Formation for Life Glen Stassen, Rodney L. Petersen, Timothy A. Norton, 2013-08-16. From all corners of the world both inside cities and in the remote countryside the cry for just peace rings out loud and strong. But as many will note in this book the cry for just peace isn't enough for just peace requires active faith, working hands and willing hearts. Gathered in this volume are essays written from a wide variety of perspectives, religious traditions, nationalities and ages from a sixteen year old high school student to an eighty four year old senior professor that seek to offer insight toward answering one question: How are just peacemaking, faith formation and discipleship connected within a twenty first century context?

Radical Curiosity Seth Goldenberg, 2022-08-23. A bold manifesto arguing that the most complex challenges we face today as individuals, businesses and a society require us to ask deeper questions, not seek easier answers. With this beautifully written book Seth Goldenberg awakens the gifts we all possess: wonder, optimism and the fearlessness to reverse destruction. Bruce Vaughn, vice president of experiential creative product at Airbnb. In a world with an endless hunger for innovation, why is it so hard to create audacious change? According to thought leader Seth Goldenberg, the answer to this question stems from how we as a society view questions themselves. In *Radical Curiosity*, Goldenberg argues that because we value knowing above learning and prioritize doing over thinking, curiosity has become an endangered species. Only by rediscovering the power of questions can we hope to rewrite the commonly held legacy narratives that no longer serve us and to remake our organizations, our politics and our lives. With this empowering book, Goldenberg introduces the practice of *Radical Curiosity* through the lens of seven narratives that are going through significant transformation: Learning, Cohesion, Time, Youth, Aliveness, Nature and Value. Along the way, he unpacks principles intended to spark our own questioning, including: Education is too big to fail but maybe it should; Time travel isn't reserved for DeLoreans; Let us now praise rural communities; Survival economics have made imagination a luxury good; Blending philosophy, business strategy, cultural criticism and fascinating case studies. *Radical Curiosity* is a new way of solving our most complex problems, one focused not on technology or science but on the power of human inquiry. By asking us to relearn how we learn, reengage in dialogue, revive our youthful sense of wonder and rethink what we value, it reignites the curiosity needed to imagine and build a better
