic perspective with regard to tensions and conflicts between global and local interests and values No matter how different their approaches may seem the essays are thematically integrated to discuss translation in a dialectical framework either globalising Chinese issues internationally or localising general and international issues domestically

The Cultural Turn in Translation Studies Wang Ning, 2023-12-06 Applying the latest Western translation theories to the situation in China this book redefines translation from an interdisciplinary and intercultural perspective bringing intercultural semiotic translation into the sight of translation researchers This book systematically expounds on the cultural turn in translation studies and contributes to the escape of translation studies from the cage of language It focuses on discussing the deconstructive postmodernist and cultural translation theories that have motivated and promoted the cultural turn especially Benjamin s translation theory Derrida s deconstructive view of translation and postcolonial translation theory It also discusses in detail the theories of major international translation theorists including Hillis Miller Wolfgang Iser Edward Said Gayatri Spivak Homi Bhabha Andr Lefevere Susan Bassnett and Lawrence Venuti These theories are mostly based on examples from Western or English language texts leaving a wide gap in the discourse of the field This book seeks to fill that gap For example intercultural semiotic translation is defined and explained through the successful experiences of the Chinese translator Fu Lei The role of translation during the Chinese revolution and the relocation of Chinese culture in the global cultural landscape through translation are also discussed This book will be an essential read to students and scholars of translation studies and Chinese studies It will also be a useful resource for translators and researchers of comparative literature and cultural studies
