- Combat forces augmented with Civil Affairs, PSYOP, engineers, MPs must also plan and control post conflict operation.
- Post Conflict Force integration occurs at execution mission.

A Transformational Proposal:

- Create two standing Joint S&R Commands, one AC/one RC division equivalents.
- S&R JCOM plans, trains, exercises, develops doctrine and deploys to AOR.
- Maximize jointness with Army lead.
- Capable of operating in hostile environment.
- Capable of operating under a Joint Command or as a separate JTF.
- Modular, scalable, tailorable for mission, embedded interagency.
- Provide link to NGOs, contractors to hand off to civilian leadership for nation-building.

Bureau of Foreign Commerce, 1954 *The Dramatic Diplomacy of Internationals: Power, Strategy, and Conflict in the 21st Century* (2020-2025) KHRITISH SWARGIARY, 2025-05-08 The past half decade has borne witness to an unprecedented reshaping of global diplomacy From the corridors of Washington and Beijing to the contested straits of the South China Sea from the digital marketplaces of New Delhi to the energy pipelines feeding Europe states have leveraged every tool at their disposal economic military technological and normative to advance their national interests When I embarked on this project in early 2024 it was clear that the period 2020-2025 would prove pivotal shifting alliances emergent crises and accelerating technological change have combined to redraw the strategic map This book *The Dramatic Diplomacy of Internationals Power Strategy and Conflict in the 21st Century* 2020-2025 seeks to provide both a panoramic overview and a finely grained analysis of how the world's ten most powerful nations have navigated this turbulent era Drawing on official communiqués first hand interviews with diplomats and defense planners detailed trade and investment data and contemporaneous case studies I have endeavored to chart the evolving strategies of the United States China Russia India Germany France Japan Brazil Saudi Arabia and Turkey Each chapter balances rigorous data with narrative storytelling revealing not only what decisions were made but how and why they emerged from the interplay of domestic politics regional dynamics and global imperatives In Chapter 1 we trace America's turn from the unilateralism of the late 2010s toward a more adaptive realism one that marries selective restraint with technological competition and calibrated alliance building Chapter 2 examines China's ascent in the realm of techno diplomacy where infrastructure financing digital surveillance exports and wolf warrior rhetoric coexist with an ambitious climate agenda Chapter 3 delves into Russia's hybrid toolkit energy coercion cyber proxy warfare and Arctic militarization capped by case studies of its advances in Ukraine Chapter 4 explores the European Union's struggle for strategic autonomy amidst transatlantic strains green diplomacy and migration pressures Chapter 5 spotlights the ascending roles of India Brazil and Turkey three nations forging new paradigms of digital governance environmental stewardship and regional mediation In Chapter 6 we map the shifting rivalries of the Middle East from the fleeting Iran Saudi rapprochement to Jordan's deft peacemaking in Gaza Chapter 7 turns to Africa where the African Union's campaign for

Security Council reform and the Wagner Group's mercenary ventures underscore the continent's critical stakes in great power competition. The Conclusion synthesizes these threads arguing that successful diplomacy in our polycrisis age demands a blend of nimble technology adoption, networked partnerships, and at times even contrarian realpolitik. I am deeply grateful to the many researchers, regional specialists, and diplomatic interlocutors who granted their time and insights. My thanks also go to the institutions that provided access to archival materials and field-level data. Above all, I hope this work serves as a guide for policymakers, scholars, and informed citizens alike, illuminating the dramatic interplay of power and principle that shapes our shared future. Thailand--a Market for U.S. Products Paul A. Mayer, 1962. Thailand is an excellent market for American goods. Political stability, traditional friendship with the United States, popularity of American products, sound fiscal and economic management, and gradual industrialization with a resulting rise in individual purchasing power all create a welcoming climate for sales of U.S. products. In recognition of this potential, Bangkok has been chosen as the site for a new U.S. Trade Center serving the entire Southeast Asian area. This study is part of the Department of Commerce's continuing effort toward increasing U.S. exports and the general stimulating of our international trade. The expansion of American-Thai economic relations will not only assist in improving our balance of payments and thus aid American economic growth but can also contribute substantially to the well-being of the Thai people. **Congressional Record** United States.
