Fay, L. von Morze, 2013-02-21 The constant flow of people ideas and commodities across the Atlantic propelled the development of a public sphere Chapters explore the multiple ways in which a growing urban consciousness influenced national and international cultural and political intersections **Urban Identity and the Atlantic World** E. Fay, L. von Morze, 2013-02-21 The constant flow of people ideas and commodities across the Atlantic propelled the development of a public sphere Chapters explore the multiple ways in which a growing urban consciousness influenced national and international cultural and political intersections Atlantic Afterlives in Contemporary Fiction S. Ahlberg, 2016-04-08 *Atlantic Afterlives in Contemporary Fiction* offers fresh readings of what has been called transatlantic literature In selected twentieth and twenty first century texts it discovers a shift from oceanic place based knowledge to an atmospheric placeless circulation of information Consonant with the displacements of the Information Age this book reads contemporary narrative as it imagines and navigates today's virtual spaces An important conclusion of the book is that intellectual resources are finite and should be used sustainably Thus arguing against a conventional comparative approach this book proposes reading practices that resist the tendency toward an oversupply of reworked literary contexts that seems bent on matching the reach of the World Wide Web Instead the book reimagines place as a practice in the way it is communicated and narrated Ultimately this book empowers the reader to reimagine a future for narrative in the Information Age *Hospitality and the Transatlantic Imagination, 1815-1835* Cynthia Schoolar Williams, 2014-05-13 *Hospitality and the Transatlantic Imagination 1815-1835* argues that a select group of late Romantic English and American writers disrupted national tropes by reclaiming their countries shared historical identification with hospitality In doing so they reimagined the spaces of encounter the city the coast of England and the Atlantic itself Trans-Atlantic Passages J. Mitchell, 2014-12-09 Philip Hale 1854-1934 helped put Boston on the Transatlantic map through his music writing Mitchell reconstructs Hale's oeuvre to produce an authoritative account of the role the Boston Symphony played in the international world of nineteenth and early twentieth century music **Cities and the Circulation of Culture in the Atlantic World** Leonard von Morzé, 2017-06-29 This book provides a much needed comparative approach to the history of cities by investigating the dissemination of cultural forms between cities of the Atlantic world The contributors attend to the various forms and norms of cultural representation in Atlantic history examining a wealth of diverse topics such as the Portuguese Atlantic the Spanish Empire Guy Fawkes and the conspiratorial rhetoric of slaves Albert Charles Wulffleff and the Parc Musé de Dakar and the writings of Jane Austen Alexis de Tocqueville Benjamin Franklin and others By interpreting Atlantic urban history through sustained attention to customs and representational forms an international group of nine contributors demonstrate the power of culture in the making of Atlantic urban experience even as they acknowledge the harsh realities of economic history The Transatlantic Eco-Romanticism of Gary Snyder Paige

Tovey, 2013-12-18 Tracing connections between Gary Snyder and his Romantic and Transcendentalist predecessors Wordsworth Blake Emerson Whitman and Thoreau this study explores the tension between urbanization and overindustrialization The dialectical relationship between Snyder and his predecessors reminds readers that nature is never a simple concept **Suburbia Reconsidered, Volume 1** Pavlína Flajšarová, Jiří Flajšar, Florian Freitag, Becky Nicolaides, Andrew Wiese, 2025-11-20 This 3 volume set examines how suburban spaces shape and reflect human experiences in North America Europe and Asia bringing together works by an international group of scholars who explore suburbia through critical analyses of literature culture sociology history politics and urban planning The multidisciplinary and international scope of each volume offers readers a wide breadth of perspectives Suburbia Reconsidered thus contributes significantly to the expanding field of suburban studies by offering novel insights into the representation of suburbs in literature the cultural significance of suburban environments and the socio economic challenges confronting suburban communities across the globe Volume 1 of this 3 volume set examines the depiction of suburban spaces in 20th and 21st century British American Canadian and French literature The contributors present original perspectives on how suburban environments influence human experiences and identities as reflected in literature Chapters in this section also probe the intersections of gender race and ethnicity within suburban fiction and traverse popular genres from detective novels to memoirs By integrating insights from literature cultural studies sociology history and urban planning Suburbia Reconsidered enhances our understanding of suburban spaces and their potential for positive transformation and encourages scholars to explore new methodologies and perspectives *The Cambridge Companion to Women's Writing in the Romantic Period* Devoney Looser, 2015-03-12 A wide ranging and accessible account of the pioneering professional women writers who flourished during the Romantic period *Urban Space as Heritage in Late Colonial Cuba* Paul Niell, 2015-05-15 According to national legend Havana Cuba was founded under the shade of a ceiba tree whose branches sheltered the island's first Catholic mass and meeting of the town council cabildo in 1519 The founding site was first memorialized in 1754 by the erection of a baroque monument in Havana's central Plaza de Armas which was reconfigured in 1828 by the addition of a neoclassical work El Temple Viewing the transformation of the Plaza de Armas from the new perspective of heritage studies this book investigates how late colonial Cuban society narrated Havana's founding to valorize Spanish imperial power and used the monuments to underpin a local sense of place and cultural authenticity civic achievement and social order Paul Niell analyzes how Cubans produced heritage at the site of the symbolic ceiba tree by endowing the collective urban space of the plaza with a cultural authority that used the past to validate various place identities in the present Niell's close examination of the extant forms of the 1754 and 1828 civic monuments which include academic history paintings neoclassical architecture and idealized sculpture in tandem with period documents and printed texts reveals a dissonance of heritage in other words a lack of agreement as to the works significance and use He considers the implications of this dissonance with

respect to a wide array of interests in late colonial Havana showing how heritage as a dominant cultural discourse was used to manage and even disinherit certain sectors of the colonial population
