Unmanned Aerial Vehicle End To End Support Considerations:

Unmanned Aerial Vehicle End-to-end Support Considerations John G. Drew, Russell Shaver, Kristin F. Lynch, Mahyar A. Amouzegar, Don Snyder, 2005 Evaluating current end to end support postures for certain UAV systems revealed that fielding a new capability quickly can have consequences for its long term support and for testing and evaluation training and plans for future enhancements

Unmanned Aerial Vehicle End-to-End Support Considerations, 2005 Unmanned aerial vehicles UAVs have been used in combat operations since the mid 1900s Office of the Secretary of Defense 2002 More recently both Operations Enduring Freedom and Iraqi Freedom have employed UAVs for intelligence surveillance and reconnaissance as well as time critical targeting These successes have confirmed the military utility of UAVs and portend that a greater number of such vehicles may become part of the DoD's future force posture However because of the acquisition strategy employed to field UAVs as quickly as possible the implications for their long term support needs are unclear

Supporting Air and Space Expeditionary Forces Ronald G. McGarvey, 2008 This monograph describes the new modeling approach developed to construct the CONUS CIRF network designs and presents detailed results from the specific analyses The analyses are based on F 15 F 16 and A 10 aircraft force structure bed downs resulting from the Defense Base Closure and Realignment Commission's 2005 recommendations For the three aircraft types all CONUS active duty bases Air National Guard ANG installations and Air Force Reserve Command AFRC installations possessing combat coded or training aircraft along with some Air Force Materiel Command AFMC bases were used as locations to be supported by CIRF networks CIRF network designs were constructed for aircraft engines TF34 F100 F110 electronic warfare EW pods ALQ 131 ALQ 184 Low Altitude Navigation and Targeting Infrared for Night LANTIRN navigation AN AAQ 13 and targeting pods AAQ 14s and F 15 avionics line replaceable units LRUs This set of commodities was chosen because previous analyses many of which were performed at RAND had suggested that they afforded the largest potential savings from consolidated maintenance Tasking scenarios considered in these analyses included normal peacetime training and readiness Air and Space Expeditionary Force AEF deployment taskings and major regional conflict MRC taskings

Operations Research for Unmanned Systems Jeffrey R. Cares, John Q. Dickmann, Jr., 2016-05-02 The first edited volume addressing analysis for unmanned vehicles with focus on operations research rather than engineering The editors have a unique combination of extensive operational experience and technical expertise Chapters address a wide ranging set of examples domains and applications Accessible to a general readership and also informative for experts

Analyzing the Drone Debates: Targeted Killing, Remote Warfare, and Military Technology James DeShaw Rae, 2014-03-16 The book examines principal arguments for and against the use of unmanned aerial vehicles for surveillance and targeted killing Addressing both sides of the argument with clear and cogent details the book provides a thorough introduction to ongoing debate about the future of warfare and its ethical implications

Supporting the Future Total Force Kristin F. Lynch, 2007 Given

manpower reductions in the active duty Air Force and availability of highly trained Air National Guard ANG personnel some missions could be transferred from the active component to the ANG without significant cost to the total force Portions of missions such as Predator operations and support air mobility command and control Commander of Air Force forces staffing and base level intermediate maintenance could benefit from ANG assignment

Space Command Sustainment Review Robert S. Tripp,2007 Space assets are vital to the economic social and military interests of the United States but these interests can conflict with one another especially when it comes to space system sustainment The authors worked with Air Force Space Command to develop a sustainment philosophy based on separation of demand supply and integrator processes and clear definition of responsibilities using specific systems and units for illustration

Military Robots and Drones Paul J. Springer,2013-01-09 This book provides an insightful introduction to the most important field of military innovation for the 21st century robotic and drone weaponry For centuries warring nations have sought to lower the risk to highly vulnerable humans on the battlefield typically by providing protective armor making soldiers positions more difficult to detect or by striking from locations safe from retaliation Autonomous weaponry has now reached the point where robotic systems can perform some key tasks that previously required direct human involvement

Military Robots and Drones A Reference Handbook introduces the lay person to a highly specialized topic providing the foundation necessary for further study in this field Appropriate for high school and college level students as well as general readers with an interest in the topic the author explains the many military applications of robotics as well as current limitations and disadvantages The book also provides a general history of robotic warfare examines key individuals agencies documents and models discusses controversies within the field of robotic and drone warfare such as ethical considerations and explains how increased reliance on robotics has affected the structure and strategy of the military

Unmanned Aerial Systems John David Blom,2010 Manned aerial reconnaissance from the balloons of WWI to the helicopters of Vietnam solidified the tactical need for Army Aviation which remained relatively unchanged until 1990 Significant changes have since occurred on the battlefield with the advent of the modern day unmanned flight and its technological abilities From its humble beginnings of the suggested use of a toy aircraft kit to the development and use in today's warfare in Iraq and Afghanistan the unmanned aerial vehicle UAV possesses a deep history Understanding this past may provide clues into where this technology may be going and what problems could lie ahead
