Urban Outcasts Urban Outcasts:

Urban Outcasts Loïc Wacquant, 2013-04-26 Breaking with the exoticizing cast of public discourse and conventional research Urban Outcasts takes the reader inside the black ghetto of Chicago and the deindustrializing banlieue of Paris to discover that urban marginality is not everywhere the same Drawing on a wealth of original field survey and historical data Loïc Wacquant shows that the involution of America's urban core after the 1960s is due not to the emergence of an underclass but to the joint withdrawal of market and state fostered by public policies of racial separation and urban abandonment In European cities by contrast the spread of districts of exclusion does not herald the formation of ghettos It stems from the decomposition of working class territories under the press of mass unemployment the casualization of work and the ethnic mixing of populations hitherto segregated spawning urban formations akin to anti ghettos Comparing the US Black Belt with the French Red Belt demonstrates that state structures and policies play a decisive role in the articulation of class race and place on both sides of the Atlantic It also reveals the crystallization of a new regime of marginality fuelled by the fragmentation of wage labour the retrenchment of the social state and the concentration of dispossessed categories in stigmatized areas bereft of a collective idiom of identity and claims making These defamed districts are not just the residual sinkholes of a bygone economic era but also the incubators of the precarious proletariat emerging under neoliberal capitalism Urban Outcasts sheds new light on the explosive mix of mounting misery stupendous affluence and festering street violence resurging in the big cities of the First World By specifying the different causal paths and experiential forms assumed by relegation in the American and the French metropolis this book offers indispensable tools for rethinking urban marginality and for reinvigorating the public debate over social inequality and citizenship at century's dawn **Urban**

Ocejo, 2019-10-22 Showcasing the ideas analysis and perspectives of experts in the method conducting research on a wide array of social phenomena in a variety of city contexts this volume provides a look at the legacies of urban ethnography s methodological traditions and some of the challenges its practitioners face today

Improving Educational Equity in Urban Contexts Carlo Raffo, 2013-12-17 An enduring educational concern that has plagued researchers and policy makers in a number of affluent countries is the endemic nature of educational inequalities These inequalities highlight distinct differences in the educational skills knowledge capabilities and credentials between learners demographic characteristics They also point to issues of educational disadvantage that emanate from a combination of factors including family life communities the geographies of space and place gender and ethnicity This book examines some of the causes and responses to educational inequalities and focuses upon poor urban contexts where educational disadvantage is at its most concentrated and where educational policy and practice has over time proliferated It questions how wider inequities experienced by young people in urban contexts generate educational inequalities and disadvantage detailing explicitly what an equitable approach to education might look like Included in the book is an innovative educational equity framework and toolkit with illustrative policy and practice case studies bringing together unique scholarship and analysis to examine future

educational policy in a holistic comprehensive and equitable way It will be valuable reading for postgraduate students
researchers and policy makers with an interest in education and educational equity City of Extremes Martin J.
Murray,2011-06-20 A powerful critique of urban development in greater Johannesburg since the end of apartheid in 1994
