

The background of the book cover is filled with various hand-drawn sketches in a light, sketchy style. These include several faces, some with exaggerated features like large noses or wide eyes, and some figures that appear to be in motion or in a state of distress. The sketches are scattered across the entire cover, creating a sense of visual clutter and 'unruliness' that complements the title.

Unruly Examples Alexander Gelley,2022 **New Rhetorics for Contemporary Legal Discourse** Condello Angela Condello,2020-03-18 Are the general and the particular separated in legal rhetorics What is the function of singular events facts names in legal argumentation and what is their relationship to legal normativity Bringing together an international range of legal scholars this collection takes a diachronic approach and addresses these questions from the perspective of contemporary legal discourse It explores the changes in legal form and transmission that have been generated both by globalisation and by common law s irreversible encounter with the civilian methods of European law It explores how in the contemporary legal discourse exemplarity and all rhetoric processes based on the general particular dichotomy more generally regained relevance In doing so it highlights the centrality of the example and proposes the development of new rhetorical approaches better suited to today s legal practices which operate in a globalised field **Exemplary**

Ambivalence in Late Nineteenth-Century Spanish America Elisabeth L. Austin,2012-09-14 Exemplary Ambivalence in Late Nineteenth Century Spanish America Narrating Creole Subjectivity casts new light on the role of exemplary narrative in nineteenth century Spanish America highlighting the multiplicity of didactic writing and its dynamic relationship with readers as interpretive agents Drawing on literary and historical models of creole heterogeneity Austin s study probes the unstable social and ethnic fictions of the creole elite as they portray themselves through the flawed canvas of exemplary discourse Exemplary Ambivalence examines creole subjectivity through postcolonial and Latin American theoretical lenses to show that Spanish American creole subjects always multiple reveal their ideological ambivalence through exemplary narrative This study examines a cross section of canonical and lesser known texts written toward the end of the nineteenth century by authors across Spanish America including Eugenio Cambaceres Argentina Jos Asunci n Silva Colombia Jos Mart Cuba Clorinda Matto de Turner Peru and Juana Manuela Gorriti Argentina These texts range from realist and modernist novels to a cookbook of multiple authorship and engage issues of nationalism citizenship gender indigenous rights and liberal ideologies within the historical context of Spanish America s weakened democracies and modernizing economies at the end of the nineteenth century Austin s research fills a critical gap within studies of the nineteenth century in Spanish America as it explores the inconsistencies of exemplary texts and emphasizes the forms sources and implications of creole ideological and narrative multiplicity By recognizing the inherent ambivalence of exemplary discourse along with creole writing and reading subjectivities Exemplary Ambivalence opens fresh perspectives on canonical texts while it also engages some of the non canonical hybrid and fragmentary texts of nineteenth century reading culture **Ethics and Exemplary Narrative in Chaucer and Gower** John Allan Mitchell,2004 *Influence: On Rhetoric and Biblical Interpretation* Michal Beth

Dinkler,2021-03-22 The influence of the Bible in human history is staggering Biblical texts have inspired grand social advancements intellectual inquiries and aesthetic achievements Yet the Bible has also given rise to hatred violence and oppression often with deadly consequences How does the Bible exert such extraordinary influence The short answer is rhetoric In *Influence On Rhetoric and Biblical Interpretation* Michal Beth Dinkler demonstrates that contrary to popular opinion rhetoric is not inherently empty or disingenuous Rhetoric refers to the art of persuasion Dinkler argues that the Bible is by nature rhetorical and that understanding the art of persuasion is therefore vital for navigating biblical literature and its interpretation *Influence* invites readers to think critically about biblical rhetoric and the rhetoric of biblical interpretation and offers a clear and compelling guide for how to do so

Local Histories Patricia Donahue,Gretchen Flesher Moon,2007-09-23 In *Local Histories* the contributors seek to challenge the widely held belief that the origin of American composition as a distinguishable discipline can be traced to a small number of elite colleges such as Harvard Yale and Michigan in the mid to late nineteenth century Through extensive archival research at liberal arts colleges normal schools historically black colleges and junior colleges the contributors ascertain that many of these practices were actually in use prior to this time and were not the sole province of elite universities Though not discounting the elites influence the findings conclude that composition developed in many locales concurrently Individual chapters reflect on student responses to curricula the influence of particular instructors or pedagogies in the context of compositional history and the difficulties inherent in archival research What emerges is an original and significant study of the developmental diversity within the discipline of composition that opens the door to further examination of local histories as guideposts to the origins of composition studies

Reading Renaissance Music Theory Cristle Collins Judd,2000-11-30 This book examines a central group of music theory treatises that have formed the background to the study of Renaissance music Taking theorists music examples as a point of departure it explores fundamental questions about how music was read and by whom situating the reading in specific cultural contexts Numerous broader issues are addressed in the process the relationship of theory and praxis access to and use of printed musical sources stated and unstated agendas of theorists orality and literacy as it was represented via music print culture the evaluation of anonymous repertoires and the analysis of repertoires delineated by boundaries other than the usual ones of composer and genre In particular this study illuminates the ways in which Renaissance theorists choices have shaped later interpretation of earlier practice and reflexively the ways in which modern theory has been mapped on to that practice

Montaigne and the Lives of the Philosophers Alison Calhoun,2014-12-18 In his *Essais* Montaigne stresses that his theoretical interest in philosophy goes hand in hand with its practicality In fact he makes it clear that there is little reason to live our lives according to doctrine without proof that others have successfully done so Understanding Montaigne s philosophical thought therefore means not only studying the philosophies of the great thinkers but also the characters and ways of life of the philosophers themselves The focus of *Montaigne and the Lives of the*

Philosophers Life Writing and Transversality in the Essais is how Montaigne assembled the lives of the philosophers on the pages of his Essais in order to grapple with two fundamental aims of his project first to transform the teaching of moral philosophy and next to experiment with a transverse construction of his self Both of these objectives grew out of a dialogue with the structure and content in the life writing of Plutarch and Diogenes Laertius authors whose books were bestsellers during the essayist's lifetime *Eating Well, Reading Well* Nicole Simek, 2008-01-01 While rejecting a conception of literature as moral philosophy or a device for imparting particular morals to the reader through exemplary characters and plots Maryse Condé has displayed throughout her writing career a strong valorization of literature as ethical critique This study examines her singular approach to literary commitment as a critical reworking of aesthetic models and modes of interpretation Focusing on four dominant problematics in Condé's work history and globalization in *La Belle Créole* and *Moi Tituba sorcière noire de Salem* intertextuality and reception in *La migration des corps* and *Clanire coup de trauma* and subjectivity in *En attendant le bonheur* and *Desirada* community and ethics in *Traversée de la mangrove* and *Histoire de la femme cannibale* this analysis proposes to elucidate how and to what ends Condé engages and alters approaches to reading staging the problematic yet pragmatic need to read well This hermeneutic imperative foregrounds the need to engage with texts to cannibalize texts while recognizing their fundamental opacity and inexhaustibility their resistance to the reader's interpretive habits
